

GALAXIAN 3

Fight shoulder to shoulder with your friends or a team of computer controlled gunners in an epic battle in deep space. Can you keep your head amongst a cataclysmic maelstrom of attack ships and incoming fire?

GETTING STARTED: set up your PlayStation and insert the disc as described in your PlayStation manual. If you are planning a 3-4 player game (you'll need a Multi tap and extra controllers to do this) you should set it all up before switching on the power: insert the Multi tap into Controller port 2, and connect the controllers into

Controller ports A through to D depending on how many you have. Galaxian 3 is compatible with all PlayStation controllers - however if you are using an Analog joystick make sure you calibrate it first by accessing "OPTIONS" then "Blaster Settings" then "ADJUST".

Note, if less than four people are playing you can bring in a computer-controlled gunner to fight alongside you by selecting "OPTIONS" then "GUNNER BATTLE".

BEGINNING A GAME

Once you've chosen one of the two missions available, select "Start" from the Main Menu. When the player entry countdown screen appears anyone who wants to take part has to register their entry by pressing the START button on an available controller. Your role is that of ship's gunner - the pilot navigates and controls the ship, it's up to you and your fellow gunners to defend it against incoming attack and take out the mission targets.

CONTROLS

FUNCTION	Standard Controller	Mouse	Analog Joystick	neGcon
