GUNCON2 SETTING

Before starting

First page. of Setsuzoku case all, before starting the game, it is necessary to adjust the aiming of Gankon 2.

When connecting two Guncon2, please refer to the right

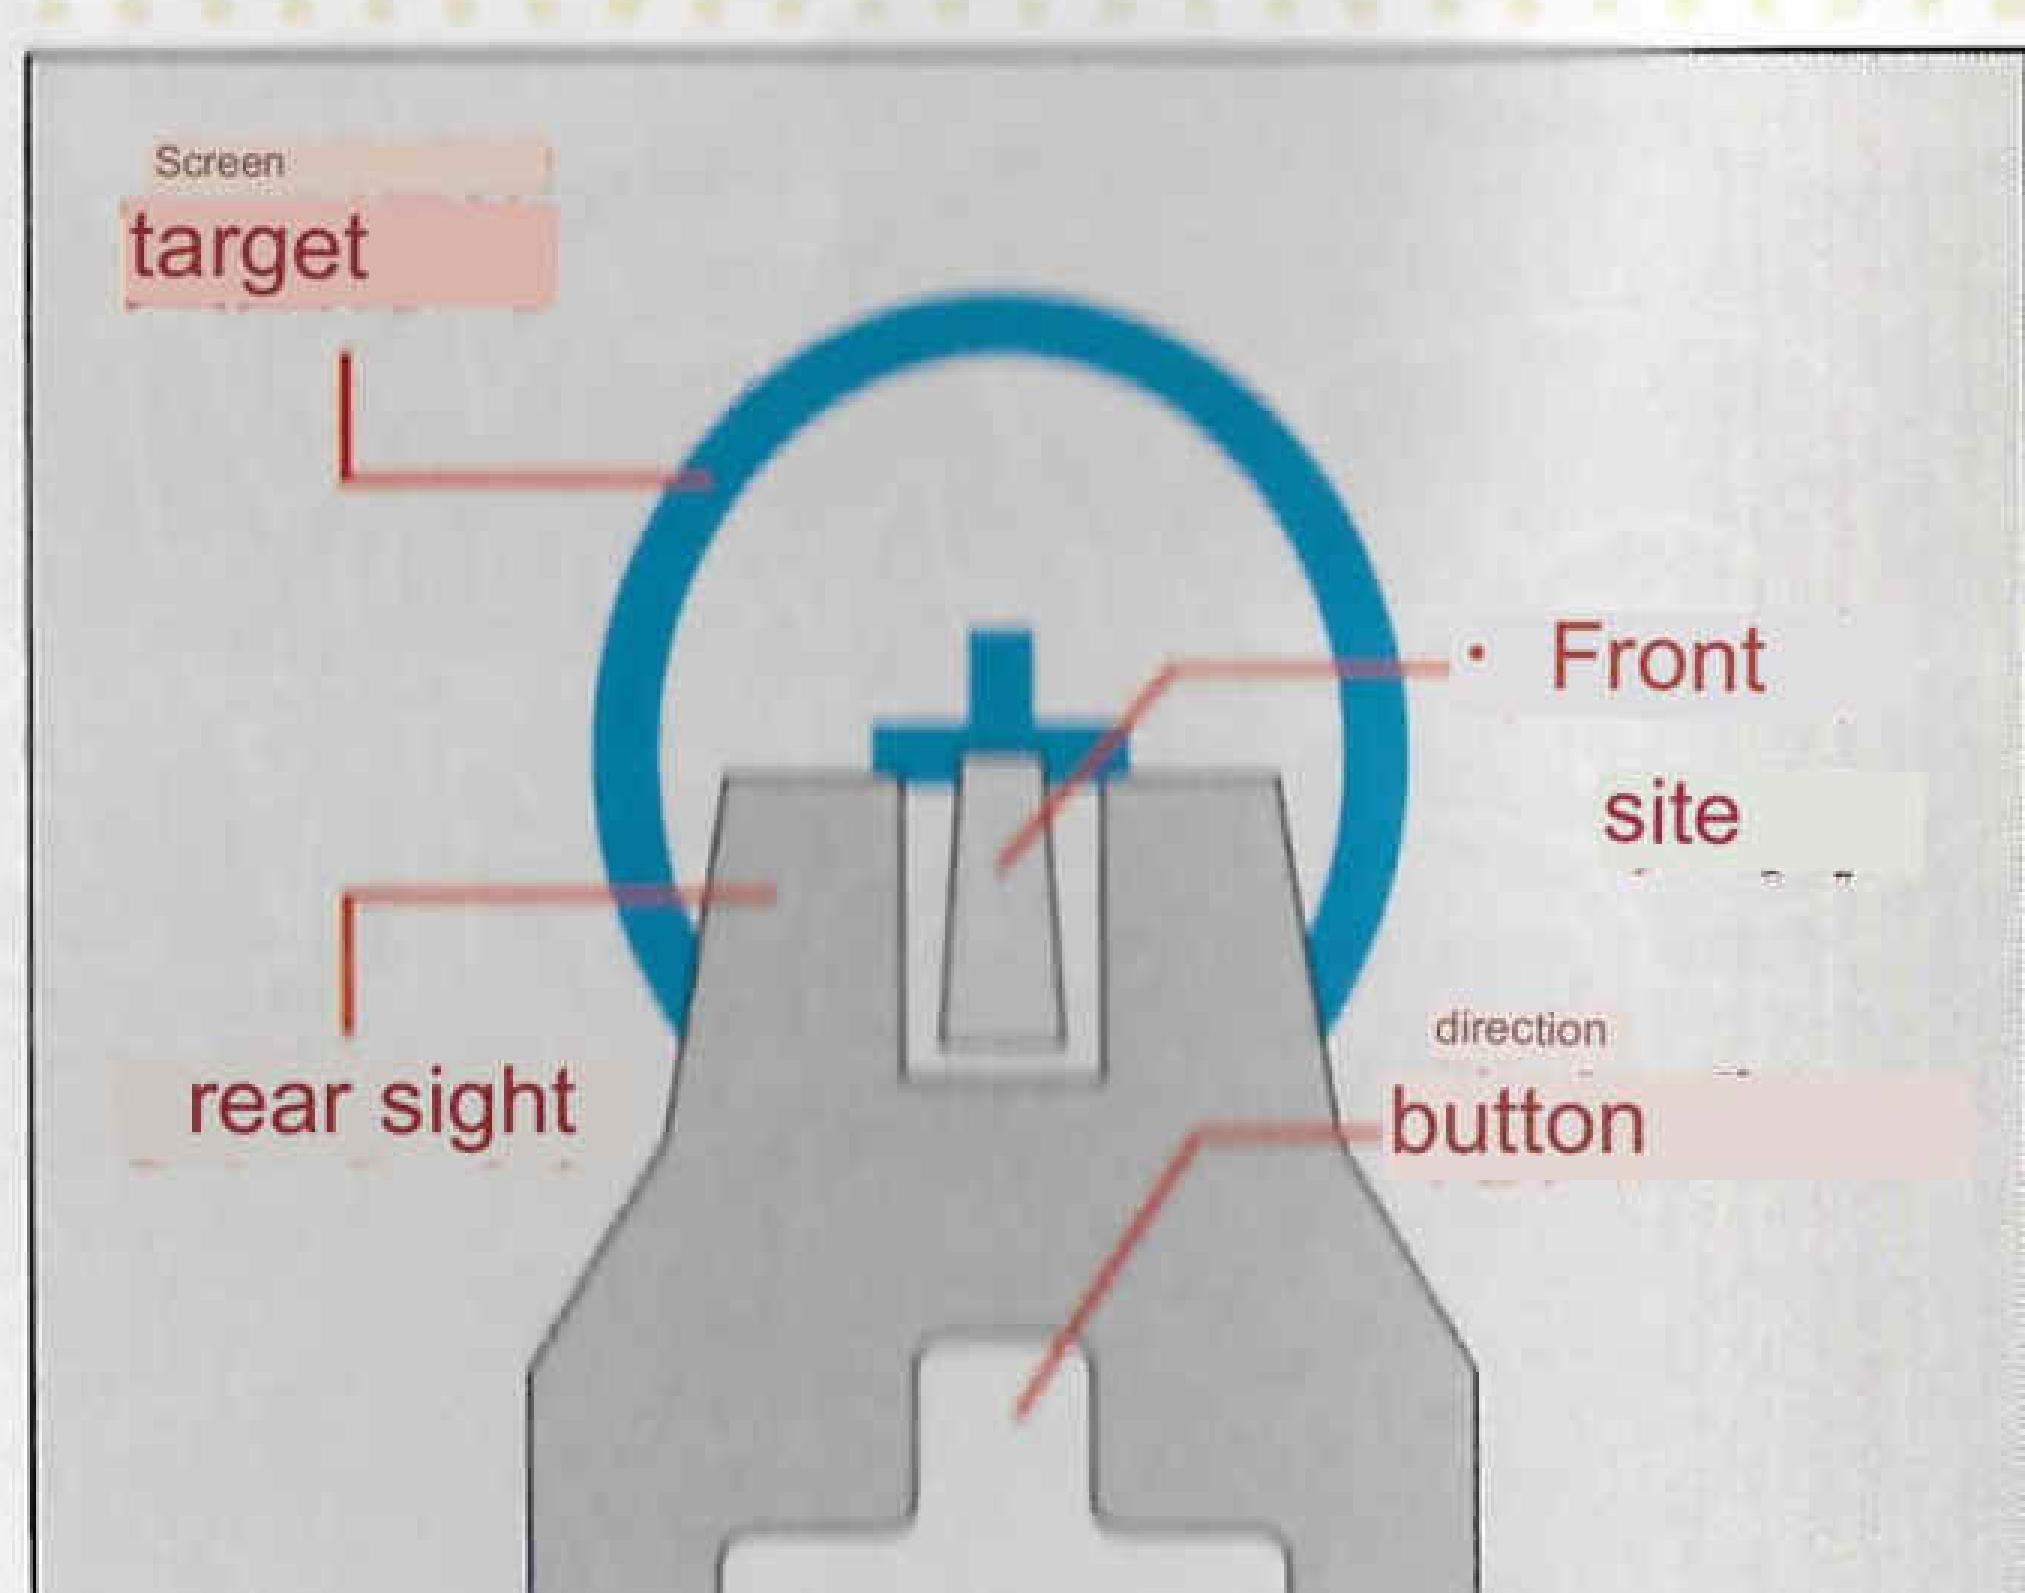

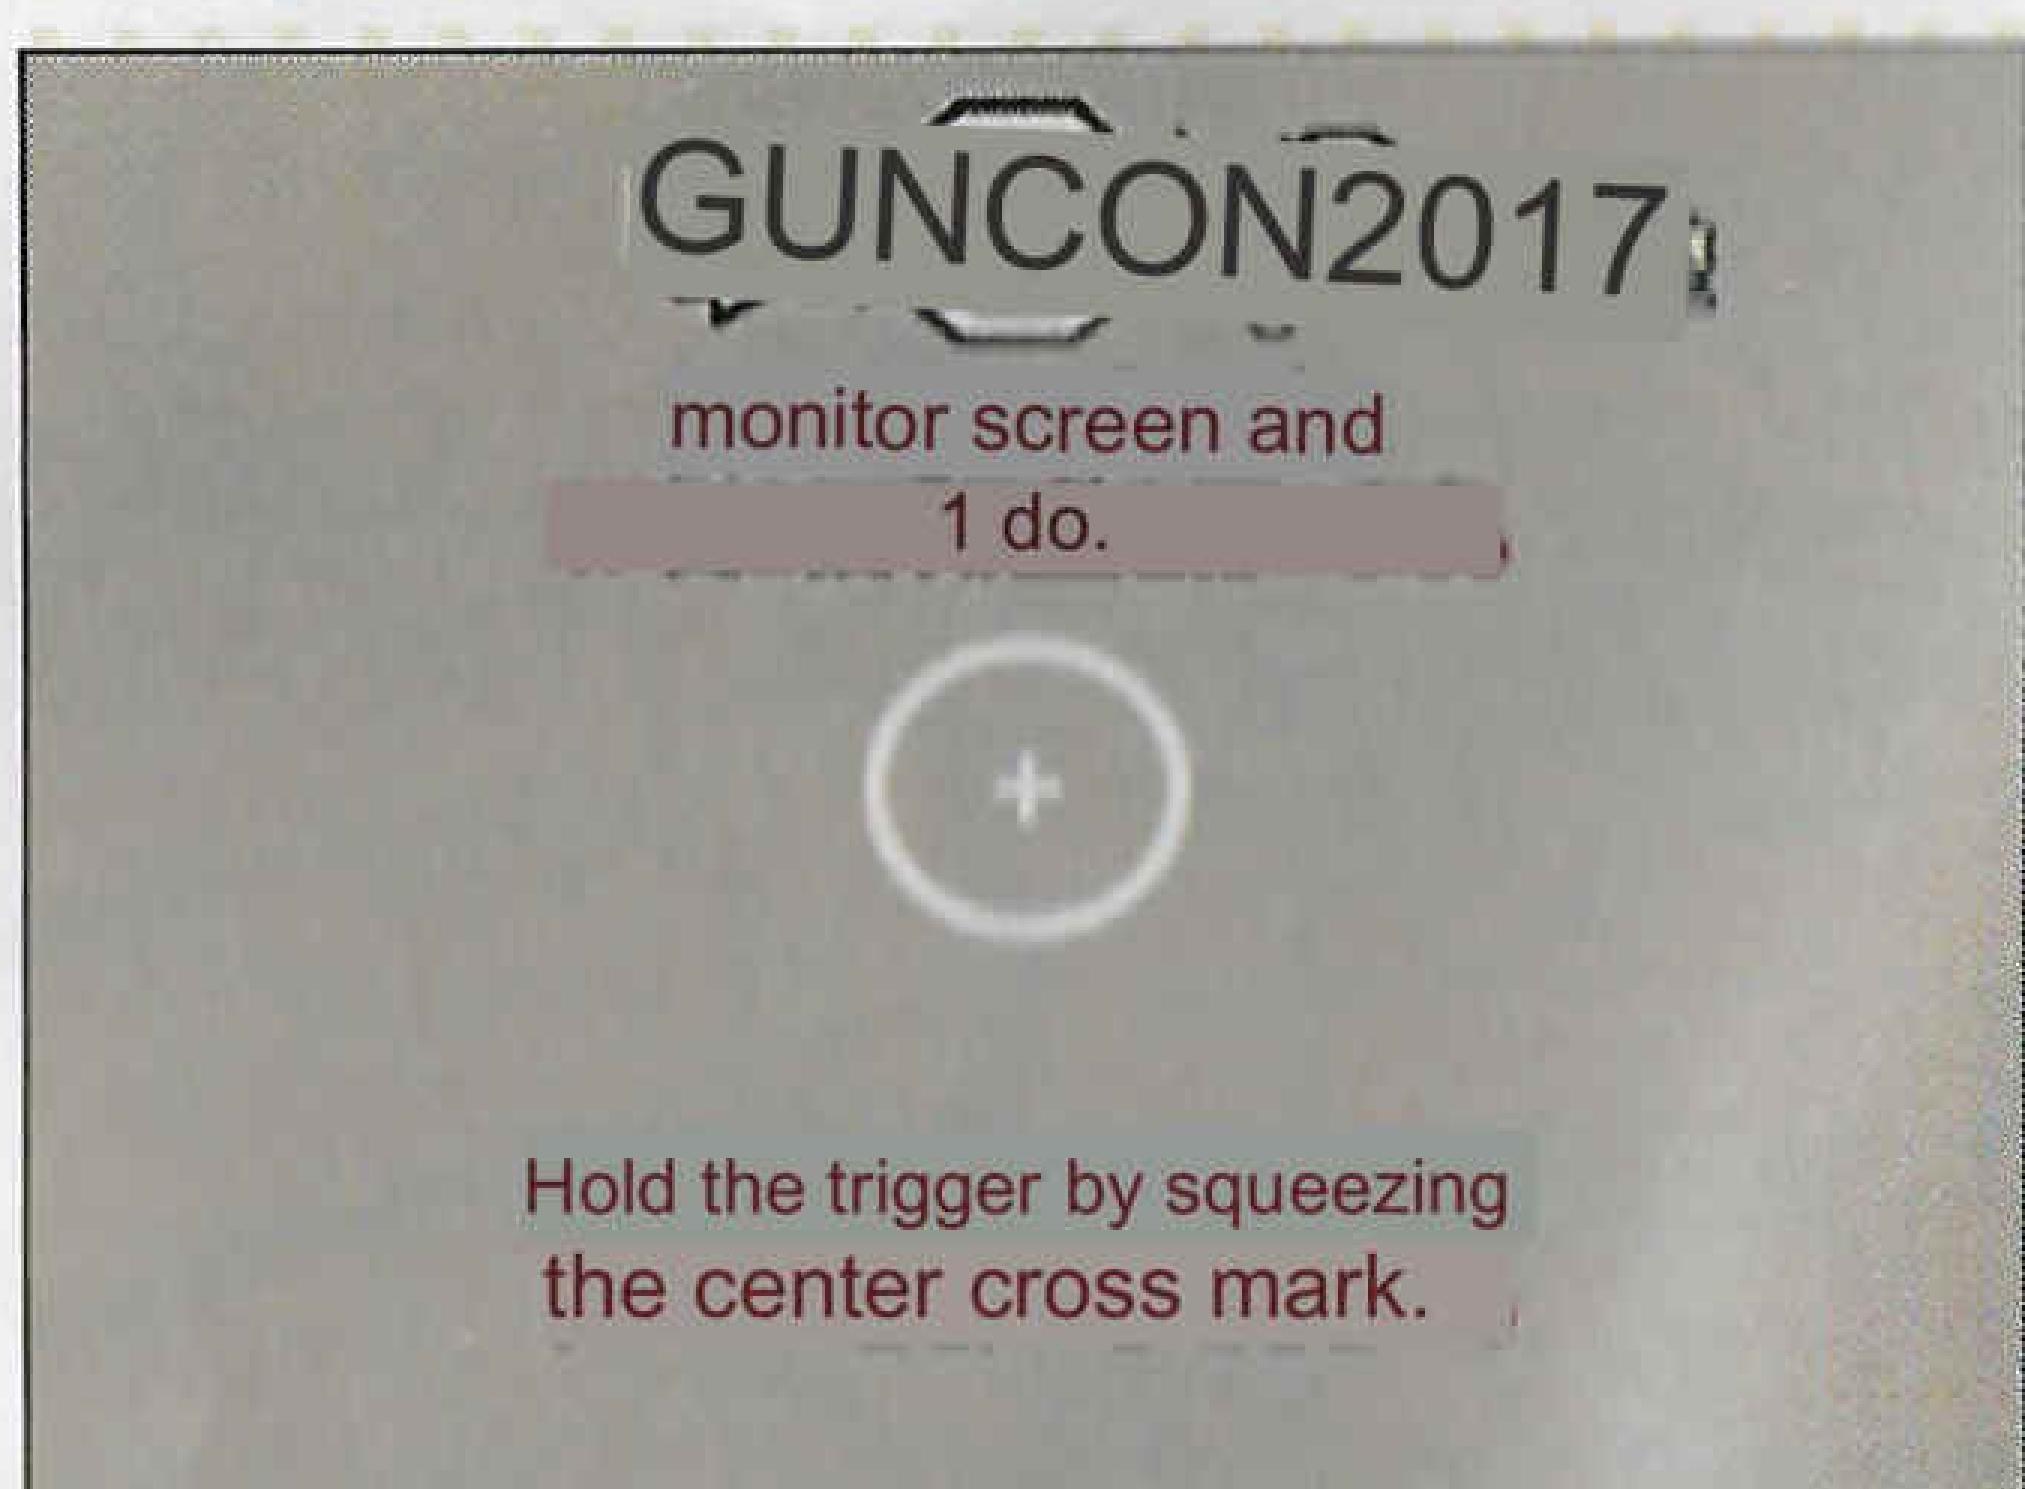

When the power is turned on with Guncon 2 connected, the monitor and adjusting the sights appear. When you point the muzzle at the screen, the target appears in the center of the screen, so aim at the center of the target and pull the trigger.

When you pull the trigger, the aim is set and will be displayed where you aim. If you correctly, press the A button to setting. If your sights go out like you've recovered, you can recalibrate by shooting the target again.

For a more precise adjustment, aim of the screen and press Trigger point adjustment. In addition, a progressive (double density) TV, the automatically be 2-point adjustment.

When you start each game, the adjustment screen will be displayed again, but if you change the TV monitor settings after completing the adjustment, you can adjust the aiming please refer to page 10.

*Please also read Gankon 2 instruction manual.

may not be possible to automatically detect a progressive (double density) TV. In that case, point Guncon 2 outside the screen and press the trigger + SELECT button to manually switch to double

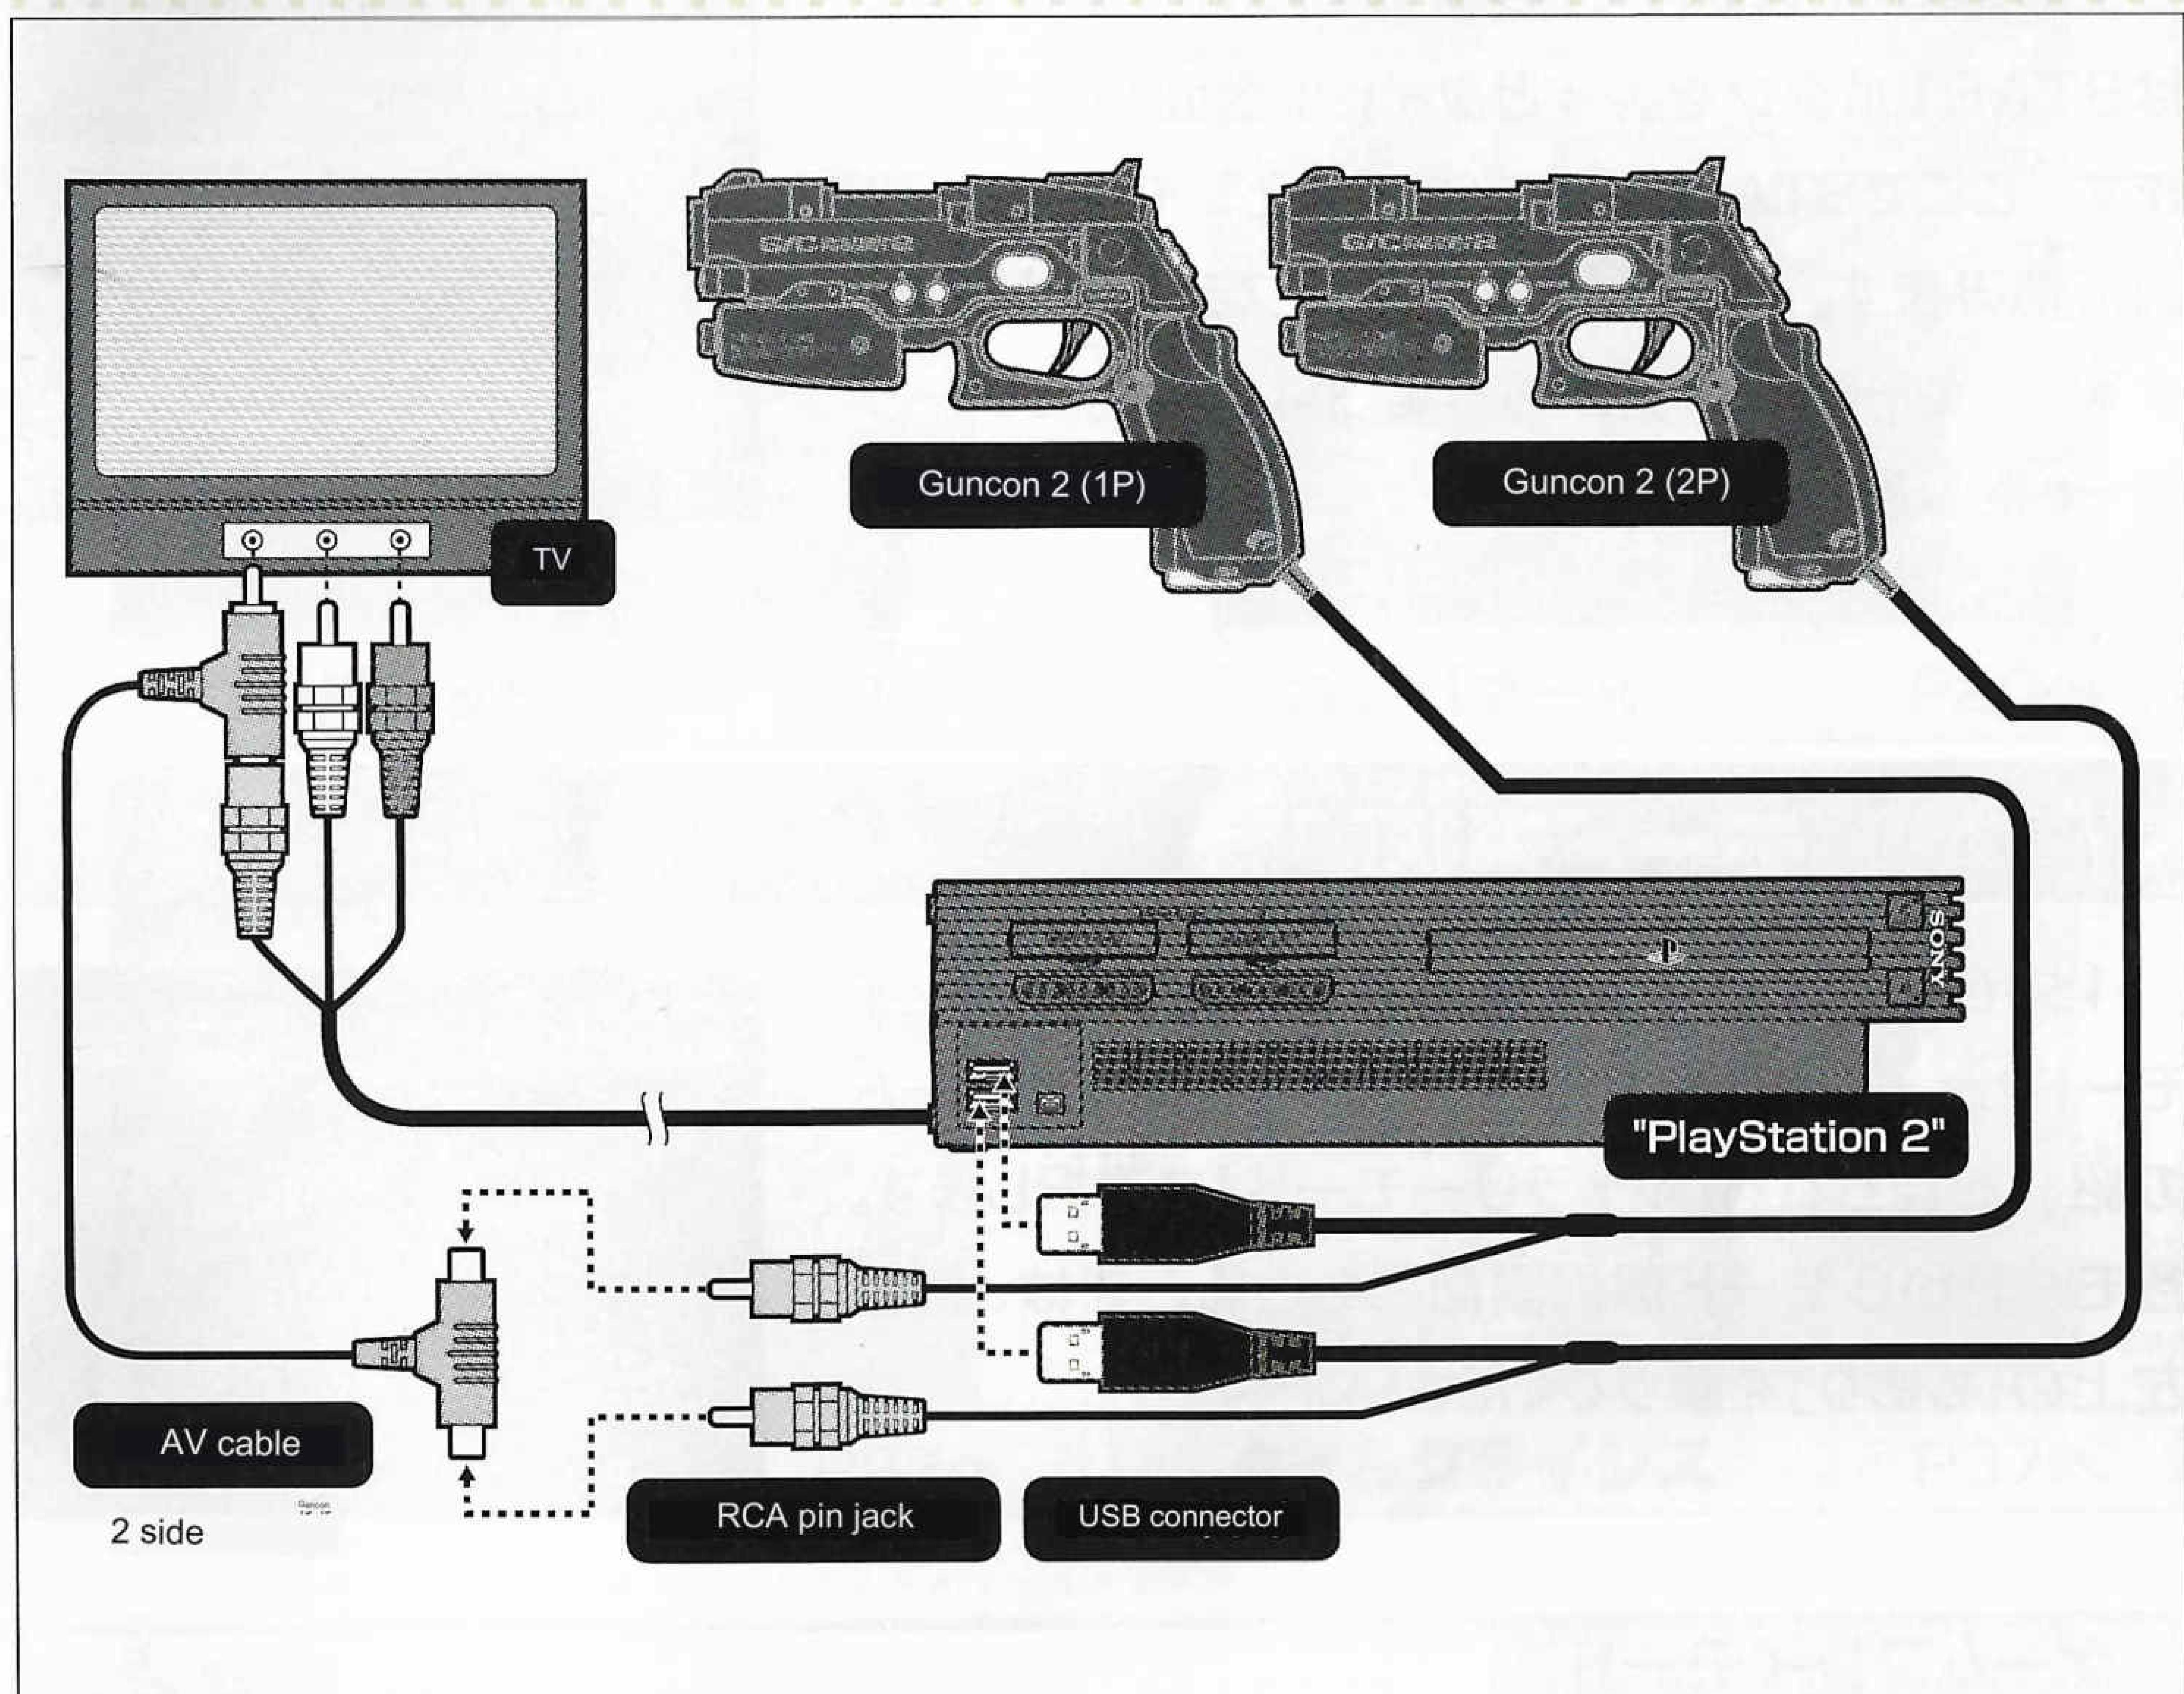

Precautions

Gankon high-definition TVs, LCD TVs, plasma displays, and projection TVs. Also, it may not be compatible with some TVs that use the progressive system, multi-function TVs, and high-performance

Connection of two "Gancon 2"

"Ganbari Collection + Time Crisis", two players can play at the same time by connecting "Gancon 2". Connect the USB of the "PlayStation 2" main unit, and connect the RCA pin jacks of the guncon 2 side of the AV cable. This software is not compatible with Taiou "Gankon".

About save

data is saved separately for each game. Please refer to the page of each game or each mode for how to save.

To insert a "PlayStation 2" dedicated memory card (8MB) into the MEMORY CARD slot. Also, when saving the game for the first time, 180KB or more of free space is required in the "PlayStation

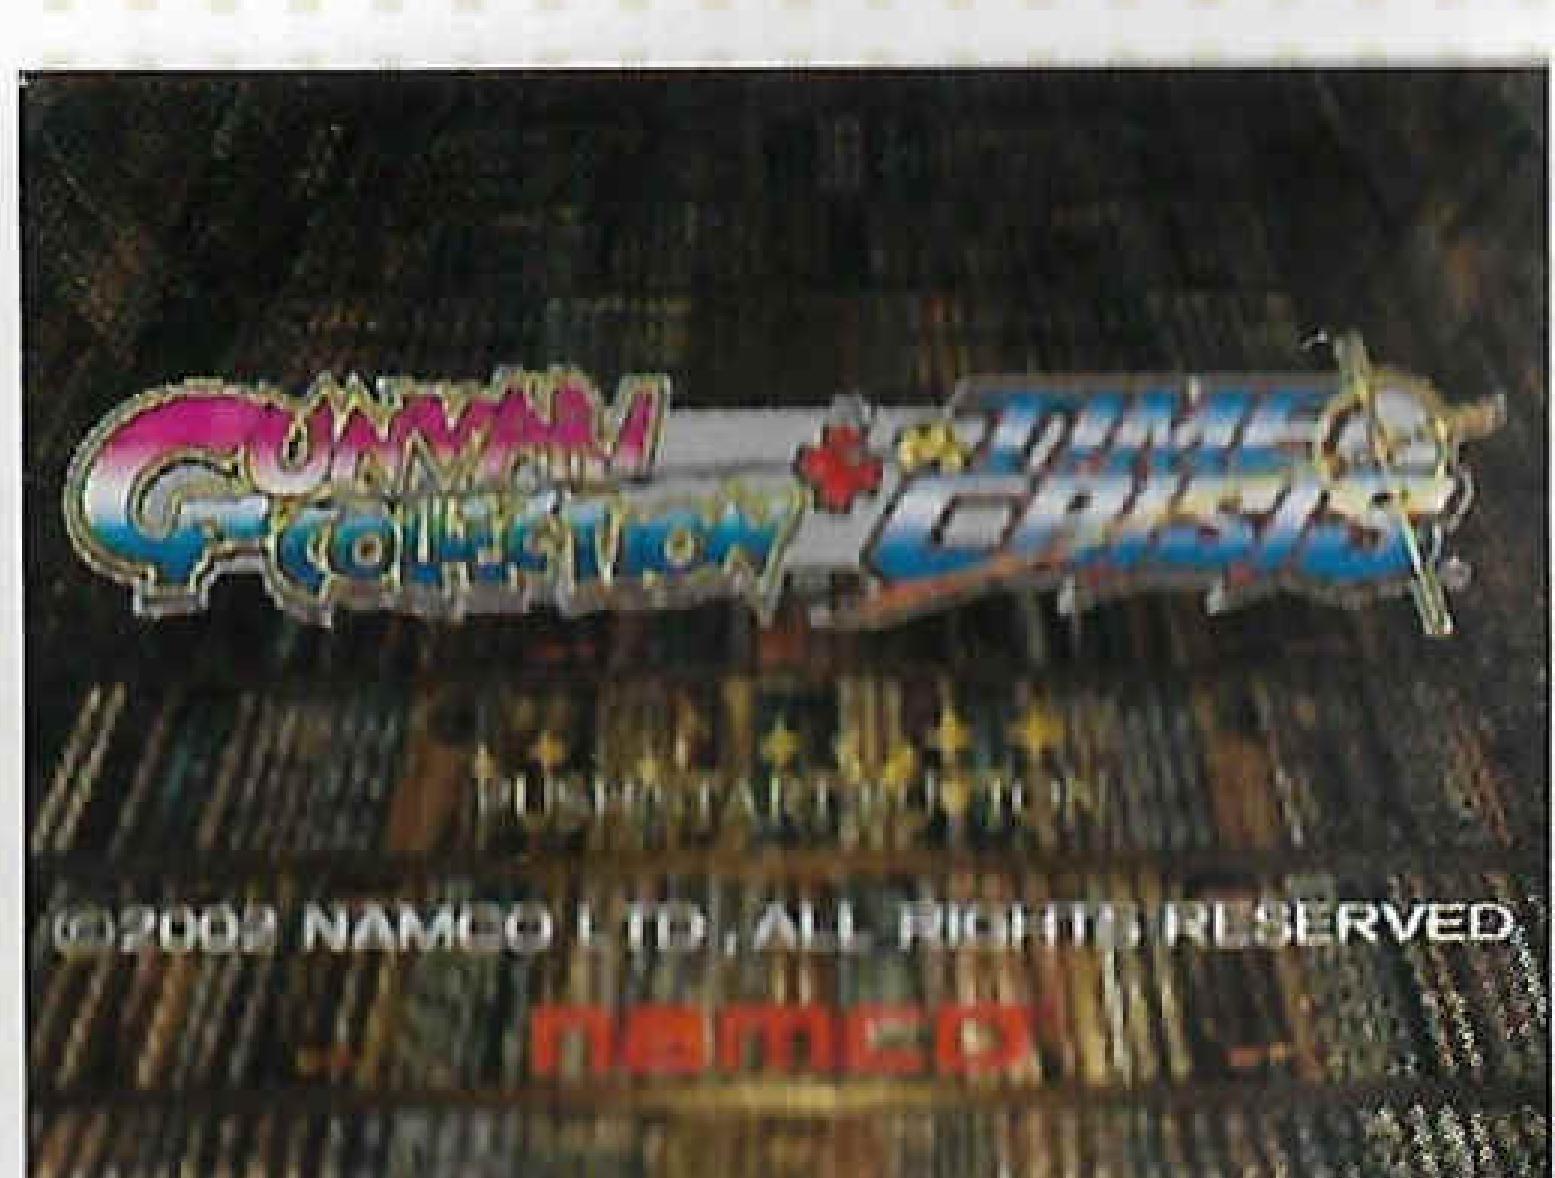

How to start the game (1)

HOW TO START

in this game. When the title screen is displayed, aim at the mode item you want to select and pull the trigger to confirm.

When the demo ends, or when you pull the trigger or button in the middle of the game, the title will be displayed. Press the START button here to proceed to the mode selection screen. In addition, if there is save data for "Extra Stage" (see P36), the data will be automatically loaded.

Select "Gameplay Hatsubai Mode" to play 4 games, or "Gallery Mode" to see an introduction to compatible games released so far. To return mode, shoot "bookmark" at the top left of the screen.

gameplay mode

In this mode, you can play 4 "Ganbarret", "Ganbar", "Ganbarina", and "Thailand Crisis."

gallery mode

In addition to the 4 titles referred to above, you can see introductions and illustrations of games that have been released so far. Please refer to P6 for details.

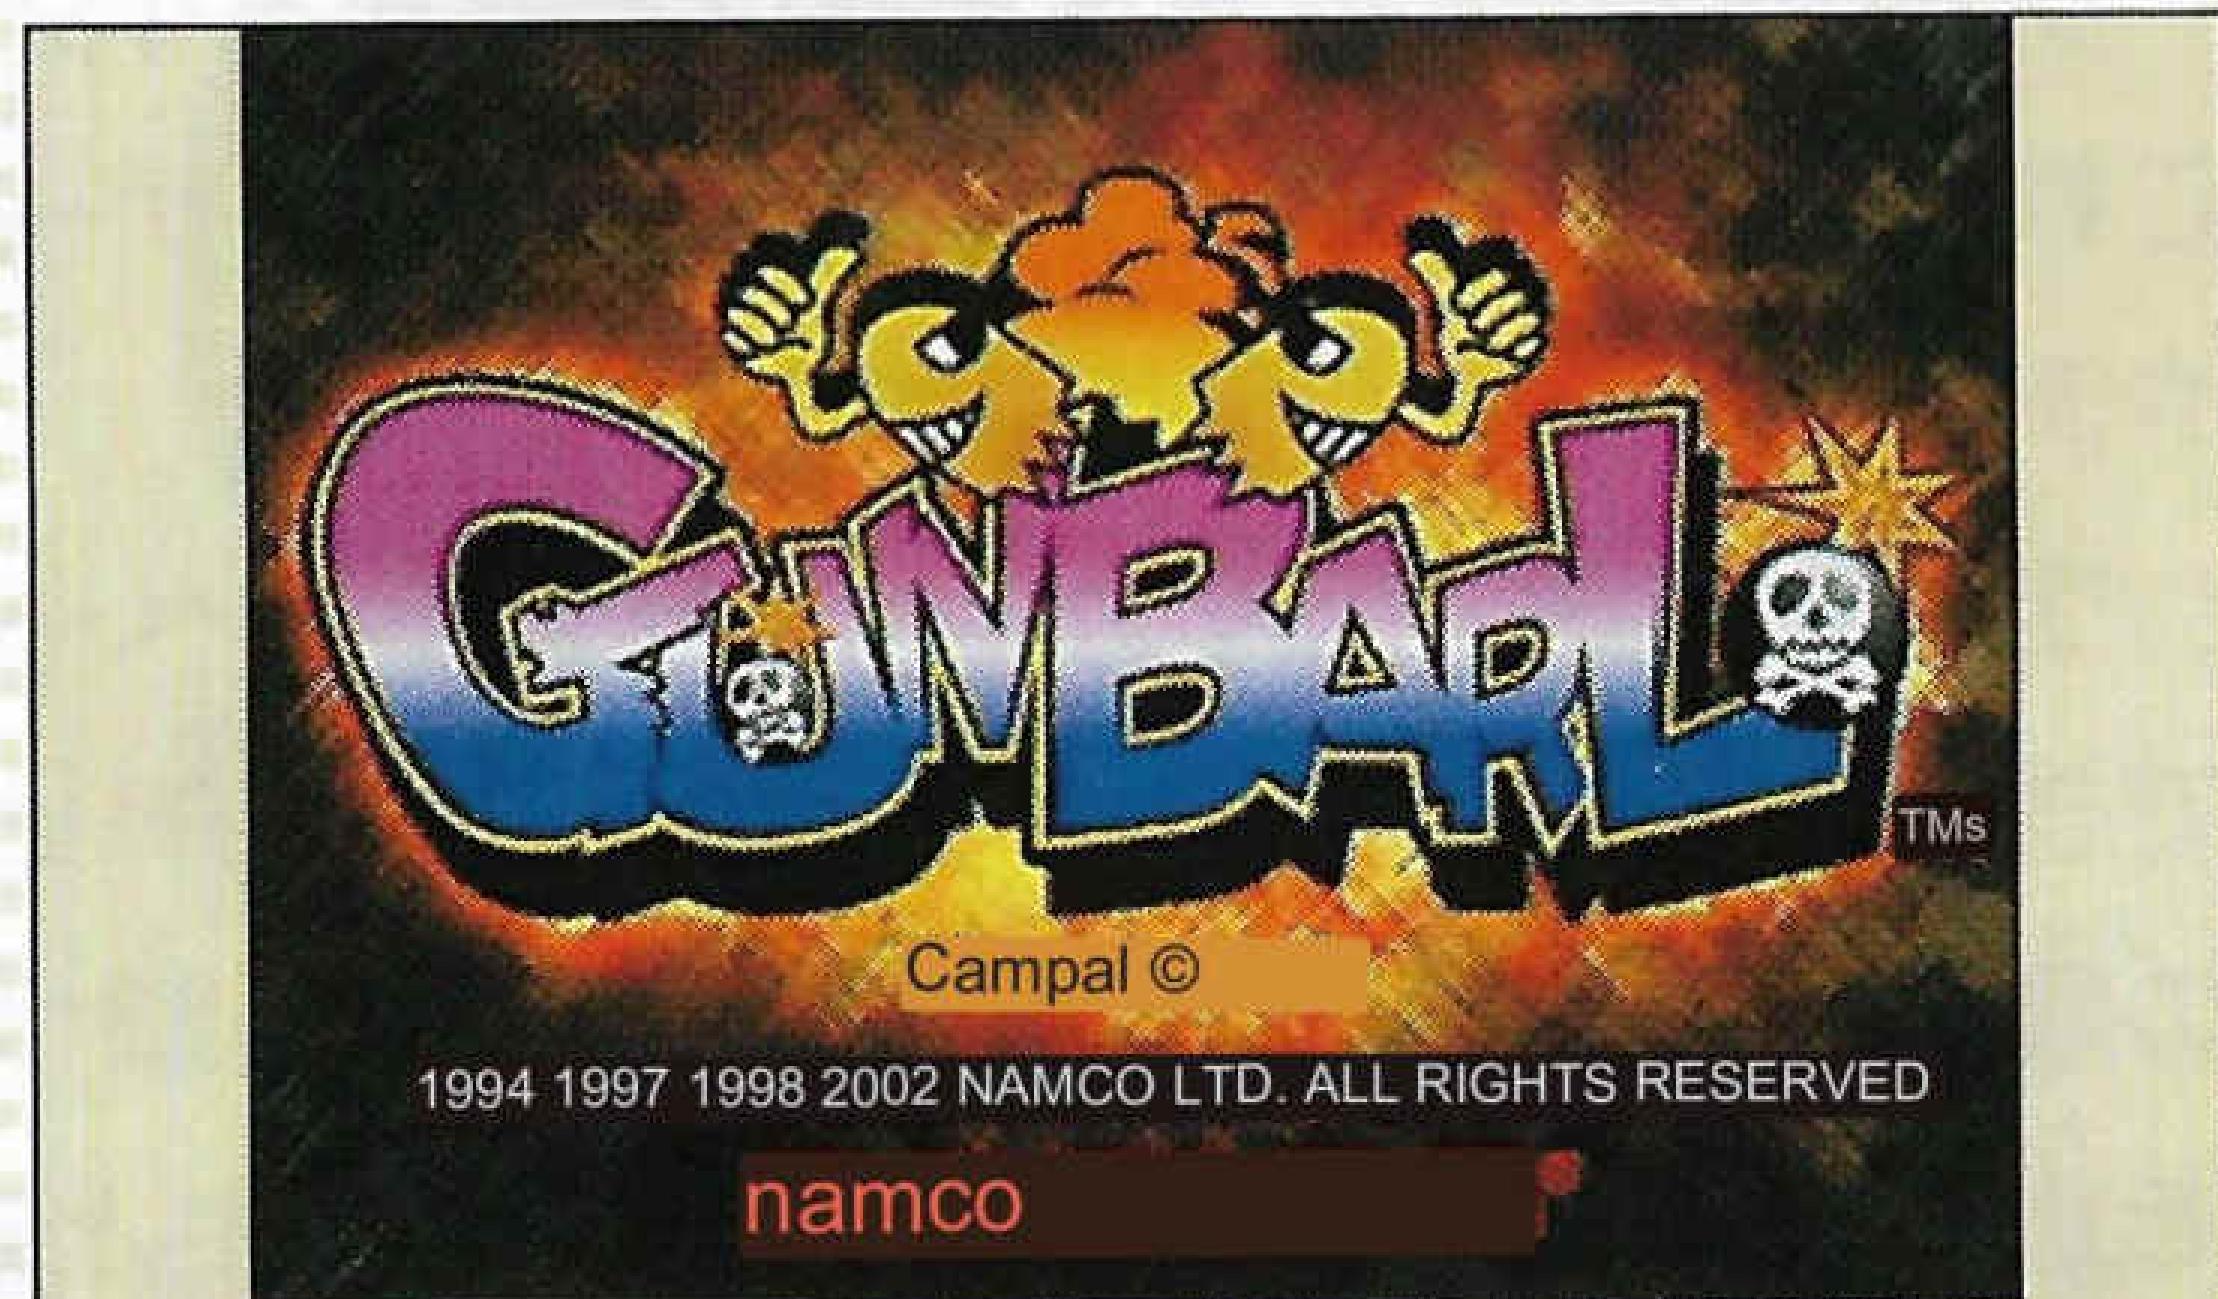

Gameplay Mode

When you select the game play mode, you will be taken to a screen where you can select four games: "Ganbarret", "Ganvar", "Ganbarina", and "Time Crisis". The title of the game you want to play will be displayed, and you can shoot and decide which game you want to play. For details on how to play each game, please refer to the following pages. If you meet the conditions, you will be able to play an original game called "Extra Stage" (see page 36).

Endurance

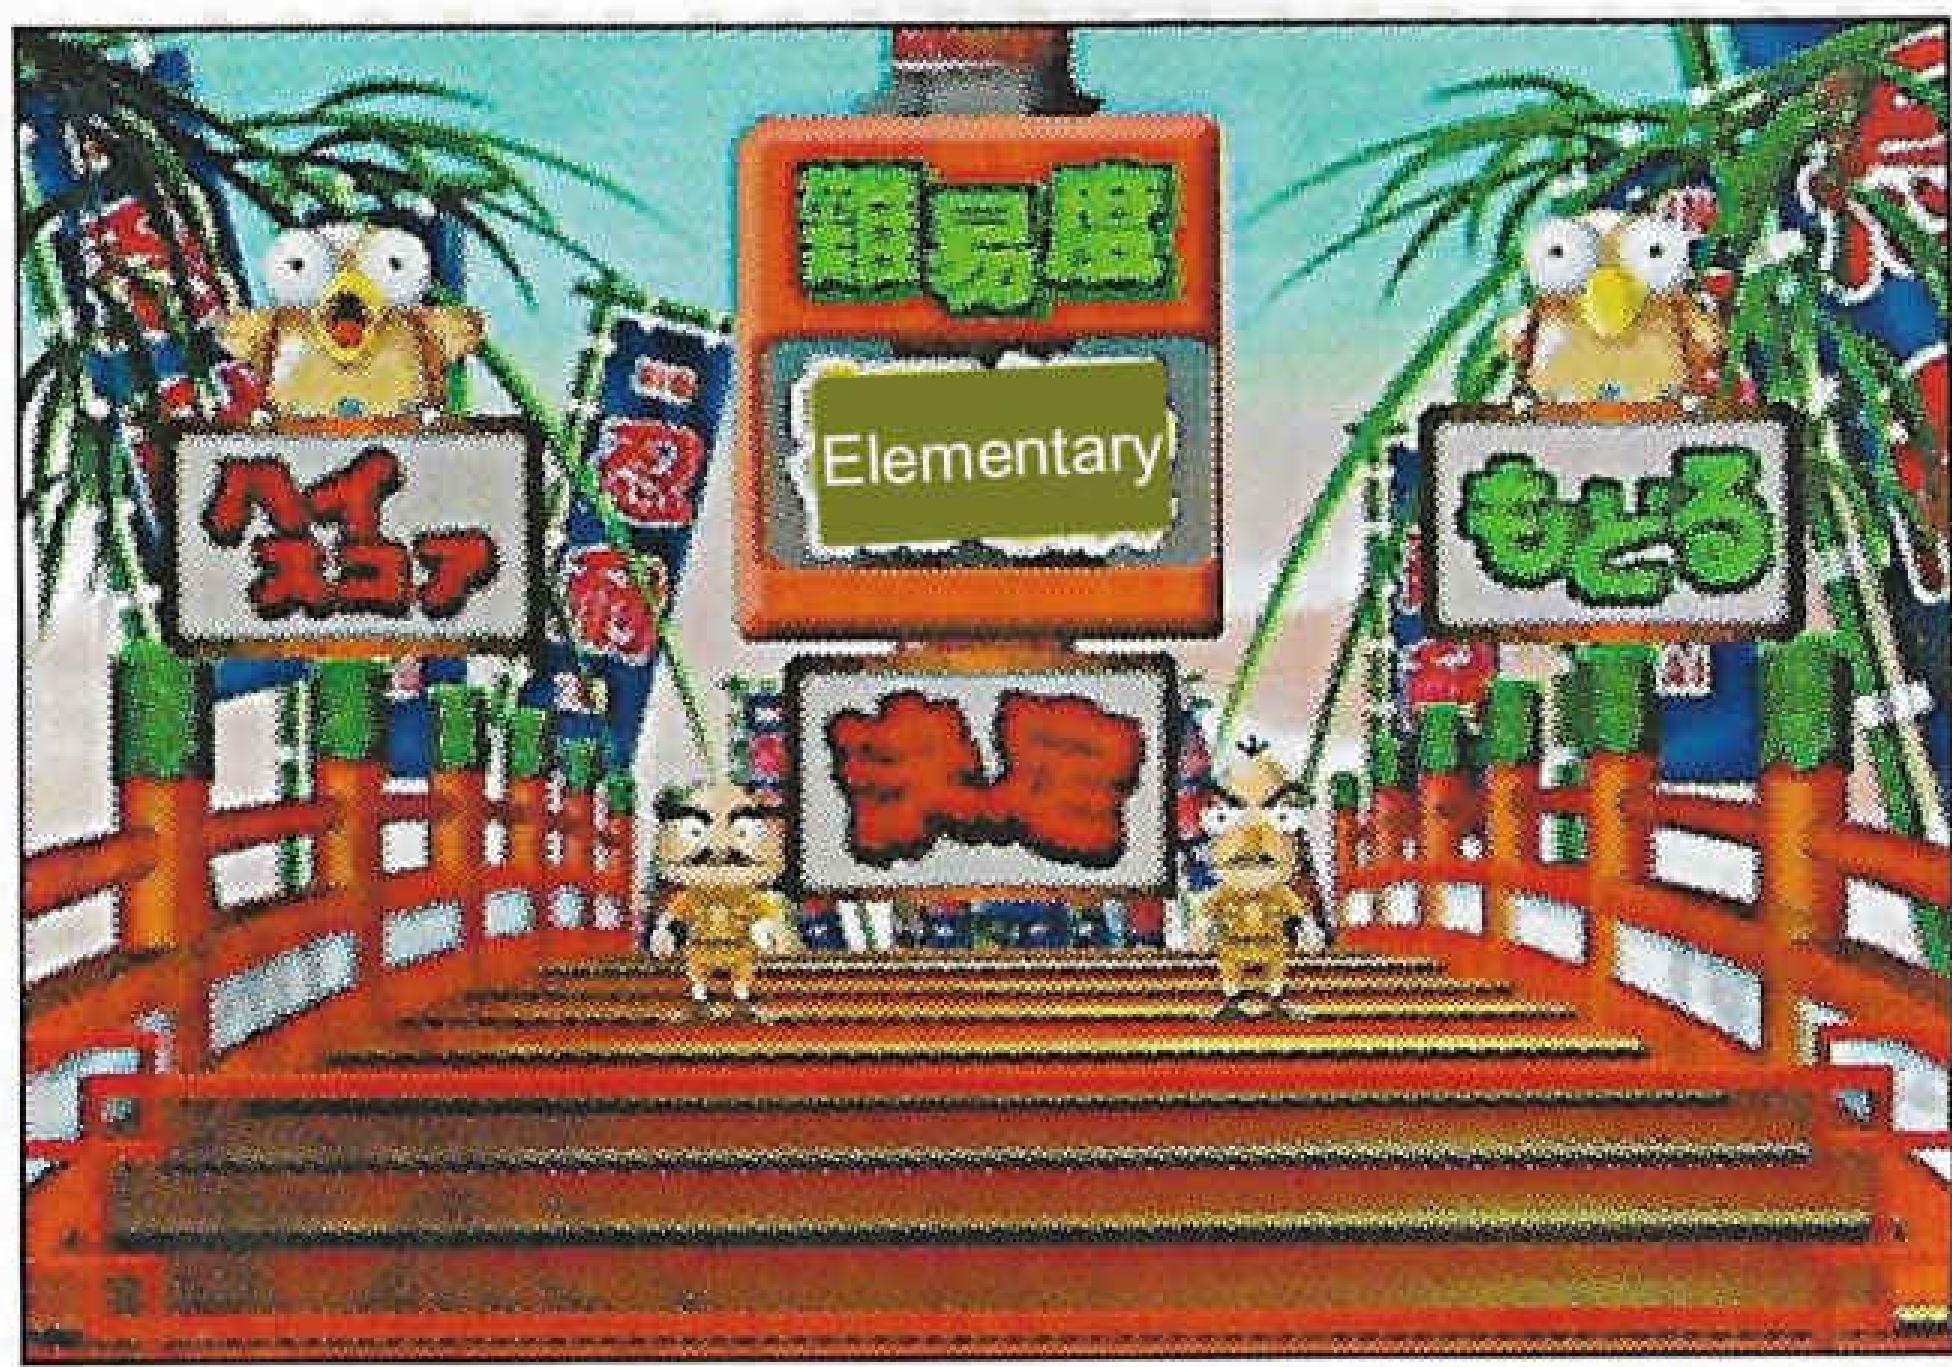

ENDURANCE

In this

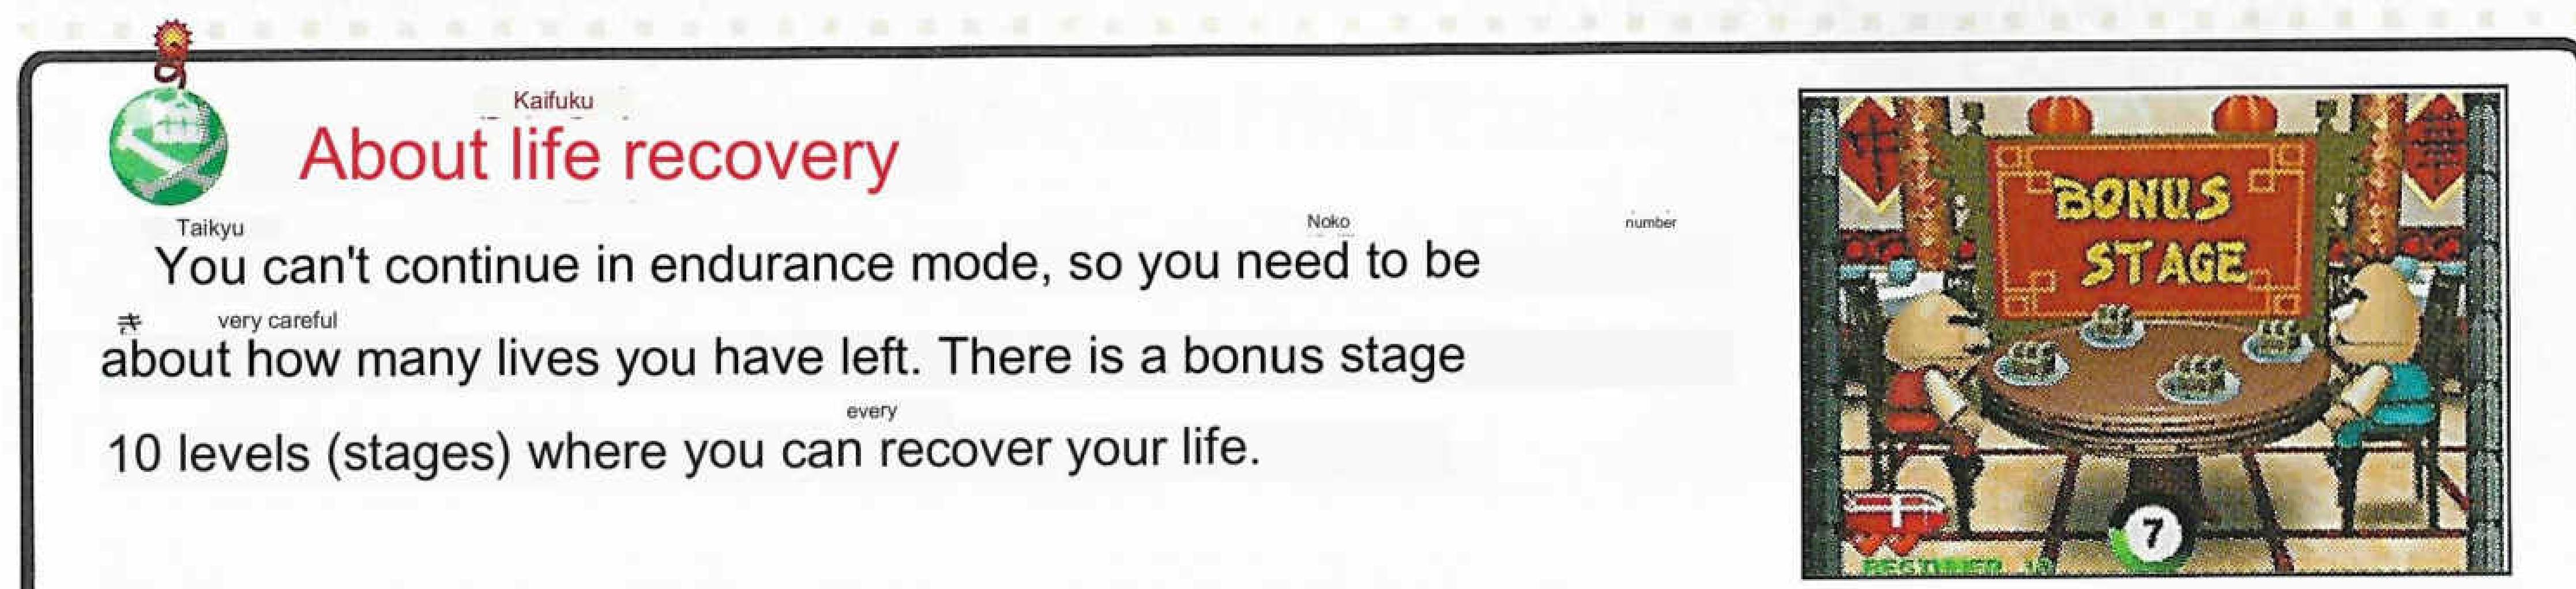

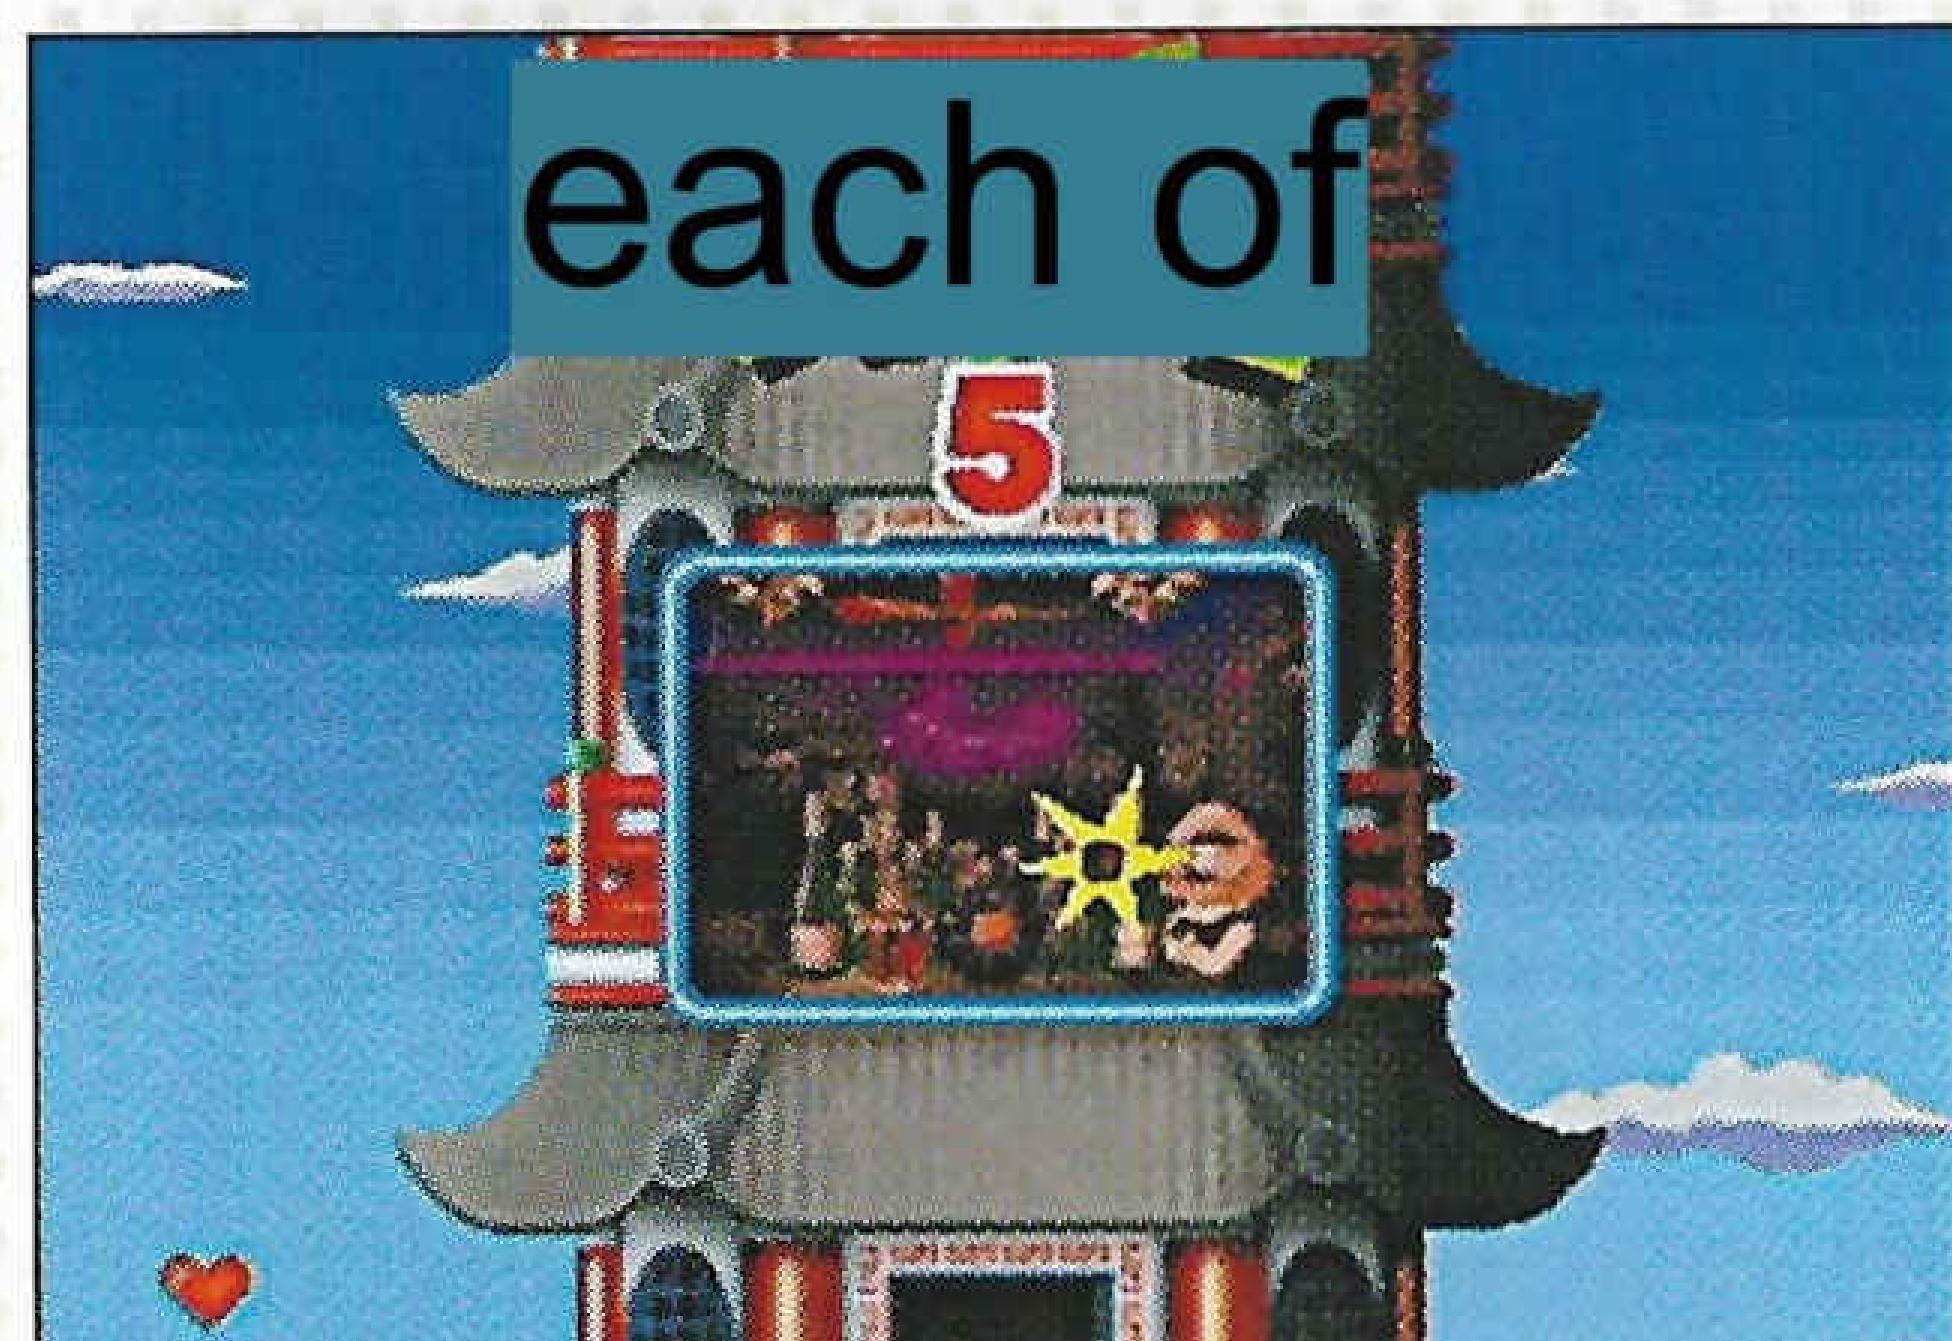

mode, you will continue to challenge until you run out of lives. There are a total of 87 levels (stages) for each course, and you will aim for the top floor of the tower.

this mode, there are four courses by difficulty level: "Practice", "Beginner", "Advanced", and "Extremely Difficult". Shoot the central sign and choose the course you want to play, press on the left to return to the high score display screen, and shoot the signboard on to return to the mode select screen.

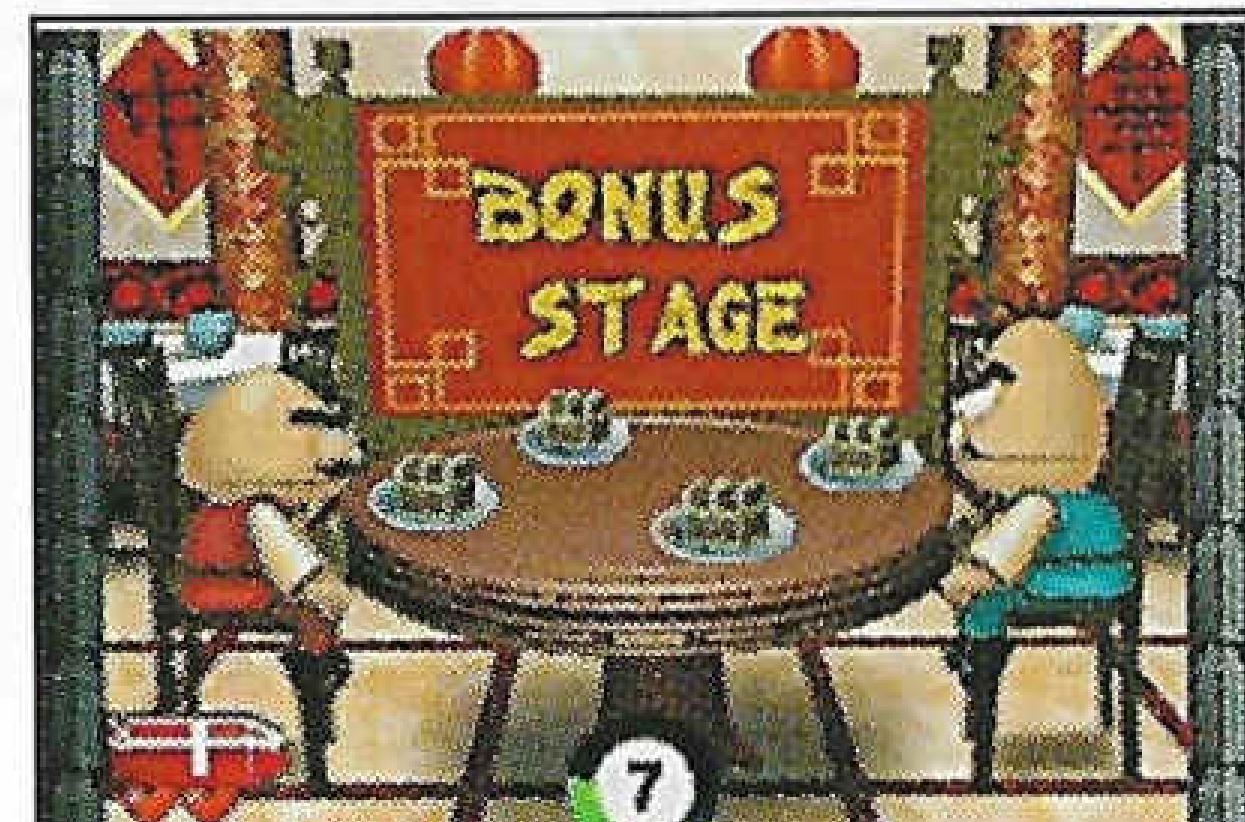

All Taikyu
There are a total of 87 levels (stages) for the 4 courses. You can play until you run out of lives, and when you clear a level Don and Dr. Dan will continue to tower (hold down the A or B button to jump to the top of the tower). 2 people go up faster). If you run out of lives, it's game over and continue. If you clear all levels (stages), you will have cleared "endurance".

Kaifuku About life recovery

Taikyu
You can't continue in endurance mode, so you need to be very careful about how many lives you have left. There is a bonus stage every 10 levels (stages) where you can recover your life.

VS BATTLE

This is a two-player mode
in which 1P and 2P compete against each other in shooting skills. There
are 4 courses (difficulty), and the stages that can be played are different for each

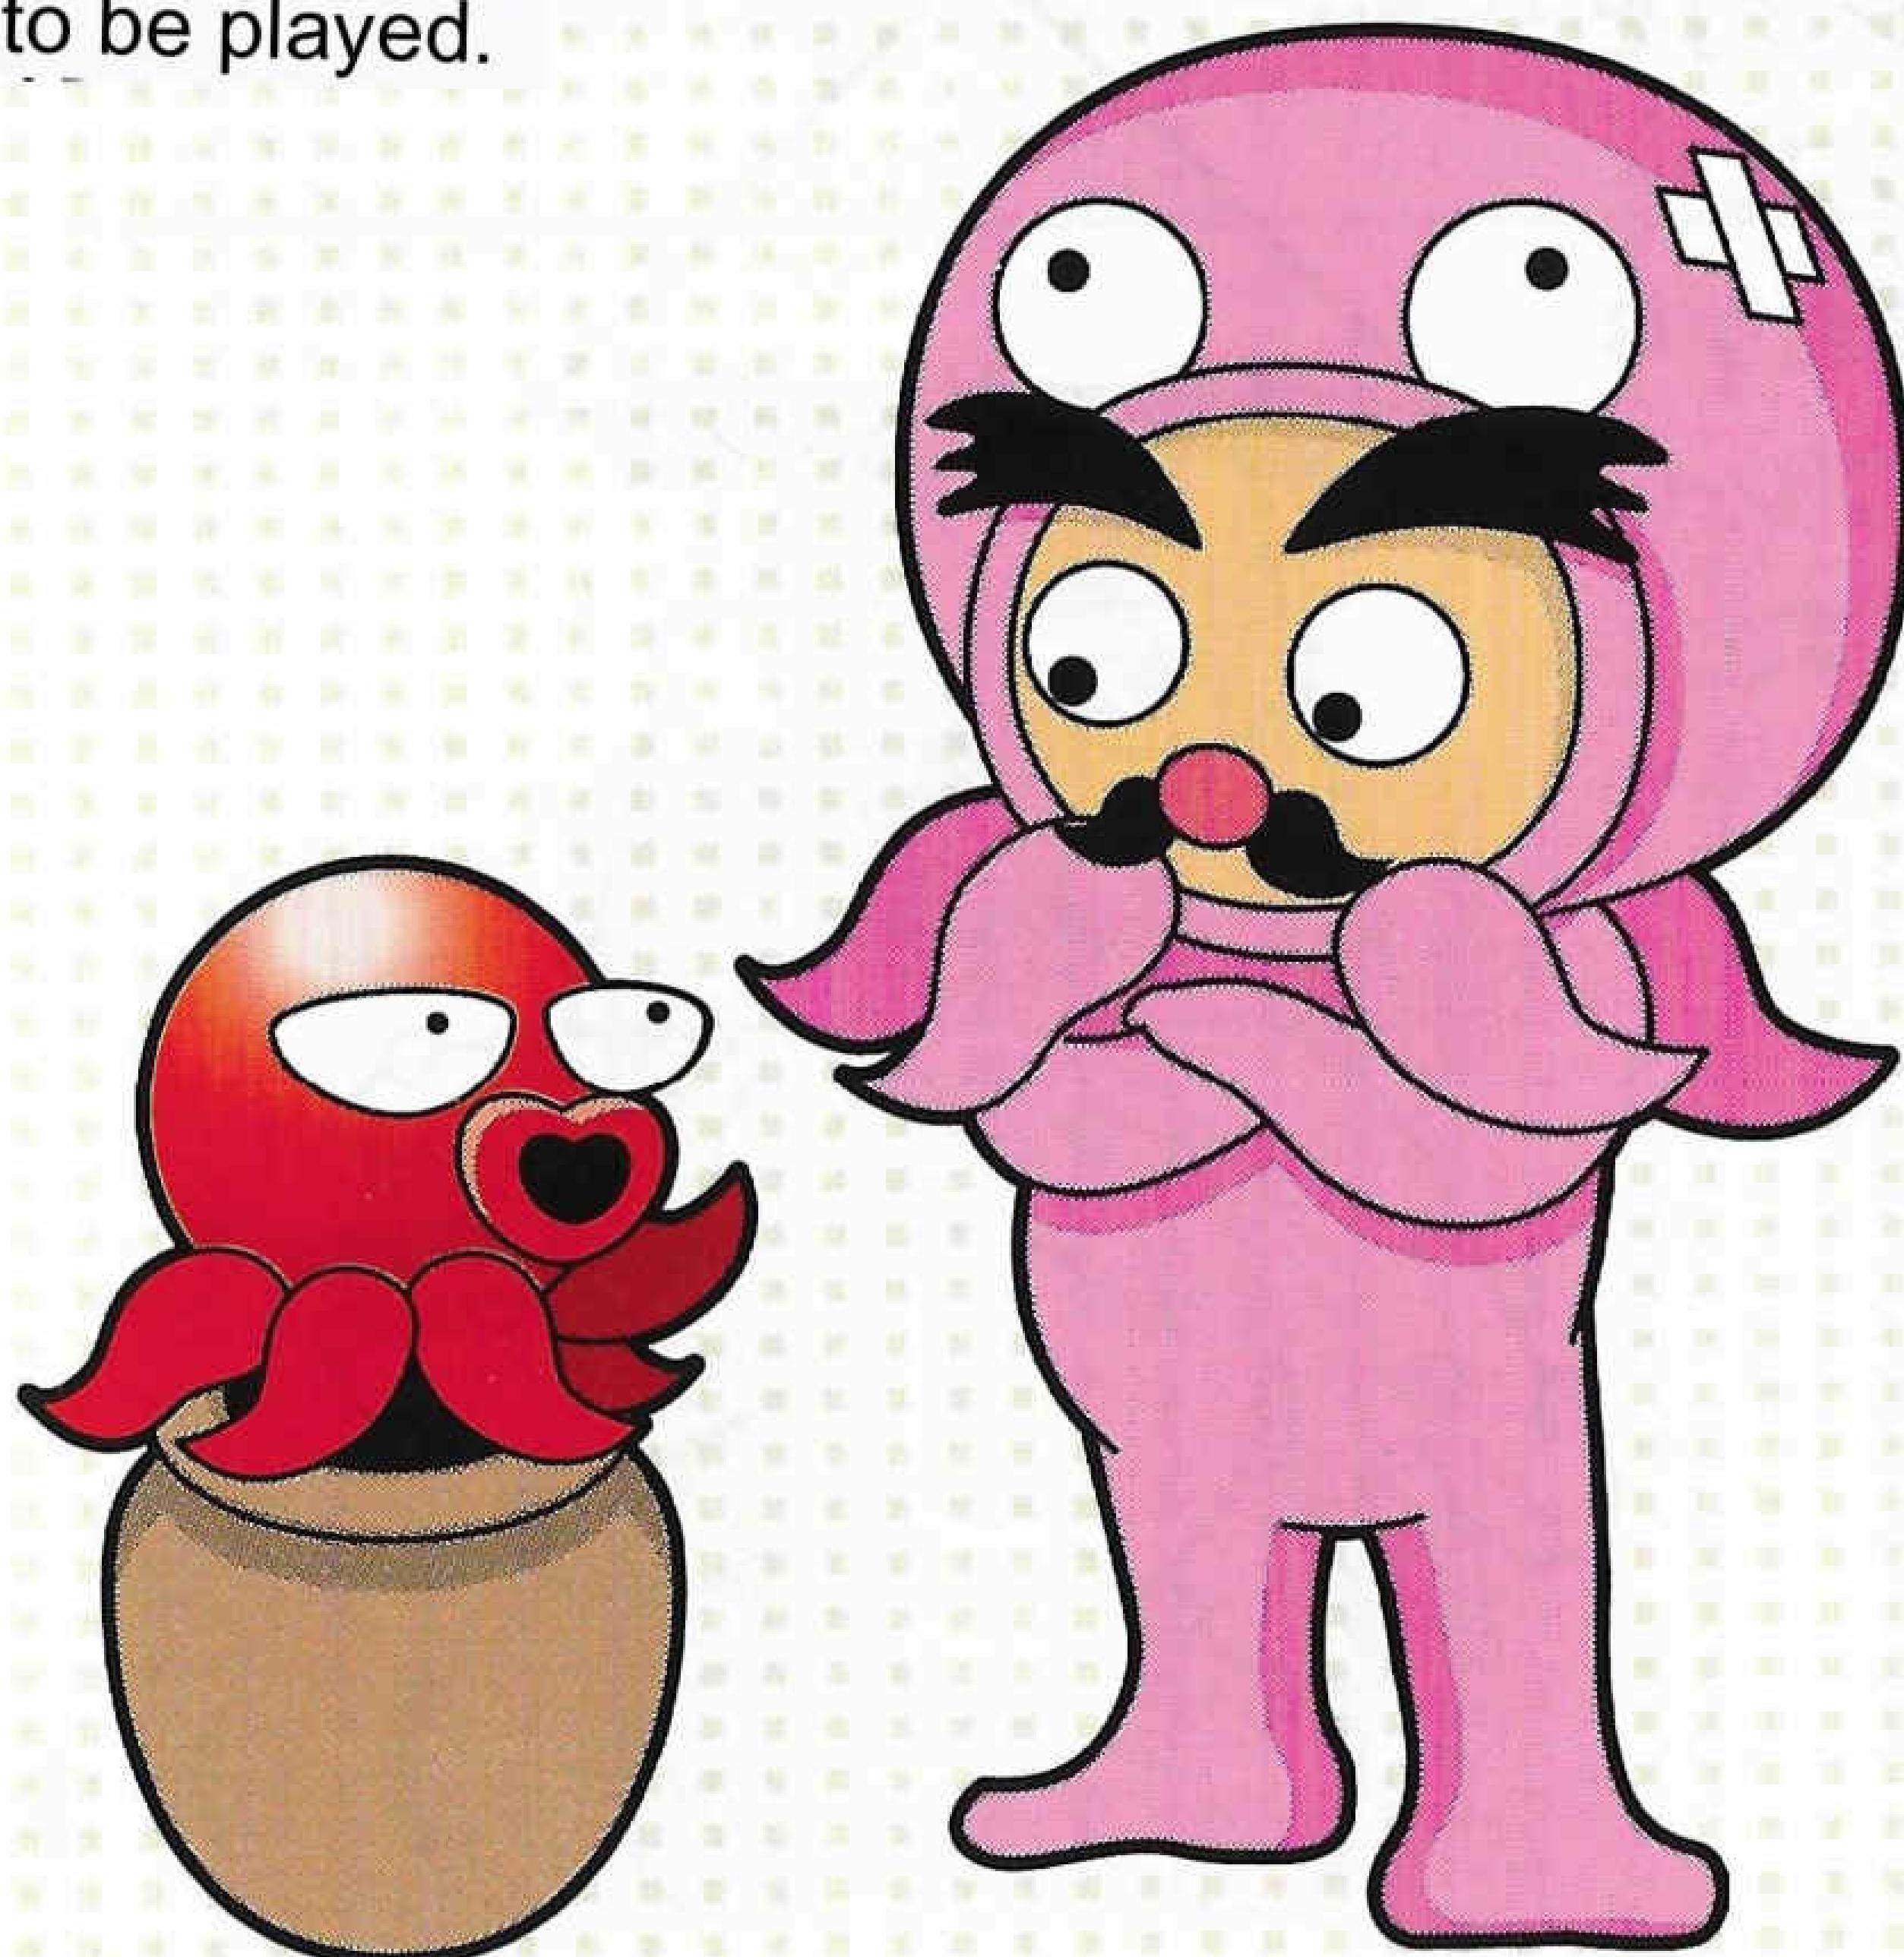

What's the
matter

the 1P is red and 2P is blue "Start" (Confrontation) is displayed at the bottom of the screen, press the A button or the B button. You can participate. On the course selection screen, shoot the screen and select the course you want to play the 4 courses "Practice", "Beginner", "Advanced", and "Extremely Difficult". Shoot "Decision" to start the match. If you shoot the sign on the left, you will return to the high score screen, and if you shoot the sign on the right, you will return

and "Extremely Difficult" courses, there are 8 stages, and in the "Beginner" and "Advanced" courses, 16 stages are played in 1P and

The player with the highest total score wins the victory conditions for each stage to be played.

party play

PARTY PLAY

This is a lively mode in which 2 to 8 people can participate. There are two ways to play in this mode: "Tournament" and "Team Battle".

How to start party play

If you select Party Play on the game mode screen, the game select screen like the right will appear. Please select either the left sign to return to the high score display screen, and shoot the right sign to return to the mode select screen.

Character and Handicap

Once you have selected the next step is to register the players who will participate in the game. By shooting the three pictures displayed on the screen, you can set the their handicap setup. "Score handicap" allows for your total score, and "Life handicap" allows you to set the number of lives you have. After registering the participating players and selecting "Finish", all player characters will be displayed on the screen for confirmation. If "Take turns" to start the game.

999 tournaments

Up to 4 players each play 1 stage of difficulty, and compete in a winning system. If you can't meet the requirements, you can't play. If you shoot a bad shot, the player with the highest score wins regardless of the number. In addition, if the score is the same and it is a draw, we will play

team battle

is a team competition in which teams are divided into a red team and a blue team. As the player with the highest score wins regardless of the number of players. Losing players are eliminated. The last remaining team wins. Up to 4 players per team, up to 8 players can participate.

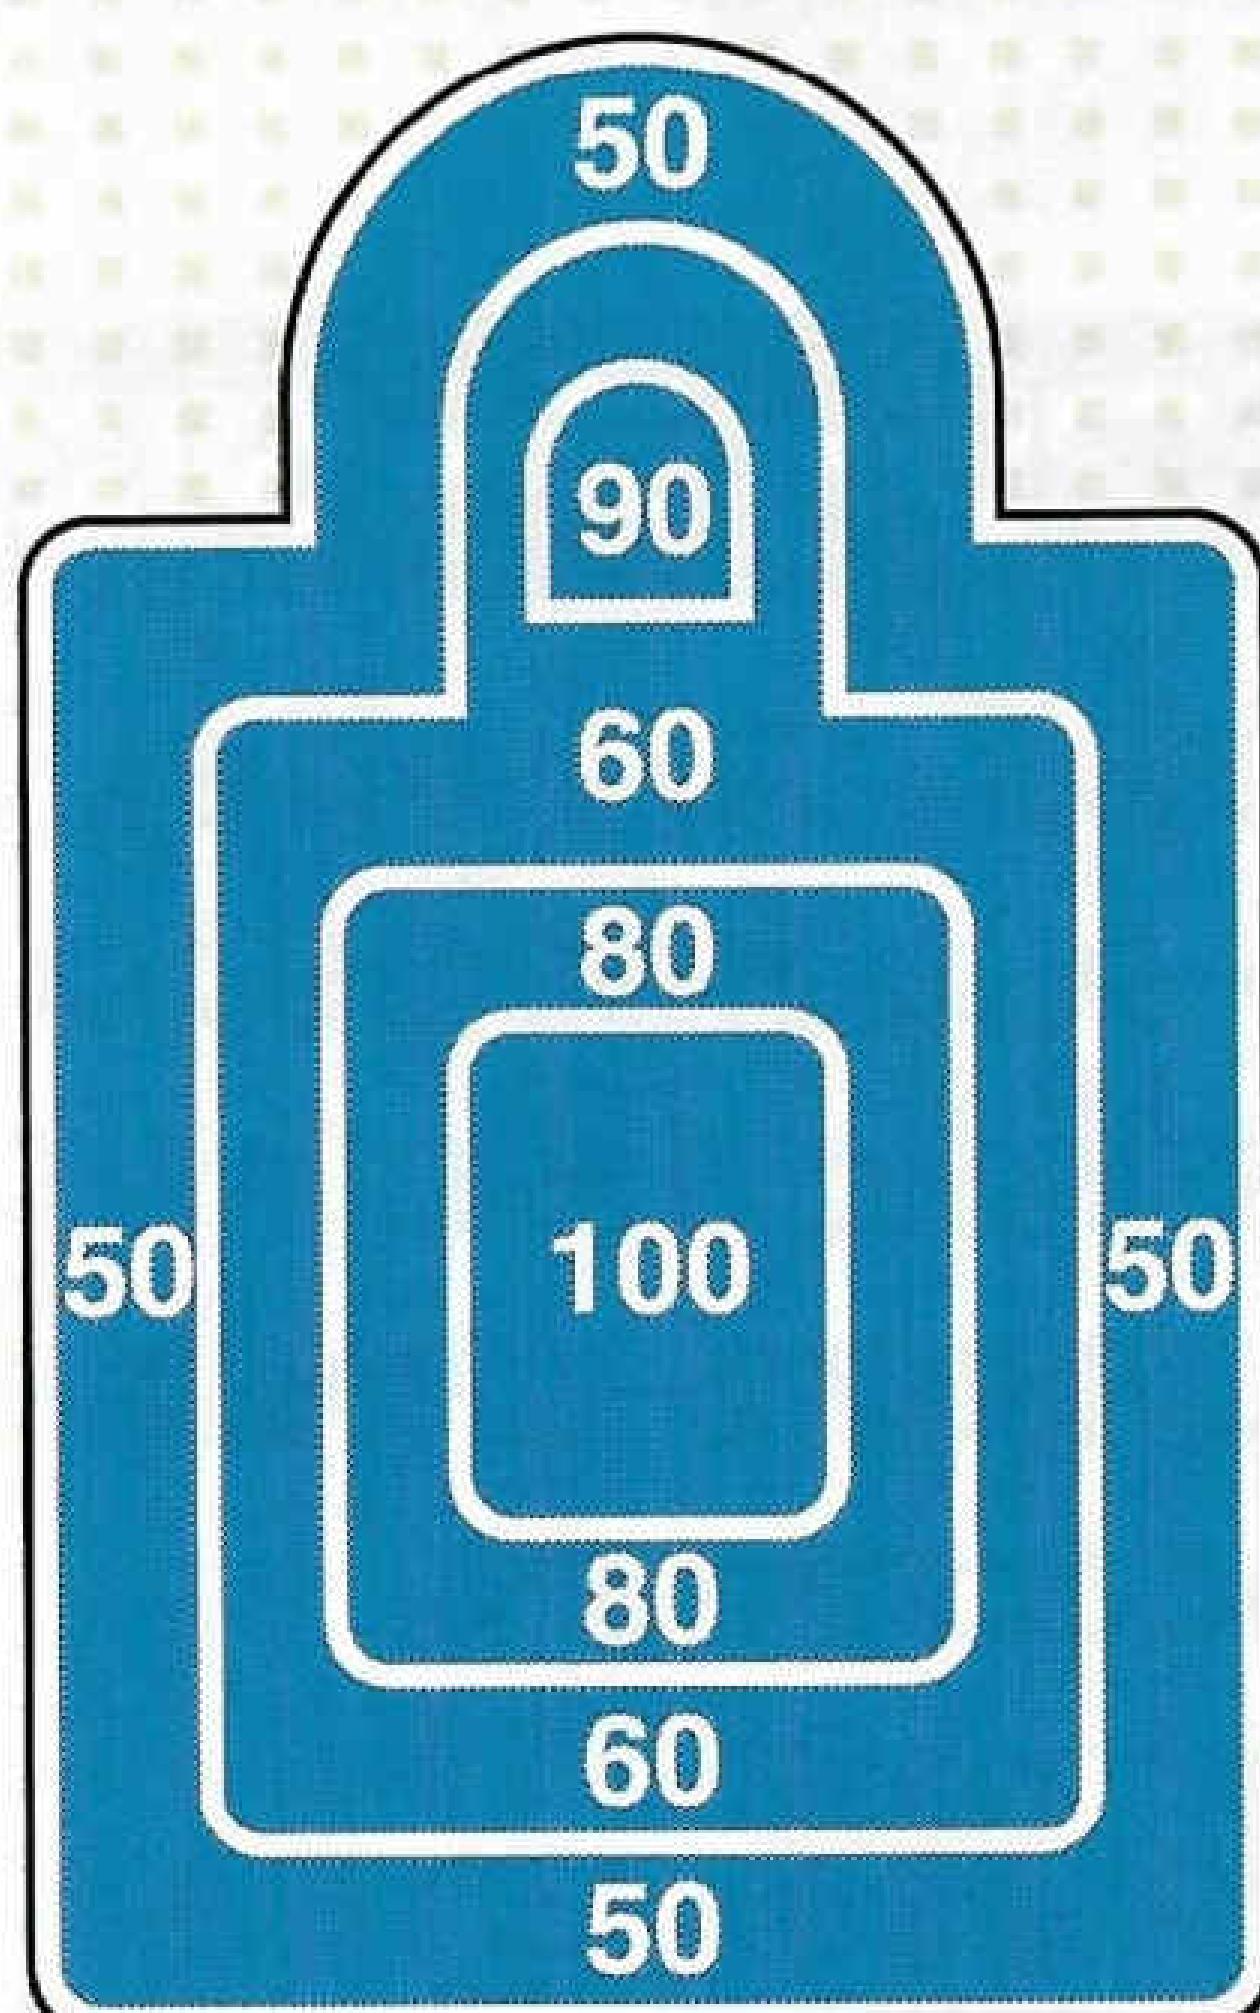

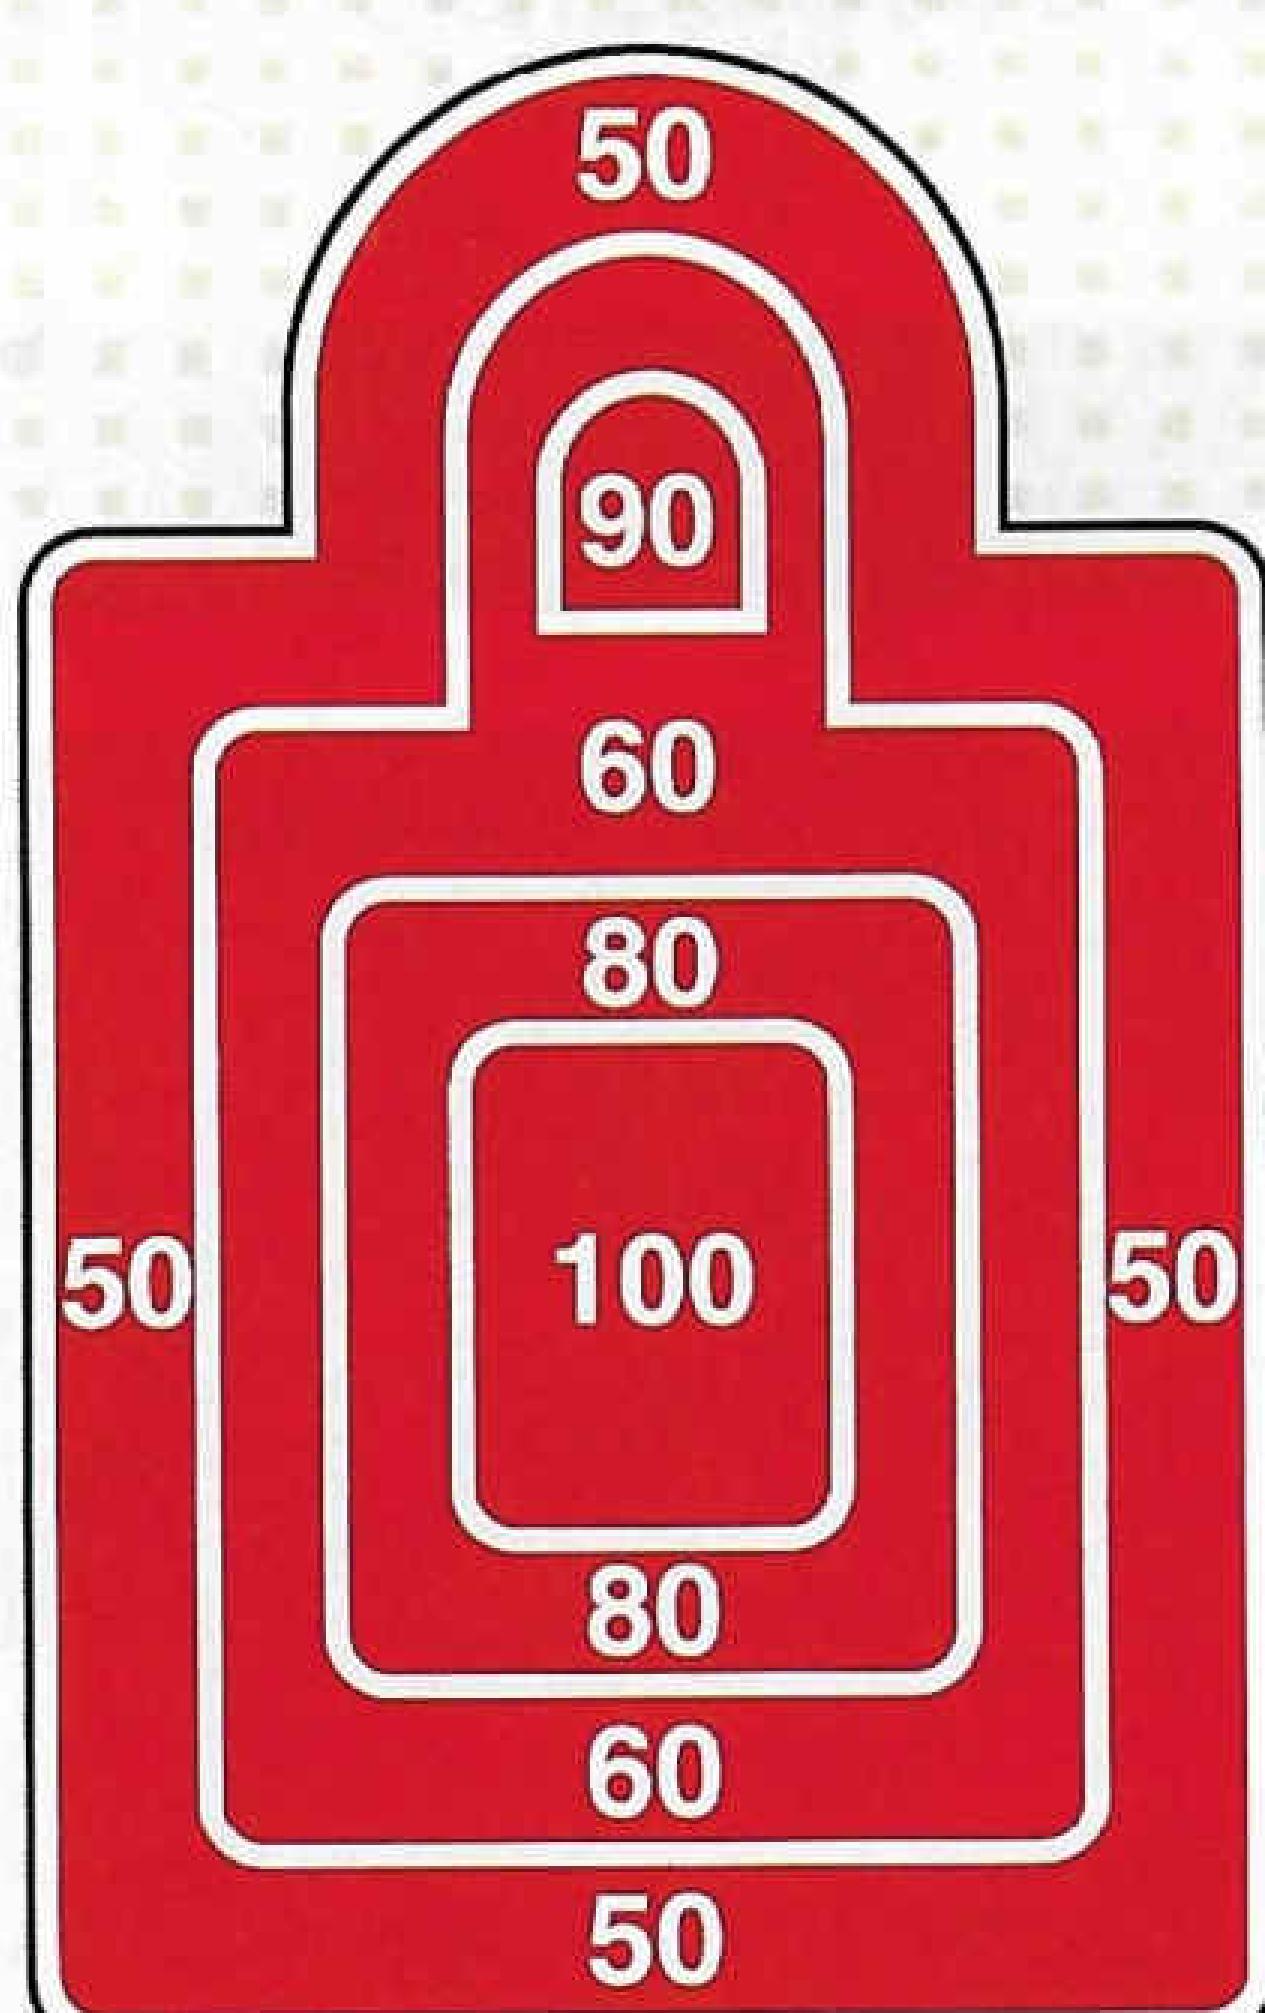

GUNVARI

Techniques for handling Guncon 2.

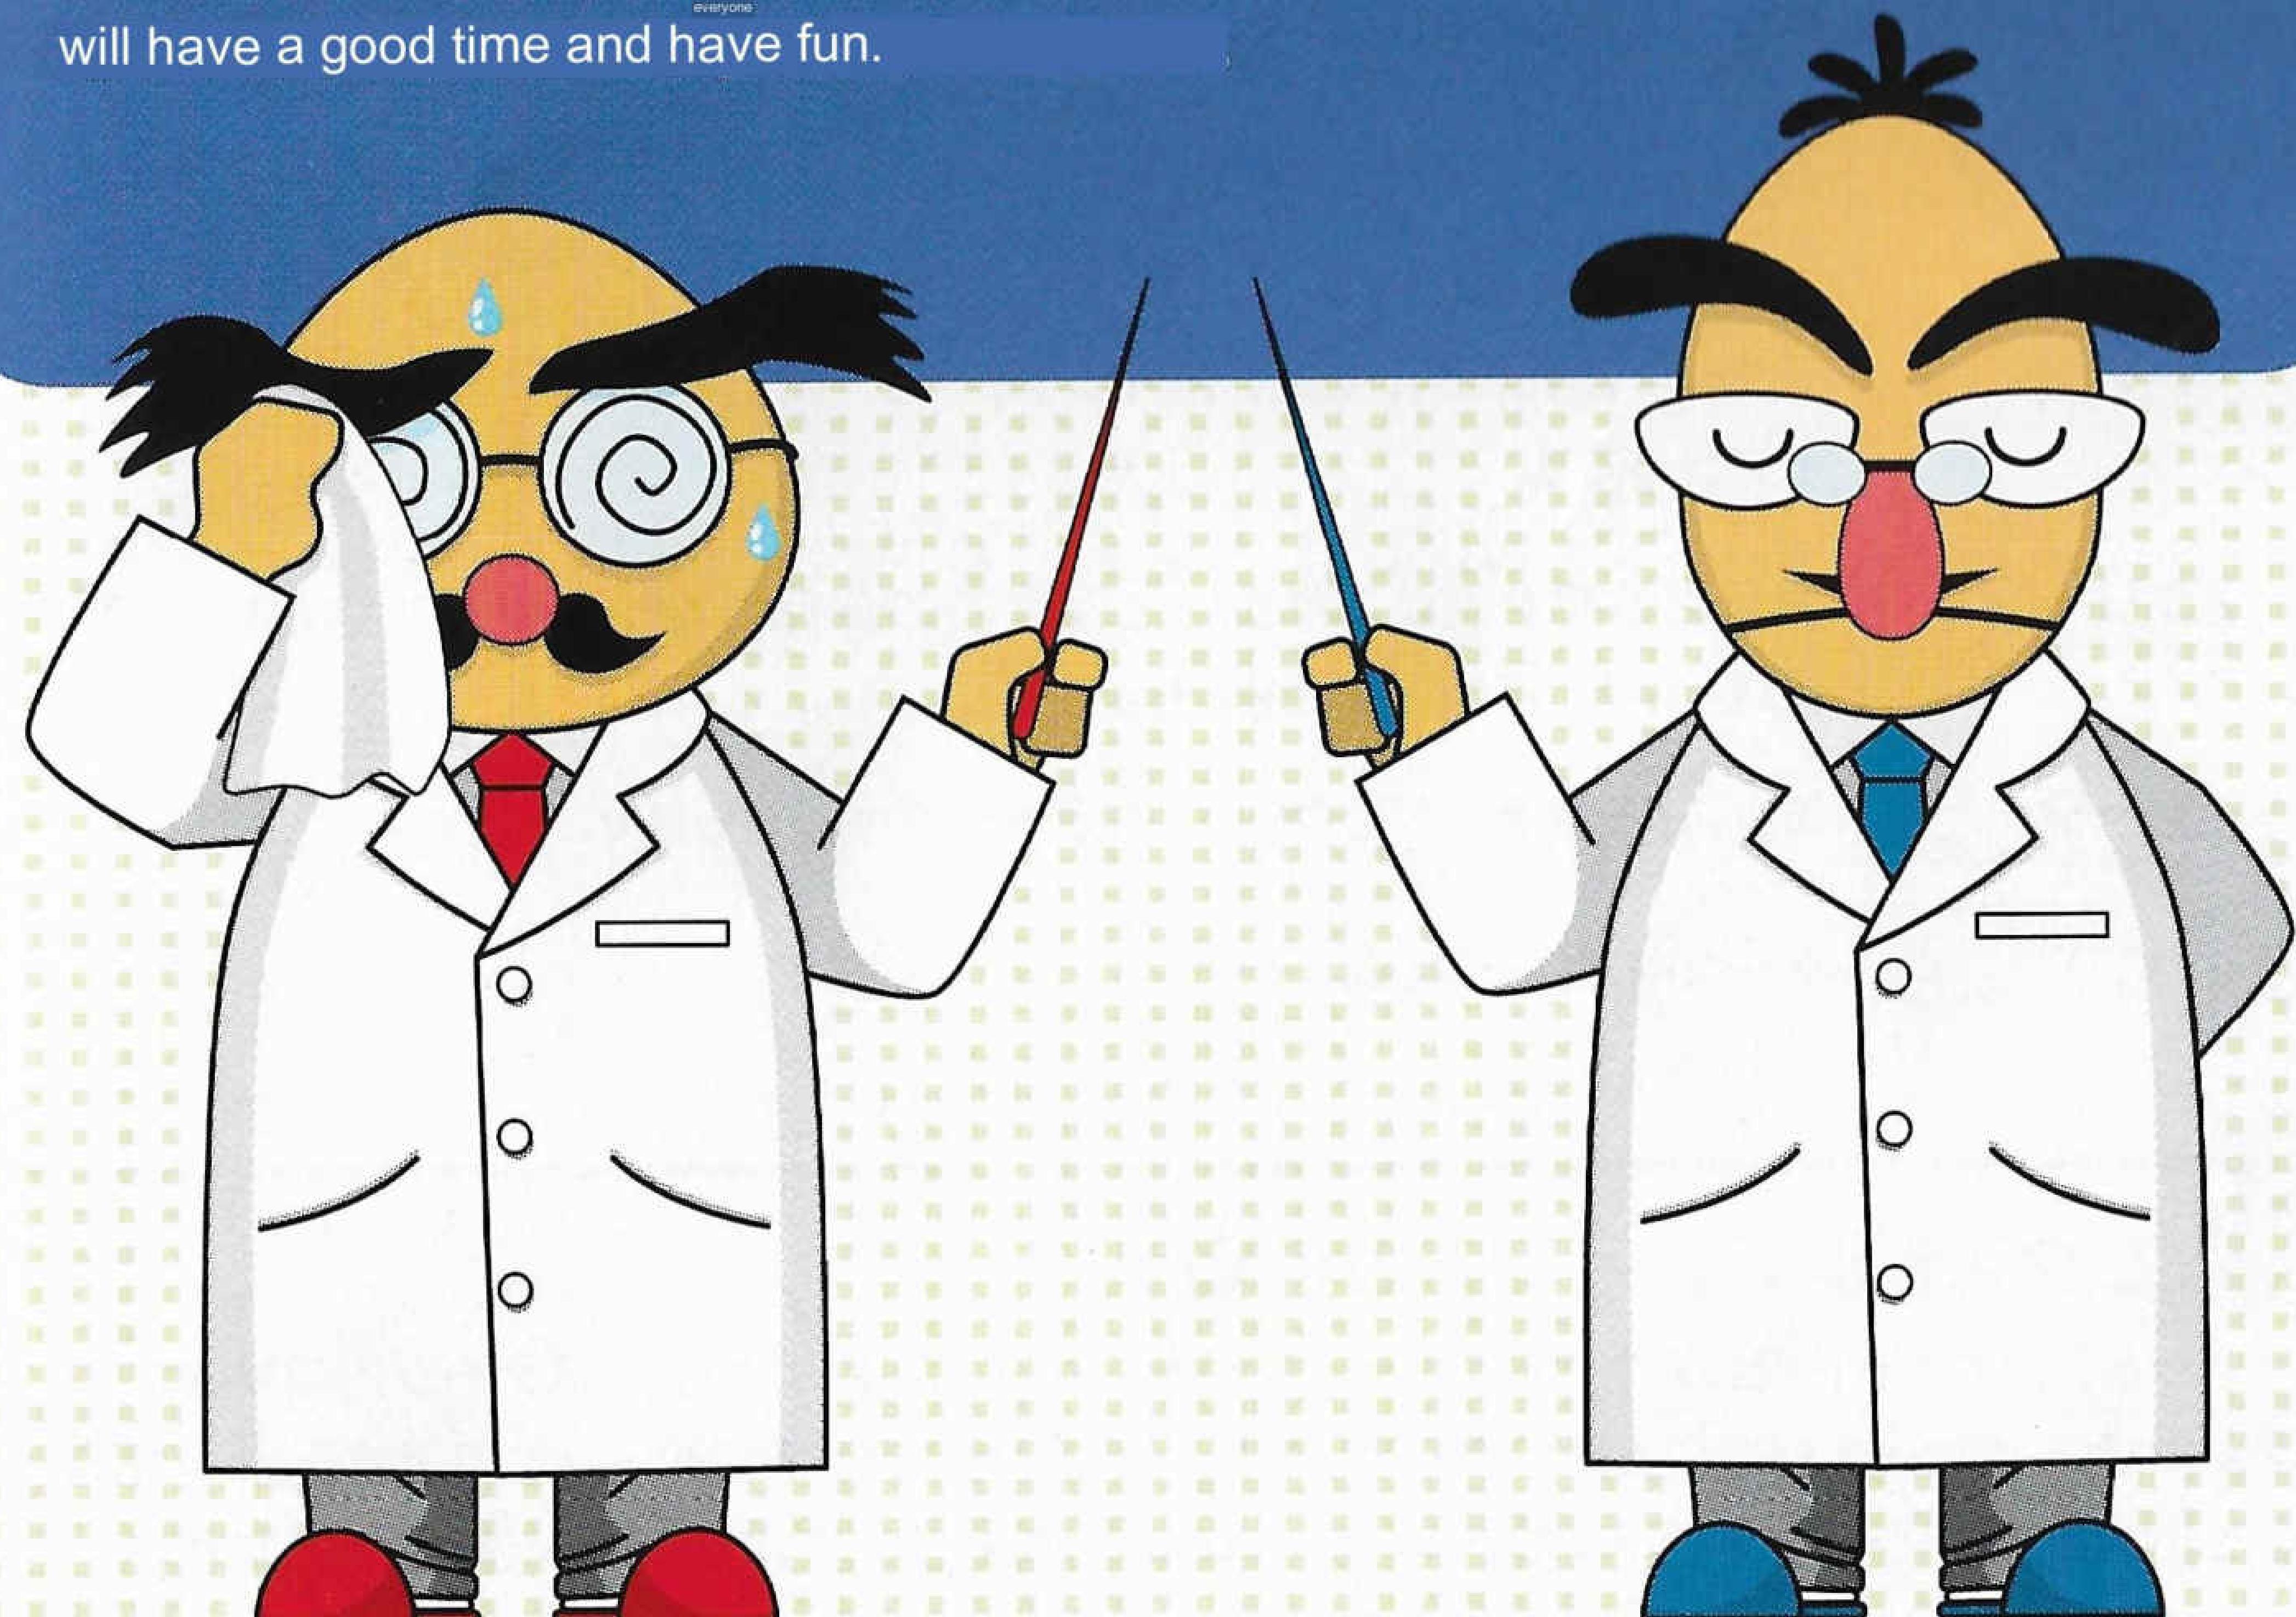

For those of you who are still unfamiliar with Gankon 2's operation, let's teach you our super technique! Don't forget this. If your aim is off, you can't shoot where you aim, so you can't hit it. Be sure to read "Guncon 2 Aim Adjustment" on P2. Don't forget to fix the muzzle so it doesn't move during the game. Rather than holding it by a young person, it would be better to hold it with your hands. This

adversely affect the body, such as mushrooms or eyes. This disc is only compatible with the Japanese domestic PlayStation 2 marked NTSC J or FOR SALE AND USE IN JAPAN ONLY. Please read the "Instruction Manual" and "Safety Precautions" of the "PlayStation 2" main unit carefully, and use it in the correct way. • When inserting this disc into the "PlayStation 2" console, be sure to place it on the disc tray so that the label (the side on which the title is printed) is visible. • Do not store in places with high temperatures, such as places exposed to direct sunlight or hot from heaters. Avoid places with high humidity. • Hold the disc so that both sides do not touch it. • Do not put paper or tape on the disc. • Do not write on the disc with a pen or the like. Dirty discs from fingerprints and dust can cause image distortion and alarms. Keep it clean. • For regular cleaning, use a soft cloth to gently wipe the disc in a radial pattern from the center to the outer edge. Do not use benzene, record cleaners, anti-static agents, etc., as they may damage the disc. Never use cracked or difficult discs, or discs that have been repaired with adhesive, etc., as they may cause malfunction or damage to the main unit. • When removing the disc from the case, press the PUSH button on the case so that the disc floats before removing it. If you try to force the disc out before it floats, the disc may crack or your finger may be caught and injured. * After playing, put the disc in its case and keep it out of reach of children. Stacking them without putting them in a case or leaning them diagonally may cause warping or scratches. • Do not intentionally insert your finger or other part of your body into the center hole of this disc. It may become stuck or hurt your body. Never throw this disc. There is a risk of injury to the human body or others. • Please note that we cannot compensate for scratches or damage caused by mishandling by the customer. • Do not connect the "PlayStation 2" unit to a non-liquid crystal projection TV (screen projection TV). Afterimage phenomenon (screen burn-in) may occur. Afterimages are especially likely to occur when displaying still images. Depending on the software, "PlayStation 2" dedicated memory card (8MB), "PlayStation BB Unit", "PocketStation", etc. may be required. For details, please refer to the "Explanation Manual" of the software. • When storing a memory card in a case, place the whistle engraved with the △ on the memory card upwards, insert the terminal side diagonally into the hook on the left end of the MEMORY CARD HOLDER (memory card holder) at the top of the case, and insert the right end into the hook on the left end. Please insert it. Also, when removing the
