A BRIEFING TO S.T.A.A.R TEAM DEPARTMENT OF NATIONAL DEFENSE S.T.A.A.R. DIVISION LIEUTENANT GENERAL G. ILOVEWAR COMMANDING OFFICER

From: G. ILOVEWAR, LGEN, USMC
To: S.T.A.A.R. Team Troops
Re: Alien Invasion

What you are about to read is a confidential file drafted three days ago. It was recently E-mailed to an unknown source in the CIA and has found its way into our hands. It's origins are unknown at this time, but it is believed that it originated at a secret military base known as Area 51. This base is so top-secret that, officially, it does not exist.

Area 51 is located in a remote valley 90 miles outside of Las Vegas. It is one of the most well-guarded bases in the world. Rumors and eyewitness accounts also suggest the base harbors a deeper, more secret purpose. Secret biological testing has been reported, as well as experiments on alien bodies taken from a spacecraft which crashed near Roswell, New Mexico in 1947.

Over the course of the last 48 hours, the base has become overrun with mutating alien creatures, and all contact has been lost.

Security around the base is tight and so critical that it isn't handled by the military. Instead, it is contracted out to a

privately run paramilitary force. We now know that this force and all of its weaponry has also been overtaken.

The invasion did not take place from the air. Instead, an alien infection has spread out of the underground laboratory area to other parts of the base. The infection brings forth three separate, very painful stages of a gruesome alien transformation. The human body is used as an incubator to grow a new combination of human and alien DNA.

The product of this alien transformation is now our enemy. (See **The Enemy**, pg. 22 of this document for details on the three mutation stages and photos).

This file was obviously drafted by a highly trained soldier in the last hours of his life. It describes a detailed method of invading the base to attempt an extermination of the alien presence. Follow the instructions in this file to the letter. Portions of the document have been edited by S.T.A.A.R for security purposes. The fate of humanity hangs in the balance.

Good Luck.

Before you blindly attempt to save the planet, you'll need some training. Select this option to prepare yourself for your suicide mission. Aim and fire at the targets to get used to your weapon's accuracy.

OPTIONS

You DO have some options that MAY give you a chance against the Kronomorphs. Make this selection to view them (see pg. 9).

When you make your choice, move the crosshair over the selection, then click the **Left Mouse Button**. Get ready, you'll be dropped right into some heavy gunfire. We'd wish you good luck, but unfortunately you'll need more than that.

THE TERRAIN

As you scramble for your life Inside the base, you'll have a constant view of your Ammunition, Health, Grenades and the base. The amount of Credits for you and your buddy are also displayed.

Ammunition

You are issued the standard ammunition for the mission, but you can accumulate two other types of rounds. Shoot every Power Up (see **Power Ups**, pg. 17) you see to accumulate these other types of rounds:

Machine Gun Shells - When you pick these up, hold the trigger down and watch the aliens bite the dust. Be aware, though, your ammo will go fast. Reload as often as possible.

THE TERRAIN

Shotgun Shells - These are powerful and great to have. The downside is the amount of rounds per clip. Reload as often as possible. If you hit another Power Up while you're using these, you'll fire automatic rounds if you hold down the trigger.

Note: These two types of ammunition are limited in quantity. Be aware that they will run out, and you'll have to use your standard rounds until you pick up more.

Health and Lives

Your heart rate is always monitored. The faster your heart rate, the closer you are to "checking out". Stay low and shoot them before they shoot you. The amount of Med Kits displayed represents the amount of direct bullet hits you can take. You can adjust this amount (see **Lives**, pg. 13).

Grenades

To possibly find grenades, shoot any Ammo Crates (see **Ammo Crates**, pg. 18) you see. These come in handy when an area gets too hot. If you find yourself surrounded, shoot the grenade. It will take out anything around you, except those ugly Purple Kronomorphs. You've got to plug them full of holes before they go down. The amount of grenades on your person is displayed on the grenades read-out.

Credits

The amount of credits remaining in your mission is displayed for you and your buddy. You can modify this amount (see **CREDITS**, pg. 13).

PRIMARY TARGETS

The obvious targets are the Kronomorphs and Zombies, but you're under orders to shoot many other items as well. Study these things carefully before you begin:

Power Ups

You'll find these hovering in the air as you move throughout the base. Shoot them to acquire larger, more powerful ammunition. When you hit a Power Up, your ammunition will change to Shotgun or Machine Gun rounds. You can achieve an automatic Shotgun by hitting a Power Up while you still have remaining Shotgun Shells.

Barrels

Yellow barrels are scattered throughout the base. These are favorite hiding places for the Zombies, so shoot as many as you can. They explode and take out anything in proximity. Destroying them adds to your Streak (see **Streak, pg. 20**) performance and may also unlock secret rooms.

PRIMARY TARGETS

Ammo Crates

Locked ammunition crates are found all over the base. Shoot them open to recover grenades or extended ammo clips. The clips come in handy when you don't have much time to reload.

Windows

This is a simple order: See a window? Shoot it! Windows unlock secret rooms and add to your Streaks (see **Streak, pg. 20**). Shoot out the windows in vehicles and in rooms.

Fire Extinguishers

Shoot Fire Extinguishers when you can. The force of the explosion will take out an Alien close by. It will not, however, kill the purple Kronomorphs.

PRIMARY TARGETS

Paintings

It may sound irrational, but you are under orders to shoot the paintings, too. For some reason, they may give you grenades or access to secret rooms.

Machinery

Destroy all computer equipment and any other items on desks and tabletops. We need to cut off their contact to the outside world.

Secret Rooms

AREA 51 has many of these rooms. Unfortunately, there's no information available at this time regarding their location and quantity. We strongly suggest that you shoot everything in sight. The rooms will present themselves if you've hit the right combination of targets.

MISSION STATUS REPORTS

RANK - You can keep track of any promotions by looking at your Mission Status Reports. Your rank will be displayed at the top of the report.

ACCURACY - The ratio of Shots Fired and Targets Hit is tallied during each stage. Your hit percentage is recorded.

KILLS - You better have a lot of these. Each time you make a Kill, it is counted on your report.

STREAK - As you shoot and destroy, you are rewarded for accuracy. When you hit your targets without a miss, the amount of targets you hit in a row will be displayed. This skill is taken into account when your Rank is determined.

SHOTS - The amount of shots fired is accumulated during battle. Keep your Shot count down and your Kill count up to receive the highest points toward a promotion.

DAMAGE - This number represents the objects you've destroyed. The more barrels, crates, etc. you shoot, the higher the number.

TOTAL SCORE - Your cumulative points for any completed stages is given.

THE S.T.A.A.R. TEAM

A BRIEF HISTORY:

Formed in 1958 at the height of the Cold War, the creation of the *Special Tactical Advanced Alien Response* (S.T.A.A.R.) was a direct response to the threat of armed alien invasion.

In the years after World War II, as US and USSR pilots continuously set new high altitude and performance records, an increasing number of strange aircraft sightings were reported near the boundary of Earth's stratosphere. Most of these were written off to the extreme effects of high-altitude navigation, which can cause hallucinations and "gray-outs," often causing pilots to see light. Some of these pilots, though, were adamant in their belief that there was something else "out there" in space, watching us.

A S.T.A.A.R. Point Team has been dispatched for the assault on **AREA 51**. The team's soldiers wear bright blue and are clearly marked with "S.T.A.A.R." on their uniform. PAY ATTENTION - DO NOT SHOOT THEM. Friendly Fire costs lives.

THE ENEMY

The Kronomorphs were designed to quickly and rapidly accept the latest "weapons" codes that the Kronn geneticists have developed. As a result, they are hot-beds for fast DNA assimilation and replication, integrating DNA into their systems and using the information in a matter of days or even hours. They are creatures that can adapt to their environment with rapid speed, adopting the best traits of the various species around them. Still, for all of their genetic abilities, the Kronn scientists have kept the Kronomorphs deliberately stupid, and they have remained that way, obeying the orders of their Kronn masters as if they were a strange combination of warrior and mind-controlled slave. Study these profiles very closely. You'll know these creatures when you see them, but you'll need to know this background information before going in.

ZOMBIE

Metamorphosis: Stage 1

Human flesh turns gray and begins rotting from the body, drooping into large folds. An alien larva begins growing within the body, roughly taking the shape of the human skeleton.

UNKNOWN

Metamorphosis: Stage 2

We have word-of-mouth reports about Stage 2, but no documentation or pictures. It is a short, very painful transitional stage where the alien literally explodes out of the incubating human sac. Because of the rapid speed of genetic replication, the host body

THE ENEMY

needs a large source of raw bioplasma, and at this stage the mutants must feed voraciously. In addition to being replicatory hosts, humans are also a source of food. Reports have come in about a room called the Chow Palace, where Stage 2 aliens may have been sighted. We can't confirm any information at this time.

KRONOMORPH **Metamorphosis: Stage 3**

Stage 3 is the full blown alien stage. The alien is heavily armored and extremely fast, and can grow bioplasma weapons from its own flesh. These include a plasma based particle beam and hardened calcium carbonate projectiles. The alien has one large eye in the center of its head, which can project light as well as scan terrain for heat patterns. Two smaller eyes in the middle of the head monitor our conventional light spectra. Aliens feed through a large mouth in the center of the chest, assisted and protected by six functional arms that fold over when not in use. Reports have surfaced about purple Kronomorphs that can withstand multiple rounds of fire. Pump some lead into these guys, and they should go down.

Kronomorph - the virulent evolved form; quick and lethal.

SAVING THE PLANET

No information or guidance available re: this subject. We DO have reports (see message below) that there is an Alien Spacecraft somewhere on the base. We suggest you destroy all alien beings, then concentrate on destroying the ship; if it exists. You'll only have your guns to work with, so make every shot count.

(CLASSIFIED) FINAL TRANSMISSION FROM AREA 51 PERSONNEL.

"...UNIDENTIFIED ALIEN SPACE CRAFT RUMORED TO BE WITHIN FACILITY PERIMETER...TERMINATE ALIEN BEINGS FIRST PRIORITY...SEARCH & DESTROY VESSEL SECONDARY PRIORITY..." end of transmission

THE HISTORY BOOKS

If you survive this suicide mission, the history books will regard you as a hero for all time. Following a successful mission, you may enter your name in the books. Here's how:

- Aim the crosshair over the character you want, then press the **Fire Button**.
- Repeat **Step 1** until you've completed your entry. Select the (left) arrow to back up and fix mistakes. Select **Done** to enter your name. Your name will be displayed as one of the Top Ten S.T.A.A.R. Soldiers to take on the Kronomorphs. Congratulations on a job well done!
