# TROUBLE IN VIRTUA CITY

Detective Janet Marshall is the new face on the force at the VCPD Special Investigations Unit. Her specialty is subject profiling — the analysis of every detail at a crime scene used to determine patterns of criminal behavior and personality types. Her acumen and expertise in the crime lab have made her reputation and put more than a few nasty customers behind bars. But last year she lost her partner and mentor, Nick Anderson, while on a case. Janet left the lab to join the Special Investigations team this spring, allowing her to devote herself to tracking down Anderson's killers full-time. Janet is definitely her own woman, some would say she's just plain stubborn, but nobody doubts her ability to crack tough cases.

Last summer, the original Virtua Cops, Michael "Rage" Hardy and James "Smarty" Cools, shut down the EVL Inc. criminal empire. Three of the head figures in the EVL syndicate — company president Eldon Vile, security chief King and gang leader Boss Kong are cooling their heels in the maximum security federal pen. And the final member of the EVL gang of four, international terrorist Joe Fang, is believed to have been killed in a helicopter crash, though his body was never recovered.

After the downfall of EVL Inc., a comprehensive investigation of their black market and gun-running activities was launched. The Virtua City Bank is under suspicion of involvement in an immense money-laundering operation, and the bank vice-president has recently met with an untimely "accidental" death.

Following his death, a secret database was discovered, showing periodical transfers of funds between EVL and the Virtua City Bank, but the money, equivalent to a small country's GNP, has somehow disappeared.

Rage, Smarty and Janet smell a rat, and it doesn't smell good. Some new danger threatens Virtua City.

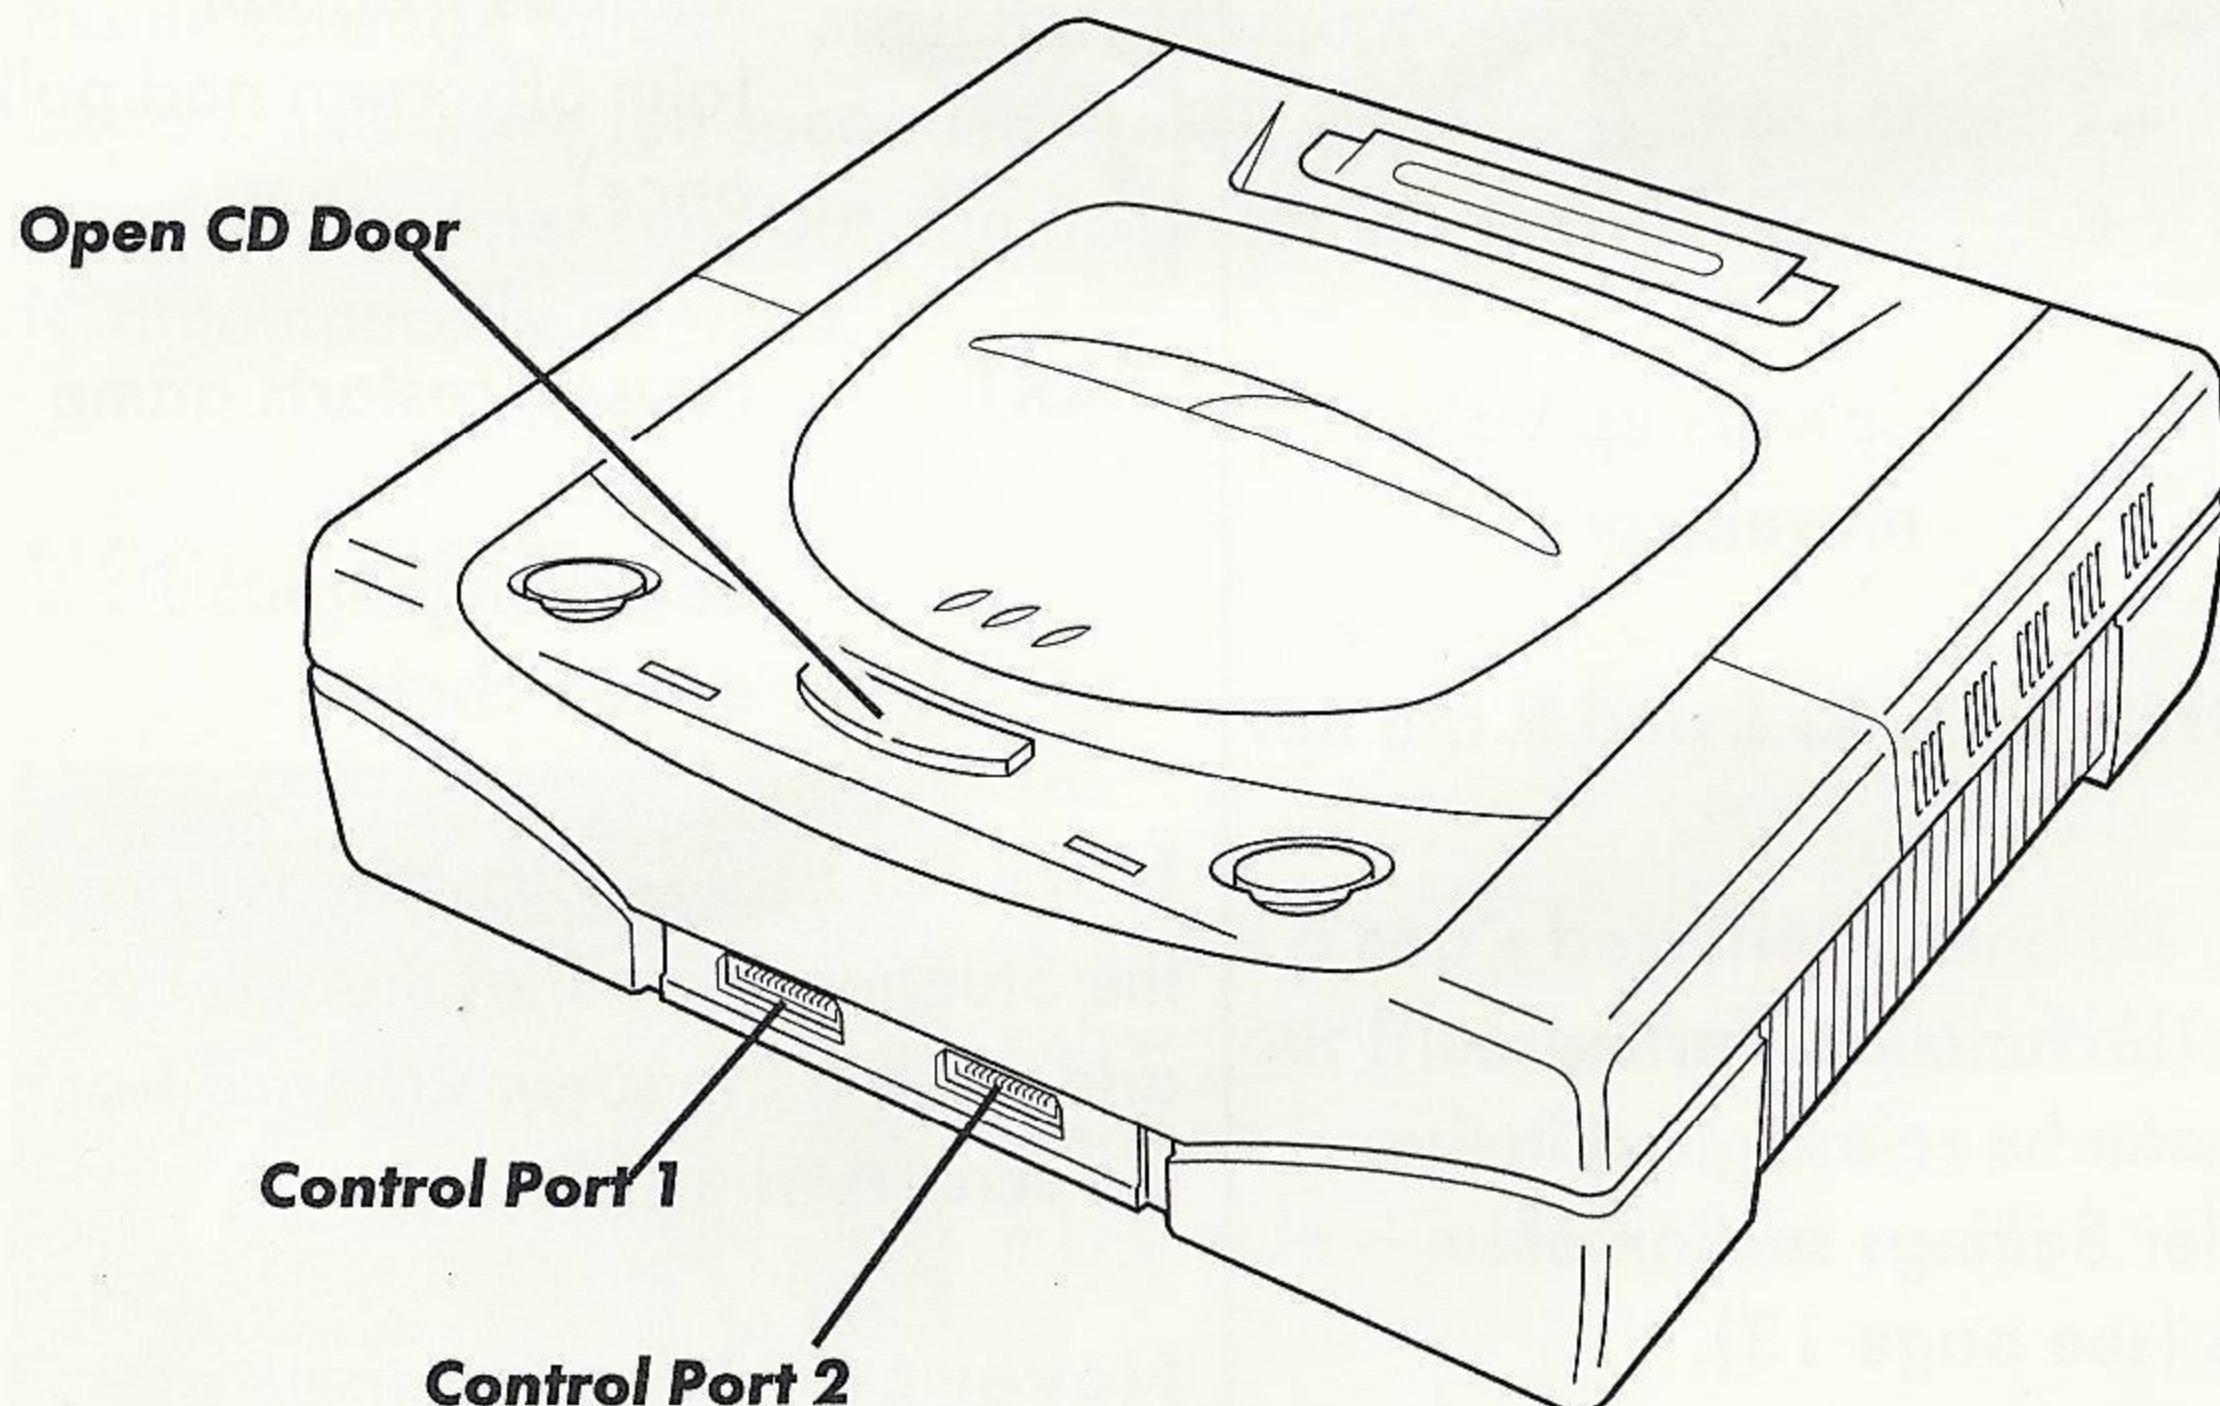

# STARTING UP

1. Set up your Sega Saturn system by following the instructions in the Sega Saturn Instruction Manual. Plug in a Control Pad, or the Sega Saturn Stunner (sold separately), into Control Port 1. For two-player games, connect a Control Pad or Stunner to Control Port 2 as well.

**Note:** *Virtua Cop 2™* is for one or two players.

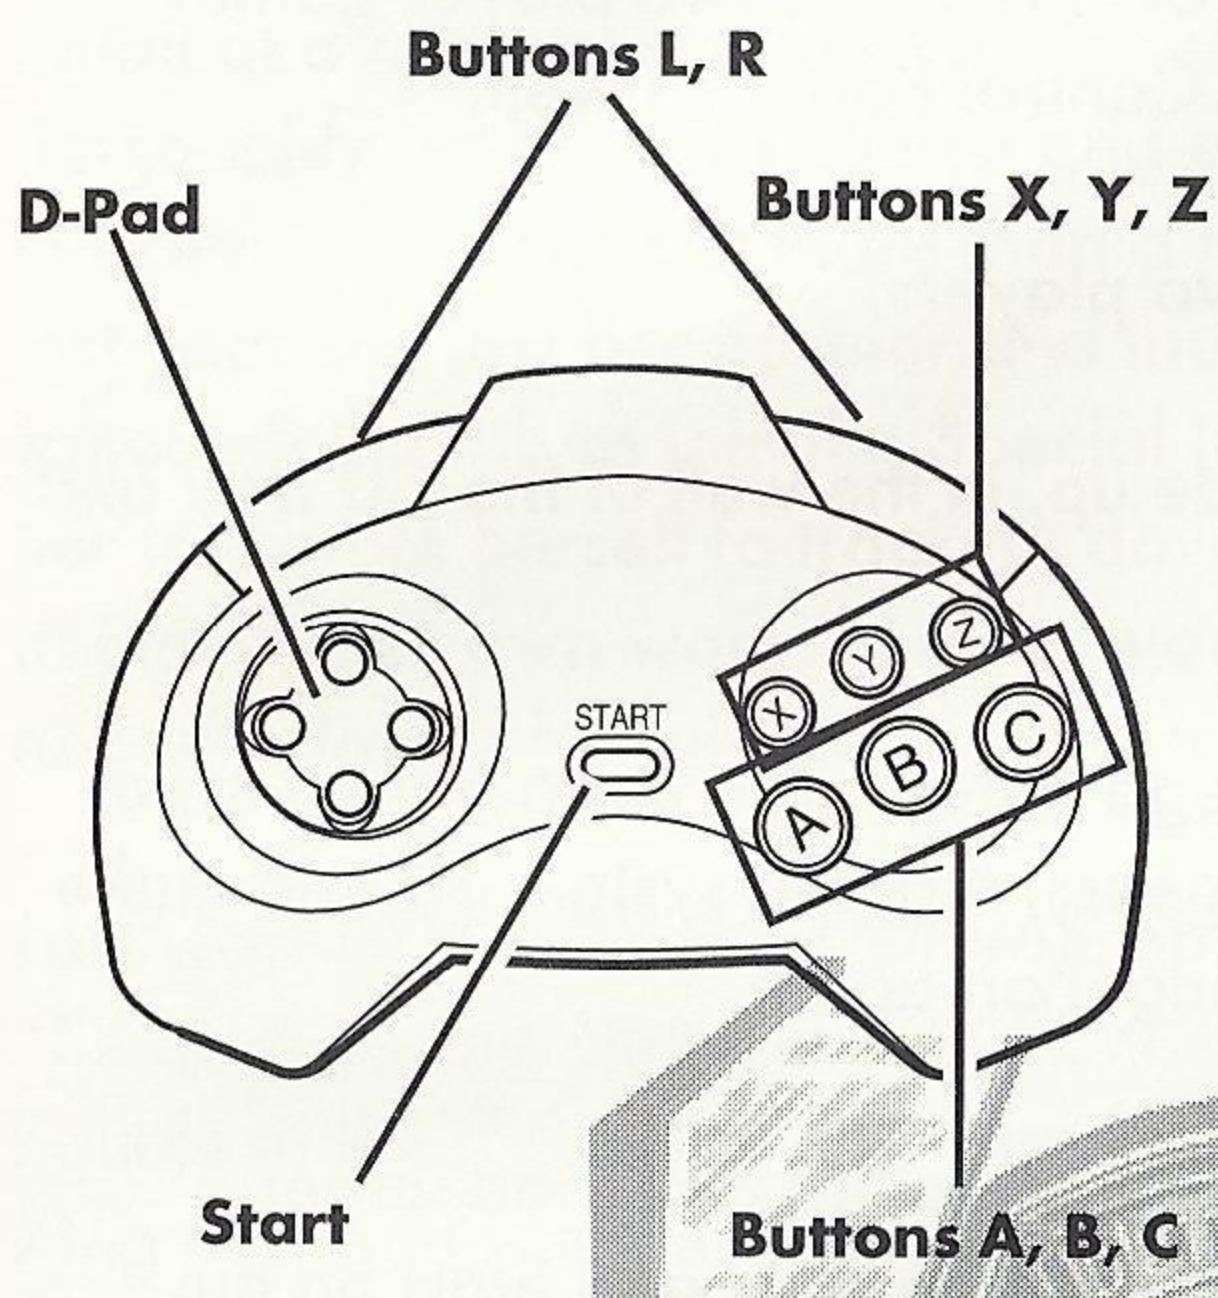

2. Place the *Virtua Cop 2* disc, label side up, in the well of the CD tray and close the lid.
3. Turn on the TV or monitor and the Sega Saturn. The Sega Saturn logo will appear on screen. If nothing appears, turn the system off and make sure it is set up correctly before turning it on again.
4. If you wish to stop a game in progress and return to the on-screen Control panel, simultaneously press Buttons A, B, C and Start on the Sega Saturn Control Pad. When the game Title screen appears, press again to go to the on-screen Control panel.

**Important:** Your Sega Saturn compact disc contains a security code that allows the disc to be read. Be sure to keep the disc clean and handle it carefully. If your Sega Saturn system has trouble reading the disc, remove the disc and wipe it carefully, starting from the center of the disc and wiping straight out toward the edge of the disc.

# GETTING DOWN TO BUSINESS

A game intro follows the Sega logo. Watch it, or press Start at any time during the intro to move to the Title screen. Press Start again to enter the Mode Select screen.

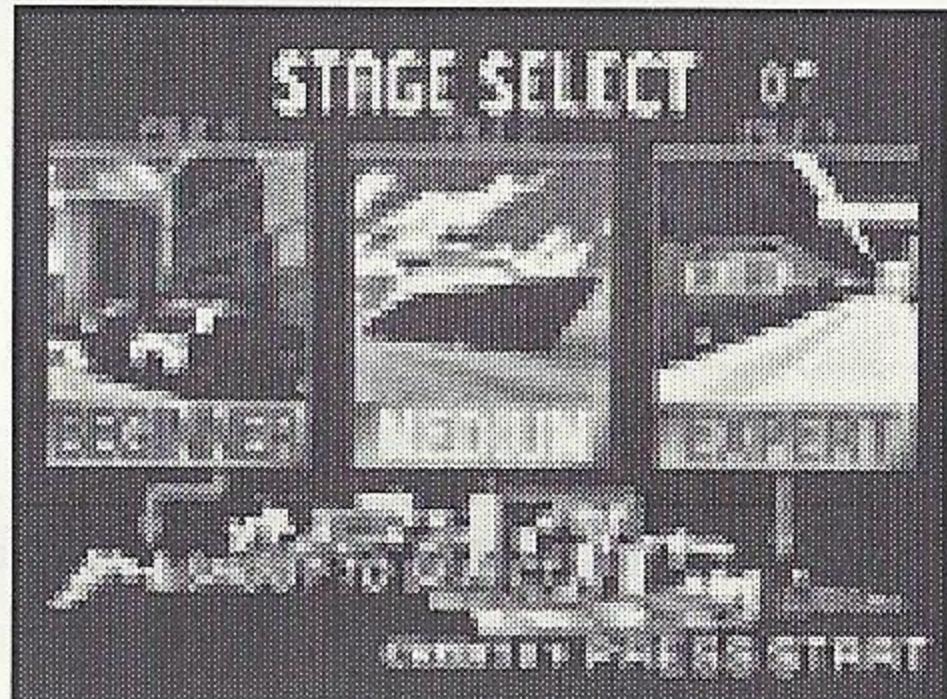

In the Mode Select screen, select Arcade Mode or Options.

When using a Control Pad, highlight modes by pressing the D-Pad UP or DOWN to highlight, and Button A, C or Start to enter.

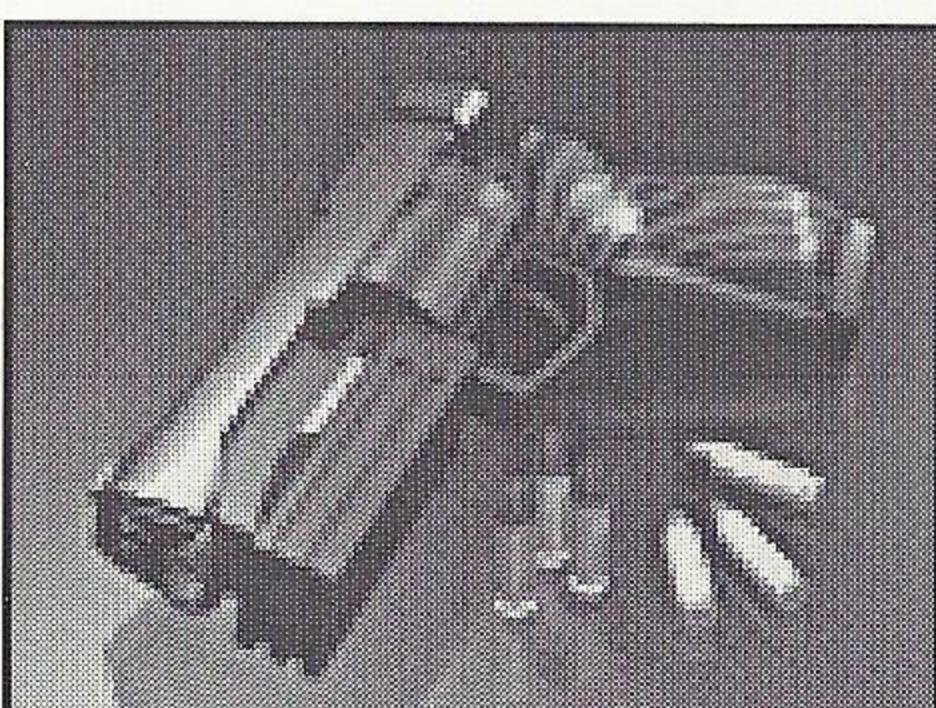

When using a Stunner, pull the trigger to highlight modes and press Start to enter.

## ARCADE MODE

Arcade Mode begins with the Stage Select screen. Aim at the stage you want to start the game from and fire your weapon to select. You can choose to begin the game at any of the three stage levels — Beginner, Medium or Expert. You have ten seconds to select a stage. If the timer runs out, the Beginner stage is automatically selected.

## YOUR GUN

A gun is a cop's best friend, and it's good to know your friends. Your standard-issue weapon is a six-round service revolver. Using it is simple — just take aim and fire.

## Control Pad

|                 |  |
|-----------------|--|
| <b>AIM</b>      | Move the cursor on-screen by pressing the D-Pad in any direction.  |
| <b>SPEED UP</b> | Hold Button B* while taking AIM to make the cursor move more quickly.  |
| <b>FIRE</b>     | Press Button A* to FIRE when the AIM cursor is positioned over your target.  |
| <b>RELOAD</b>   | Press Button B* to RELOAD when your cylinder starts getting empty. You can RELOAD even when there are rounds left in your weapon. It's a good idea to RELOAD whenever you have the chance because there might not be time in the heat of a shootout. |
| <b>*Note</b>    | These button functions can be reassigned in the Controller Settings section of Options (see page 13).  |

## Stunner

|               |  |
|---------------|--|
| <b>AIM*</b>   | Point the Stunner at the area of the screen you want to shoot. There is no on-screen cursor for the Stunner. |
| <b>FIRE</b>   | Pull the Trigger.  |
| <b>RELOAD</b> | AIM off-screen and FIRE.   |
| <b>*Note</b>  | The Stunner's AIM can be adjusted in the Calibrate Gun section of Options (see page 13).                     |

## PLAYING BY THE BOOK

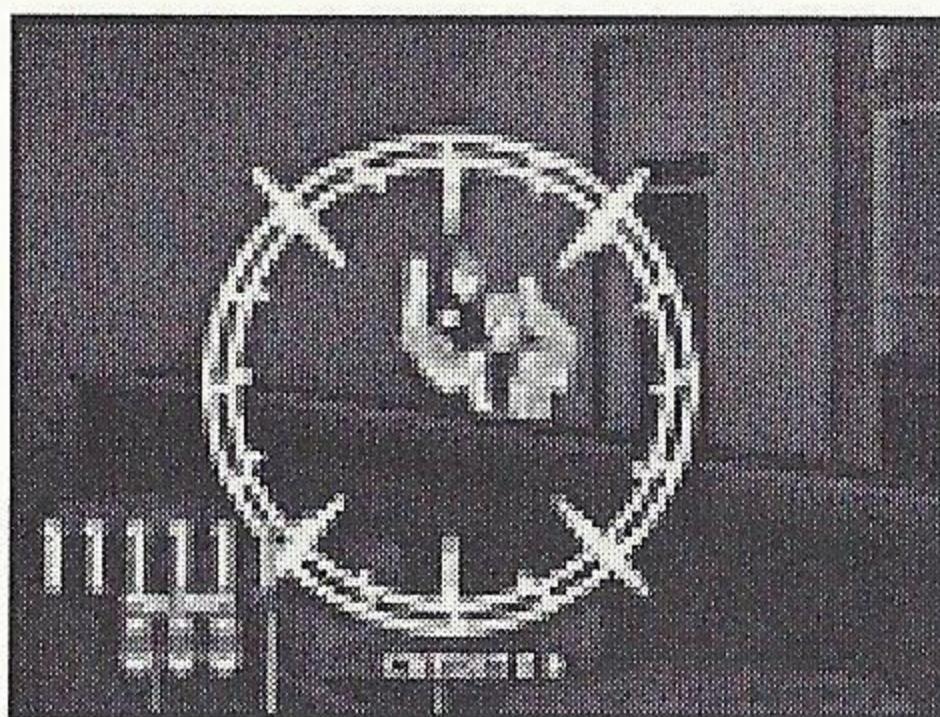

The object of the game is to clean up Virtua City by ridding it of some of its less desirable characters. This is done by shooting them. You are armed with a six-round weapon with sufficient stopping power to put most bad guys down with a single shot. But for a real test of your marksmanship, try these bonus-point shots:

### 3-Point Shot

The 3-Point Shot bonus is given for hitting a single target with three rounds before he fades off-screen.

### Justice Shot

The Justice Shot bonus is awarded for hitting the weapon arm of your target, putting him out of commission, but leaving hope for rehabilitation.

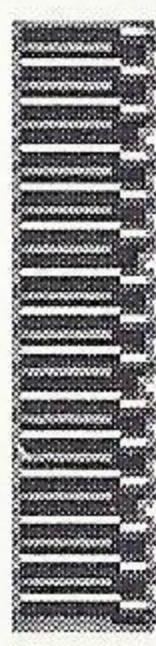

You'll need a sharp eye and steady hand to make these shots, because the bad guys don't just stand around waiting for you to shoot them; they fight back with everything they've got. You lose a Life Marker each time one of their shots hits you. And to further complicate things, there are defenseless civilians running around the crime scene. Be careful not to shoot civilians — you lose a Life Marker if you do.

Damaging public and private property is not encouraged by the higher-ups back at the precinct. But extreme situations call for extreme measures, so don't be afraid to blast the occasional oil drum, cash machine or potted fern if it gets in your line of fire. Some objects in the background blow up when you shoot them, some may fall off the walls onto unwary criminals, and others may contain Power-Up items to boost your firepower and increase survivability.

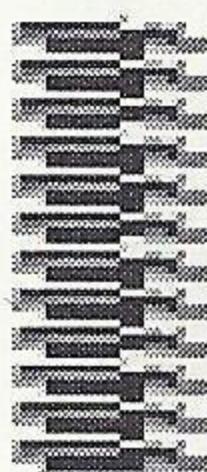

## POWER-UPS

There are various Power-Up items hidden throughout each stage. Shoot a Power-Up to acquire it. The Power-Up automatically becomes the active weapon for your character. Some Power-Up weapons can be re-loaded, others have only one clip. Power-Up weapons are lost when you lose a Life Marker.

Automatic

Rifle

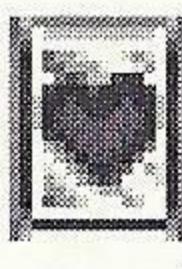

Machine Gun

Shotgun

Magnum

Life Marker

- Automatic**      Automatics hold a 15-round clip. They can be reloaded any number of times.
- Rifle**      Rifles carry 24 rounds, firing in three-round bursts. A rifle cannot be reloaded so choose your shots well.
- Machine Gun**      The machine gun has a 30-round magazine. You can squeeze off single semi-auto rounds, or pull the trigger and hold to fire in full auto. Machine guns can't be reloaded.
- Shot Gun**      Shot guns spray pellets over a wide area, making it easier to hit what you aim at. They hold six shells in the magazine and can be reloaded an unlimited number of times.
- Magnum**      The magnum has armor-piercing capabilities, making it possible to shoot through obstacles and hit the bad guys taking cover behind them. Magnums hold six rounds and can be reloaded any number of times.
- Life Up**      Life Up adds one Life Marker to your character's supply.

## THE GAME SCREEN

There are two game screen output types — VC2 (the default type) and VC1 (a reproduction of the original Virtua Cop screen output). See Play Mode in the Options section on page 14 for information on how to select gameplay modes.

### VC2 MODE

**Points per Hit** —

— **Lock-on  
Sight**

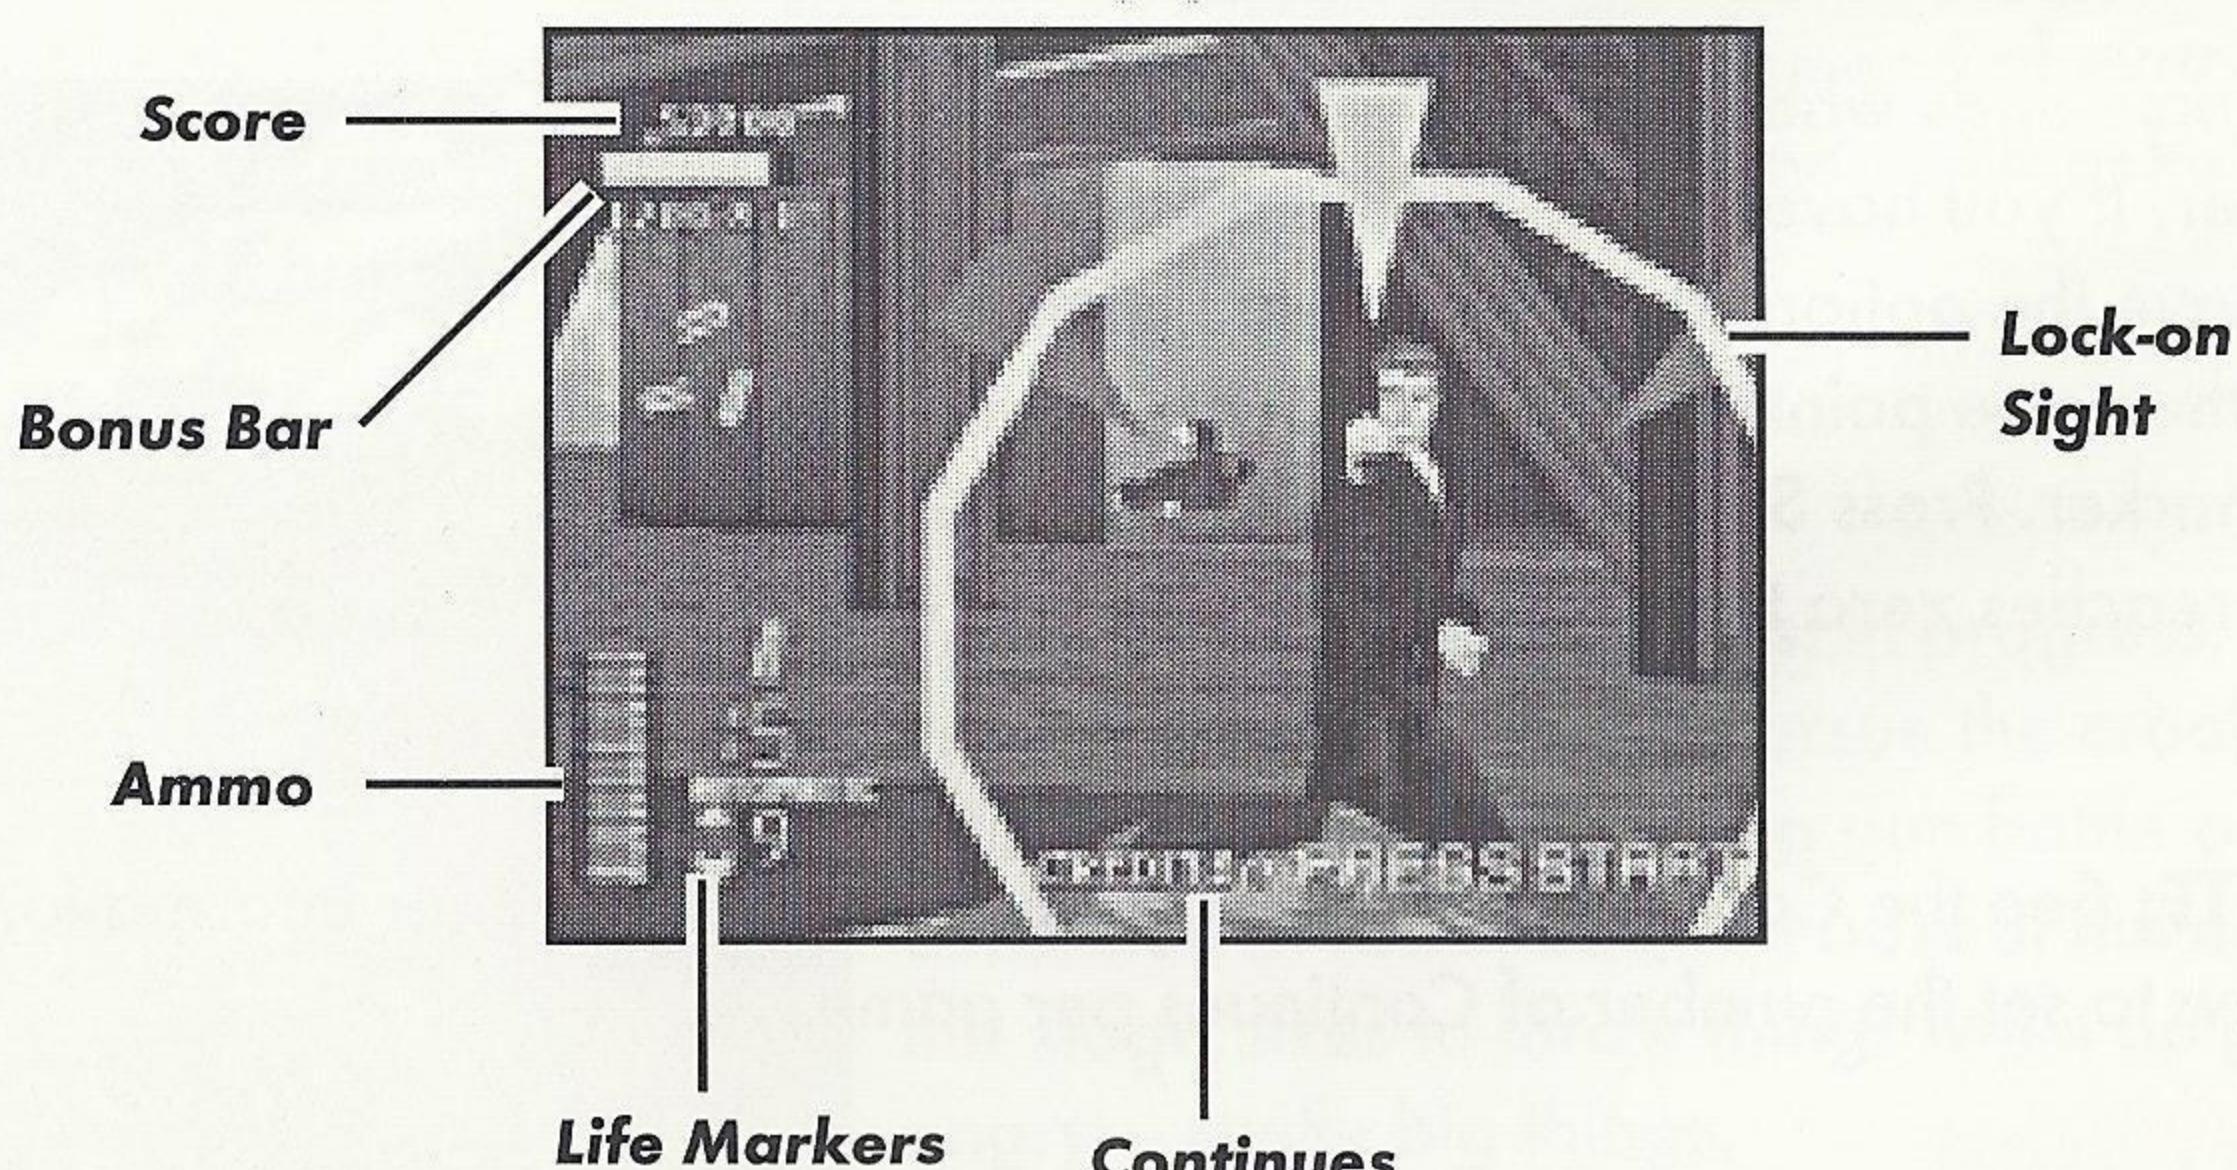

— **Ammo**

— **Life Markers**

— **Continues**

|                       |   |
|-----------------------|---|
| <b>Points per Hit</b> | Shows the number of points scored for each hit on an individual target. When you score a Justice Shot or 3-Point Shot, it is displayed below the score.   |
| <b>Ammo*</b>          | Displays the number of rounds remaining in the weapon you are currently using. When you run out of ammo, the word RELOAD begins flashing on-screen.   |
| <b>Life Markers</b>   | Shows the number of Life Markers remaining.   |
| <b>Lock-on Sight</b>  | Highlights your next target and shows how long you have before he fires. A green sight means you still have time. When the sight turns yellow, he's getting ready to shoot, and a red sight means 'Watch out!' The sight turns blue after you put at least one round in the bad guy. (See Sight in the Options section on page 14 for information on how to turn the sight ON/OFF). |
| <b>Continues</b>      | Displays the number of Continues remaining in the game. FREE PLAY means you have unlimited Continues. See Continue in the Options section on page 13 for information on how to set the number of Continues per game.  |

\*For more information on Power-Up weapons, see Power-Ups on pages 7-8.

**VCI MODE**

**Score**

Shows your total score for the game so far.

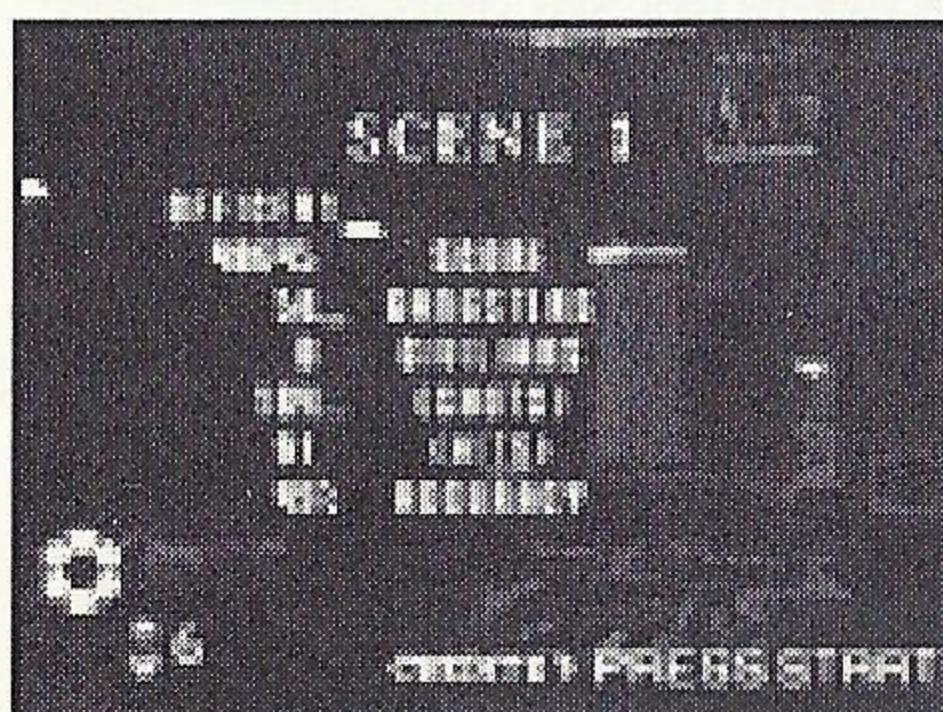

**Bonus Bar**

Indicates how close you are to reaching a new point multiplier level. The Bonus Bar gets longer every time you score multiple hits on a target. When the bar fills up completely, the point multiplier goes up by one. The point multiplier increases the points you receive per hit. When you lose a Life, the Bonus Bar resets to zero and the point multiplier returns to 1X.

**Note**

The Lock-on sight, Ammo, Life Markers and Continues screen displays in VC1 mode are the same as those in VC2 mode (see page 9).

## RANKING

At various points during gameplay, a Ranking screen appears, assessing your performance in the current game. The Ranking screen shows data for:

**Score**

Your total point score for the current game

**Gangsters**

The number of gangsters you have neutralized

**Civilians**

The number of times you hit civilians

**Shots**

The total number of rounds fired

**Hits**

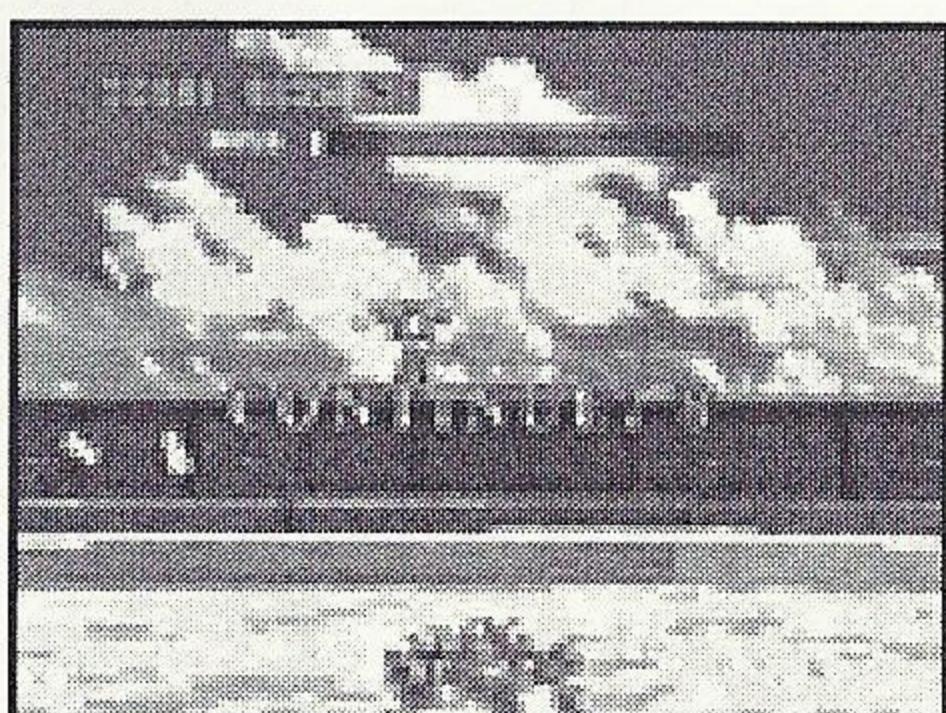

The number of bullets that found their marks

**Accuracy**

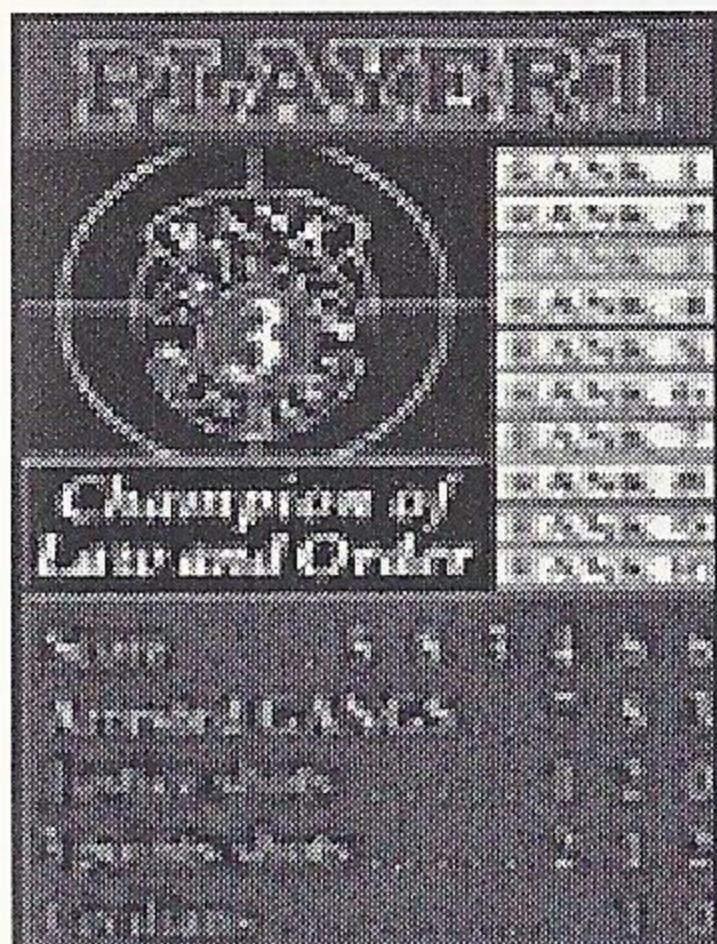

The percentage of shots that hit

## GAME OVER/CONTINUE

The game ends when you lose your last Life Marker. If you have Continues remaining, you have the option of continuing the game from the same point where you lost the final Life Marker. Press Start before the countdown timer reaches zero to continue.

\* **NOTE:** See the Continues section of Options on page 13 for information on how to set the number of Continues per game.

If you choose not to continue, or you run out of Continues, the GAME OVER message appears on-screen, followed by the final Ranking screen. This Ranking screen assigns you a rank based on your overall performance in several categories:

### Score

Your total score for the game

### Gangs Arrested

The total number of crooks you sent up the river

### Justice Shots

The number of Justice Shots you made during the game

### 3-Point Shots

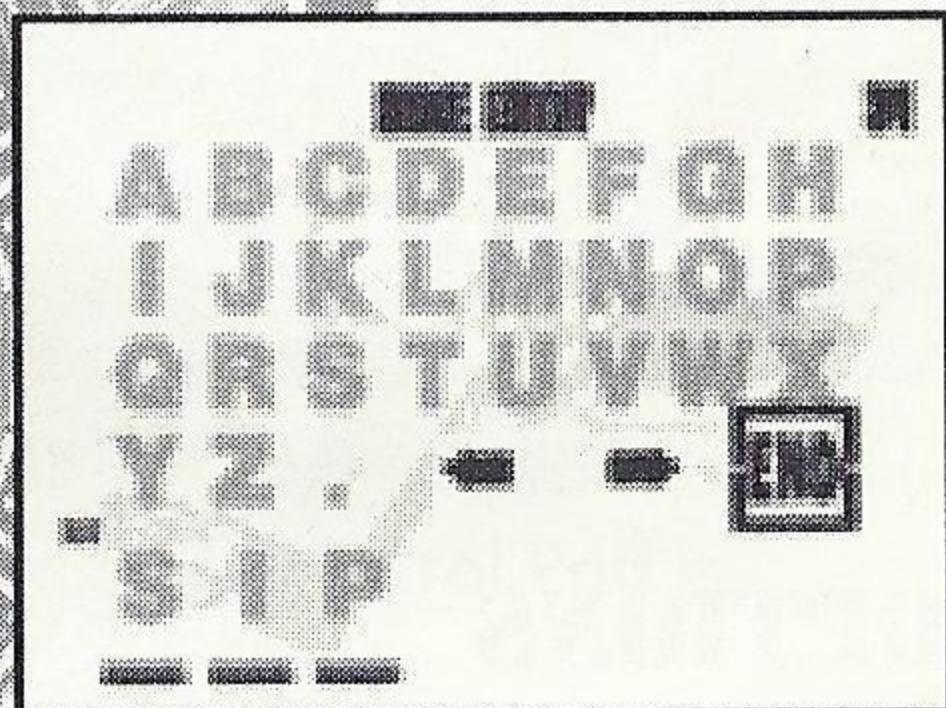

The number of times you scored a 3-Point Shot

### Civilians

The number of times you hit an innocent bystander

## NAME ENTRY

When you finish a game with a top rank, you get to enter your initials. Shoot a character to enter it. Shoot the back or forward arrows to clear the previous or next character. Shoot end to finish entering your initials.

## STAGES

Each stage is divided into two segments. After completing the first half of the stage, you can choose the path to follow for the second half by shooting one of the directional signboards on-screen. If you don't select a path quickly, the left-hand path is automatically selected. At the end of every stage, you have to face off with an EVL syndicate boss and see that he's brought to justice.

## STAGE 1: BIG CHASE

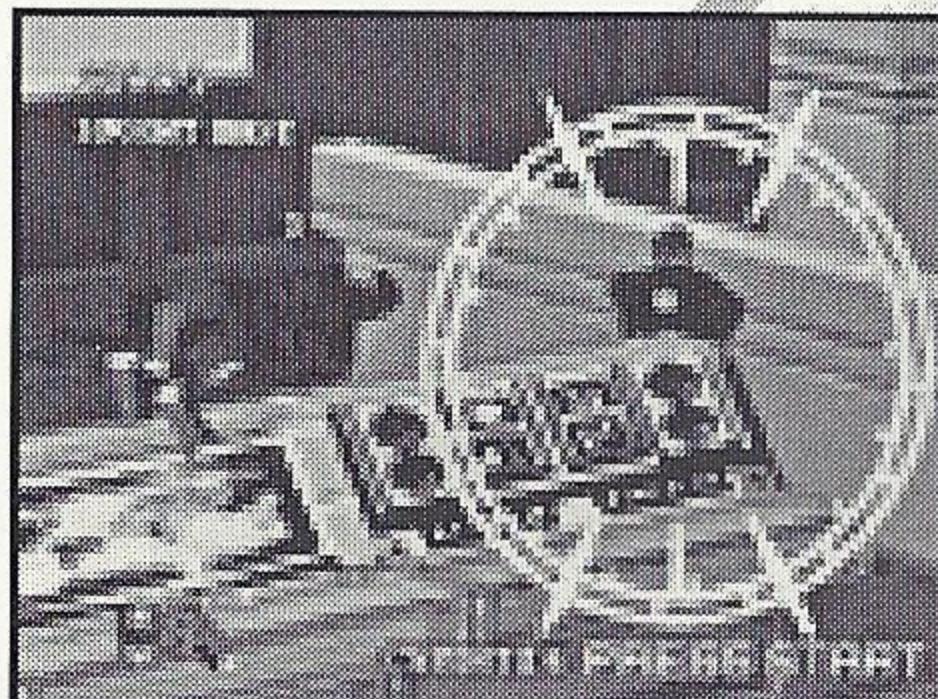

You interrupt a jewelry heist in progress, and have to secure the area. Pursue the crooks in your squad car to a blazing gun battle on the other side of town. Bull, the boss at the end of this stage, likes to throw things when he gets angry — really big things.

## STAGE 2: SAVE THE MAYOR

The bad guys have taken the mayor of Virtua City hostage and are holed up in a luxury ocean liner docked at Pier 10. Fight your way onto the ship and make a room by room search to rescue His Honor before EVL can cast a very decisive ballot against him. At the end of this stage, the Aero-Divers, a crack team of terrorists equipped with jet-packs and rocket launchers plans to bar your way off the Fiesta Deck.

## STAGE 3:RAILLINE SHOOTOUT

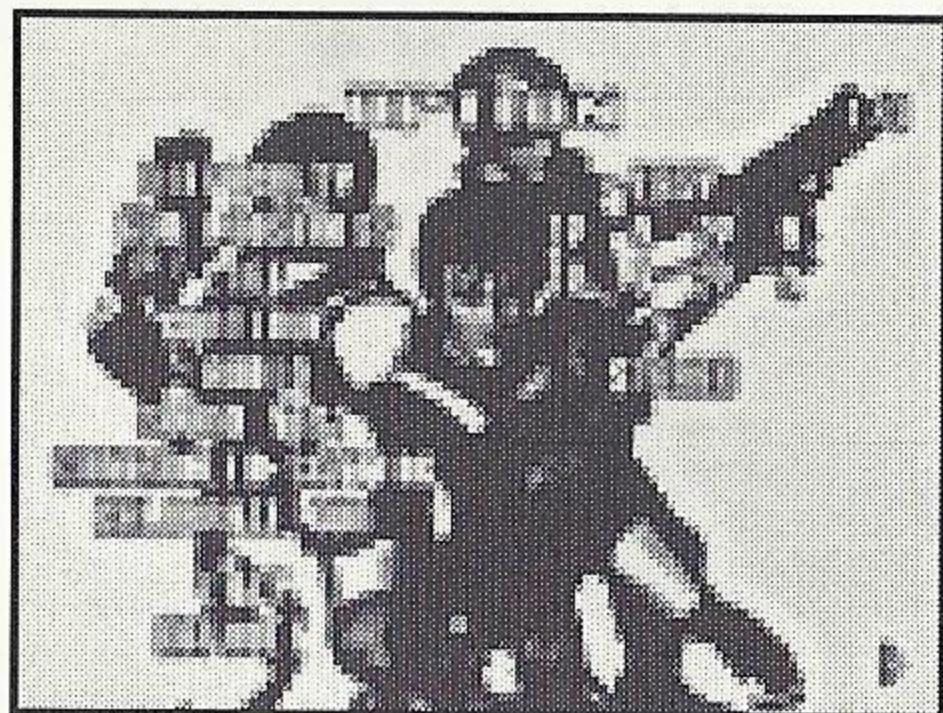

Follow the remaining gang members underground, through the Virtua City subway system. The trail leads to a cavernous warehouse where you battle onward to a climactic confrontation with the notorious Garse Bladley in his Cat Tank.

## OPTIONS

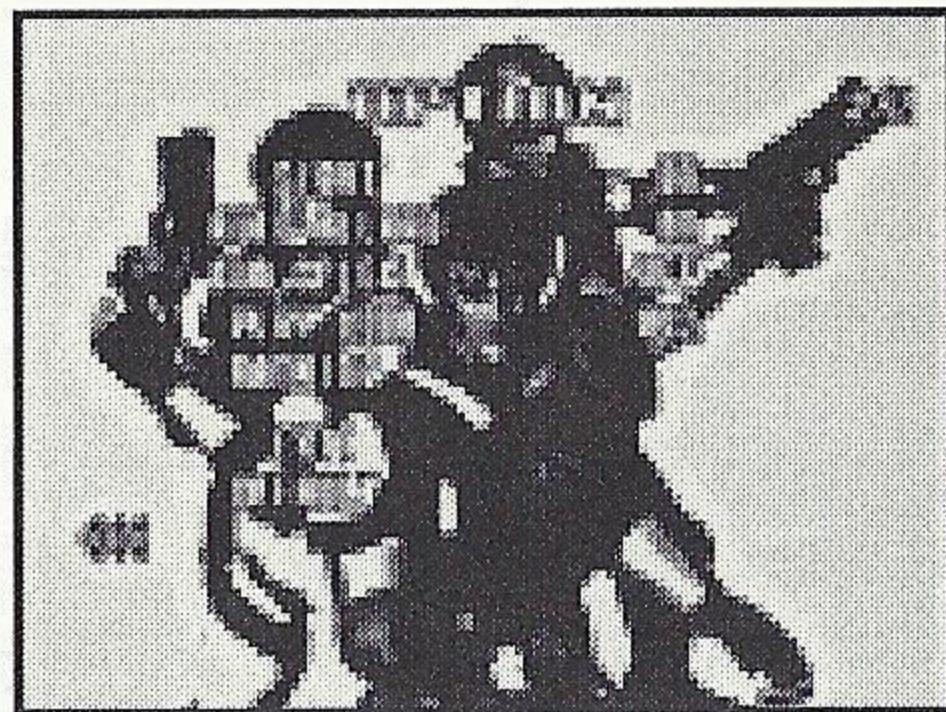

There are two Options screens. The first screen appears when you enter Options.

When using the Control Pad, press the D-Pad UP/DOWN to highlight options. Press Button A, B, C or Start to make changes to the highlighted option.

When using the Stunner, pull the Trigger to highlight options, and Start to make changes in the highlighted option.
