Marksman Shooting

What's Happening

You're a member of the elite force DRANNON. Terrorists are threatening to overtake the world. To stop them, you must shoot fast and aim true.

You're on the firing line and every shot counts. Training like this means that when you confront the terrorists you're sure to win. After you've finished one tough round, you've earned the right to another.

With each round of targets, shooting time gets shorter and targets get harder to hit. You've either got to be good or be finished. There's no second chance.

Who's Who

It's just you — and some of the world's trickiest targets. They'll bob, they'll weave. And with each round they'll get a bit more sneaky. And a lot faster. If you've got the skill, here's where to show it.

What's What

Aim for the bullseye. Score a hit and the target will drop. Points scored will be displayed. Aim and fire as many times and as fast as you can. Remember, the clock is ticking.

Know The Score

You've got to make your mark, or you're out. Shoot straight and get another round. Miss, and it's good-bye.

Taking Control

It's easy. Just plug the Light Phaser into Port 1, aim, and pull the trigger. Stand about 4-6 feet from the screen. Now you're set to go. Blink once and it's all over.

Helpful Hints

Your ammunition is unlimited. So fire away. Need a bigger challenge? Try shooting left-handed.

Trap Shooting

What's Happening

Here's a fast moving game to test your reflexes. You're a champion trap shooter out for a little practice. Two targets pop up. BAM BAM. You demolish them. Two more, BAM BAM. You're hot!

You move from grassland to seaside, and from seaside to desert and then to a lakeside. Always relaxed. Always alert. You've only got three shots each time. Make them count!

Who's Who

You're alone. On the prowl. In dense forest and marshy grassland. TARGET—SHOOT. It's that quick! A rapid shot earns you big points. Spot them fast, and take them quick. That's the name of this game.

What's What

For each round there are ten targets. Two at a time. You've got three shots. Hits are shown in red, misses in white.

Know The Score

Shoot quick, and shoot straight. The faster your shot or the greater the distance the higher your score.

Hit immediately after release	5,000 points
Hit a short distance away	500, 700, 1,000 points
Hit at medium distance	700, 1,000, 1,200 points
Hit at long distance	1,000, 1,200, 1,500 points

Oops. Try Again

If you don't get the required number of hits, it's GAME OVER. Reload and try again.

Helpful Hints

You've only got three shots each time, so don't waste them. Rapid shooting gets you the big points. So shoot quick. Having a good round? Then go for the 5,000 point bonus shot.
