In the summer of 1993, I sat down at my kitchen table and started to draw a comic book called Scud the Disposable Assassin. Three short years later, Segasoft has captured Scud's soul and shoved it into the game you are about to play. The first time I watched the animated intro to the Scud video game I was in awe. My character looked and moved exactly the way I drew him in the comic book. That was good, but what knocked me on my can had to be when Scud came out of the vending machine. The coin is put in, the machine cranks to life, a door pops open and there HE is. Chest thrust out, arms spanned, head lifted high- the viewer is probably thinking "Here we go again, another Robocop." Then Scud does something wonderful.

He slouches.

In that simple movement, Scud conveys the "whatever" attitude that today's generation relates to the most. This theme sets him apart from the old school, melodrama that plagues the comic books and video games of late. Scud is bright yellow, shinning with a positive, get-the-job-done philosophy. Scud is thin, not a muscle bound dork that resembles a jock who used to beat you up in high school. Scud is an ambitious slacker. Scud is cool. Scud is...you.

Thank you so very much Segasoft for recreating the spirit of the book and doing such a wonderful job on a very fun game.

Kudos,

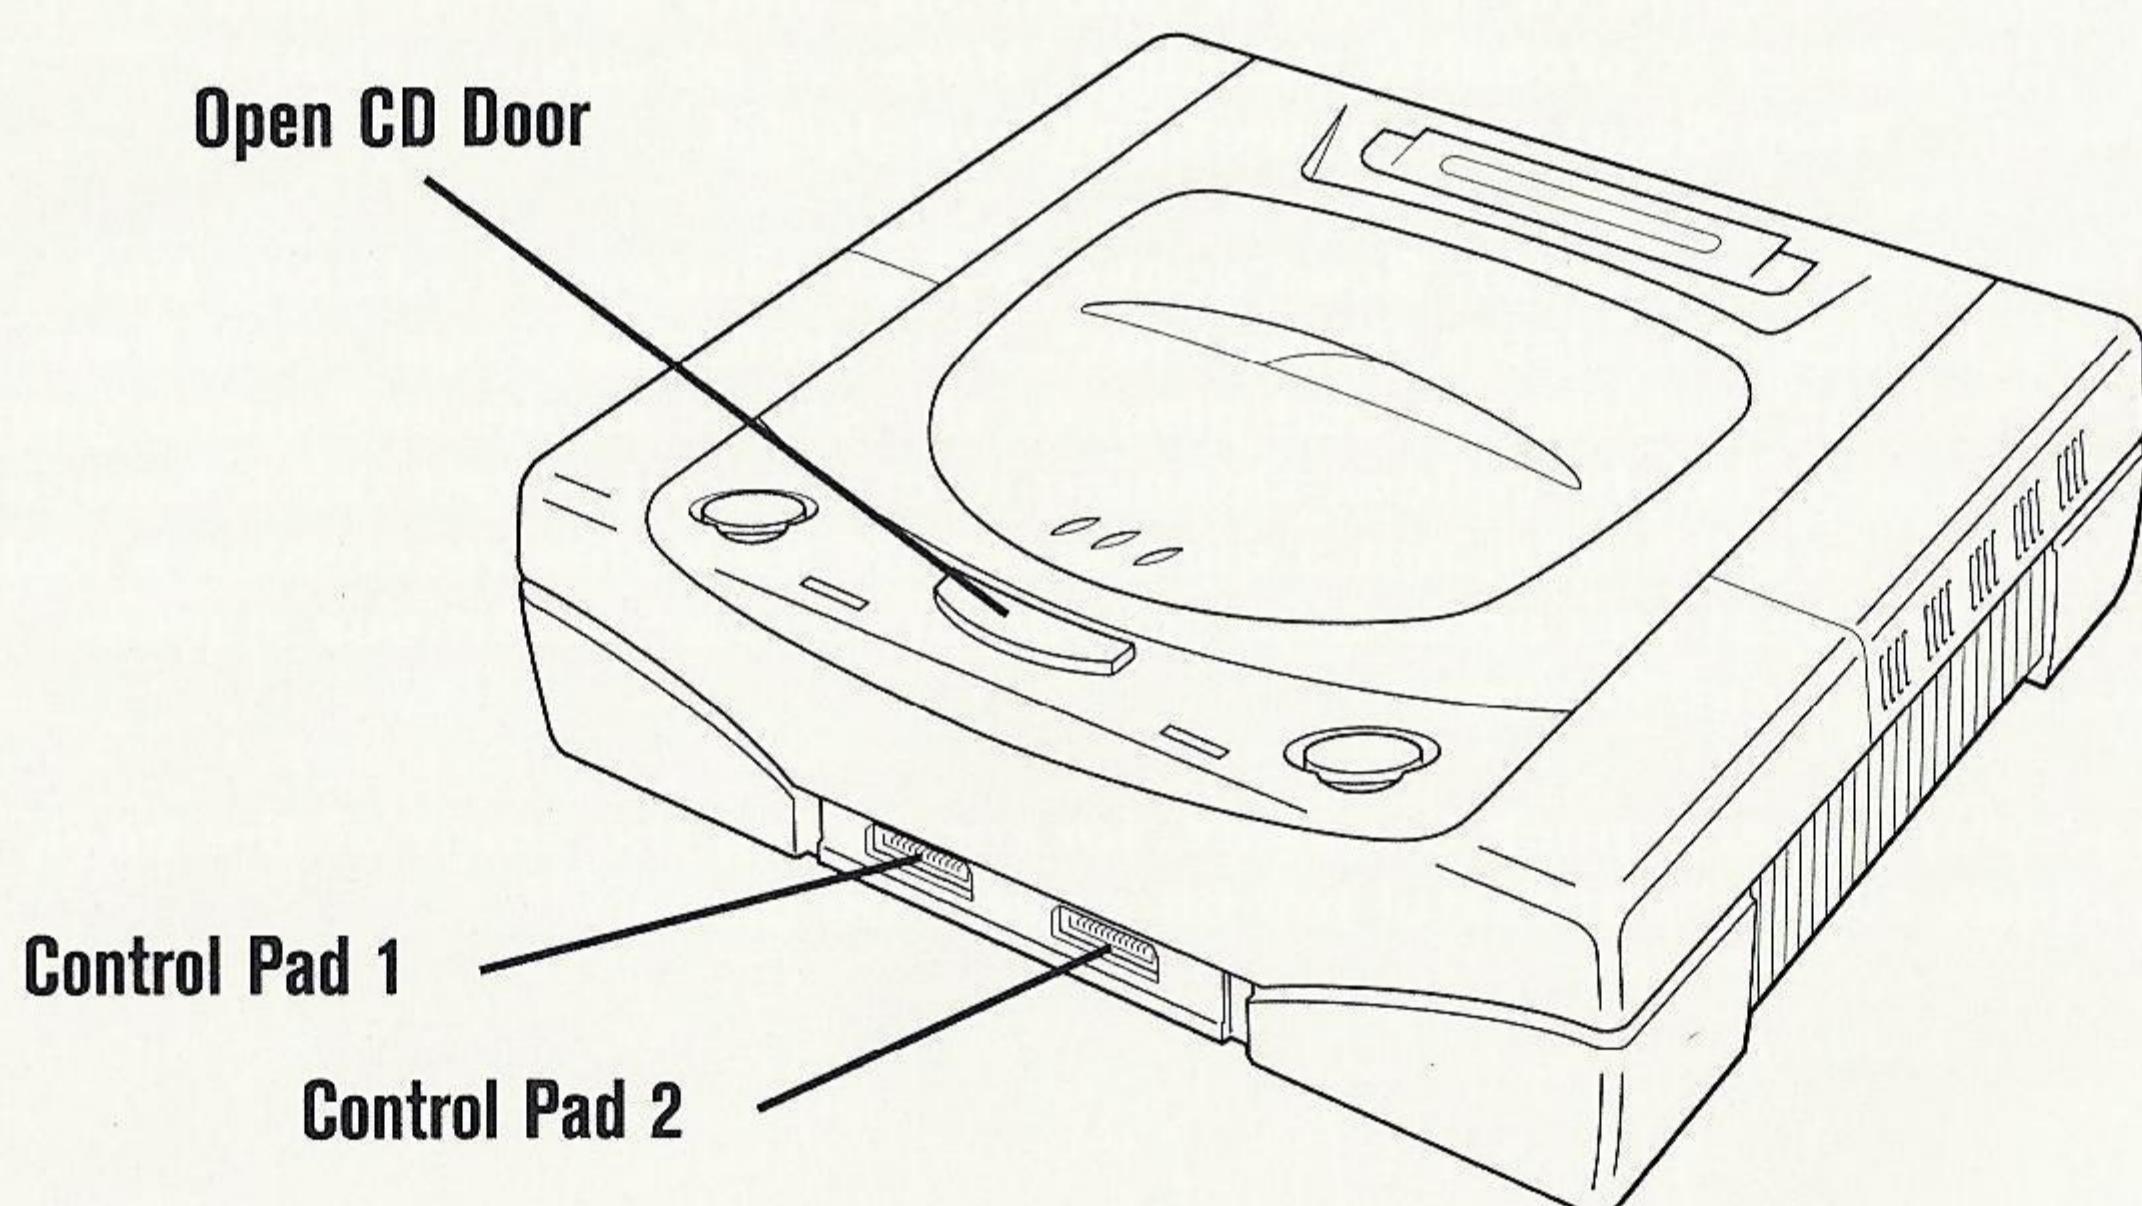

A handwritten signature in black ink that appears to read "Jim Lee". The signature is fluid and expressive, with varying line thicknesses.

GETTING STARTED

1. Set up your Sega Saturn System™ as described in its instruction manual.
2. Place the SCUD disc, label side up, in the well of the CD tray and close the lid.
3. Turn on the TV or monitor and the Sega Saturn. The Sega Saturn logo will appear on screen. If nothing appears, turn the system off and make sure it is set up correctly before turning it on again.
4. If you wish to stop a game in progress, or the game ends, press the Reset Button on the Sega Saturn console to display the on-screen Control Panel.

Important: Your Sega Saturn CD contains a security code that allows the disc to be read. Be sure to keep the disc clean and handle it carefully. If your Sega Saturn system has trouble reading the disc, remove the disc and wipe it carefully, starting from the center of the disc and wiping straight out toward the edge.

"VENGEANCE IS MINE SAYETH THE LORD!!!"

These days, everyone's an anti-hero.

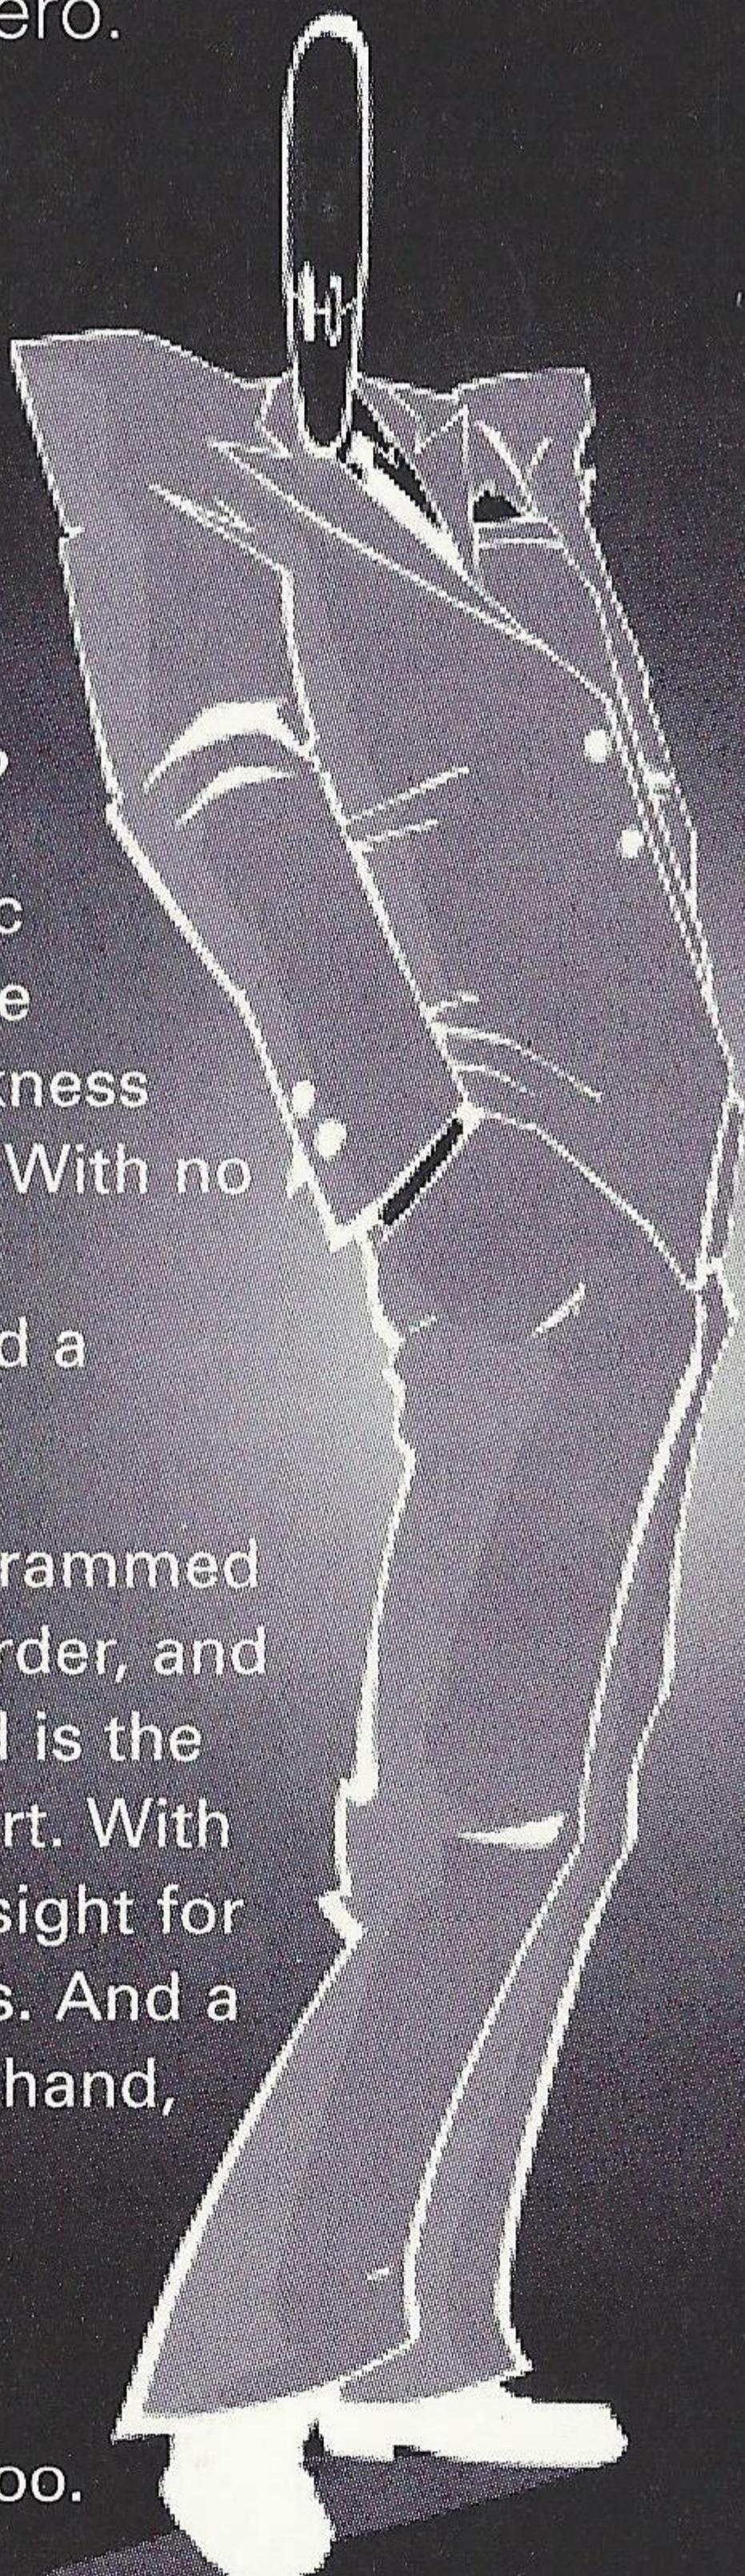

The Man of Steel with his maxi-mousse, romance-novel locks. The Dark Knight without his wholesome Adam West reputation. The Web Head and his brand new, best-selling grimace. What's next, The Super Friends headlining at Lollapalooza???

In this dark age of apathy and chronic bitterness, only one shines as the true anti-hero. Only one is born from darkness — a machine born from a machine... With no culture. No race. No past. No future. No cable TV. No regrets. No soul. And a dead-end job.

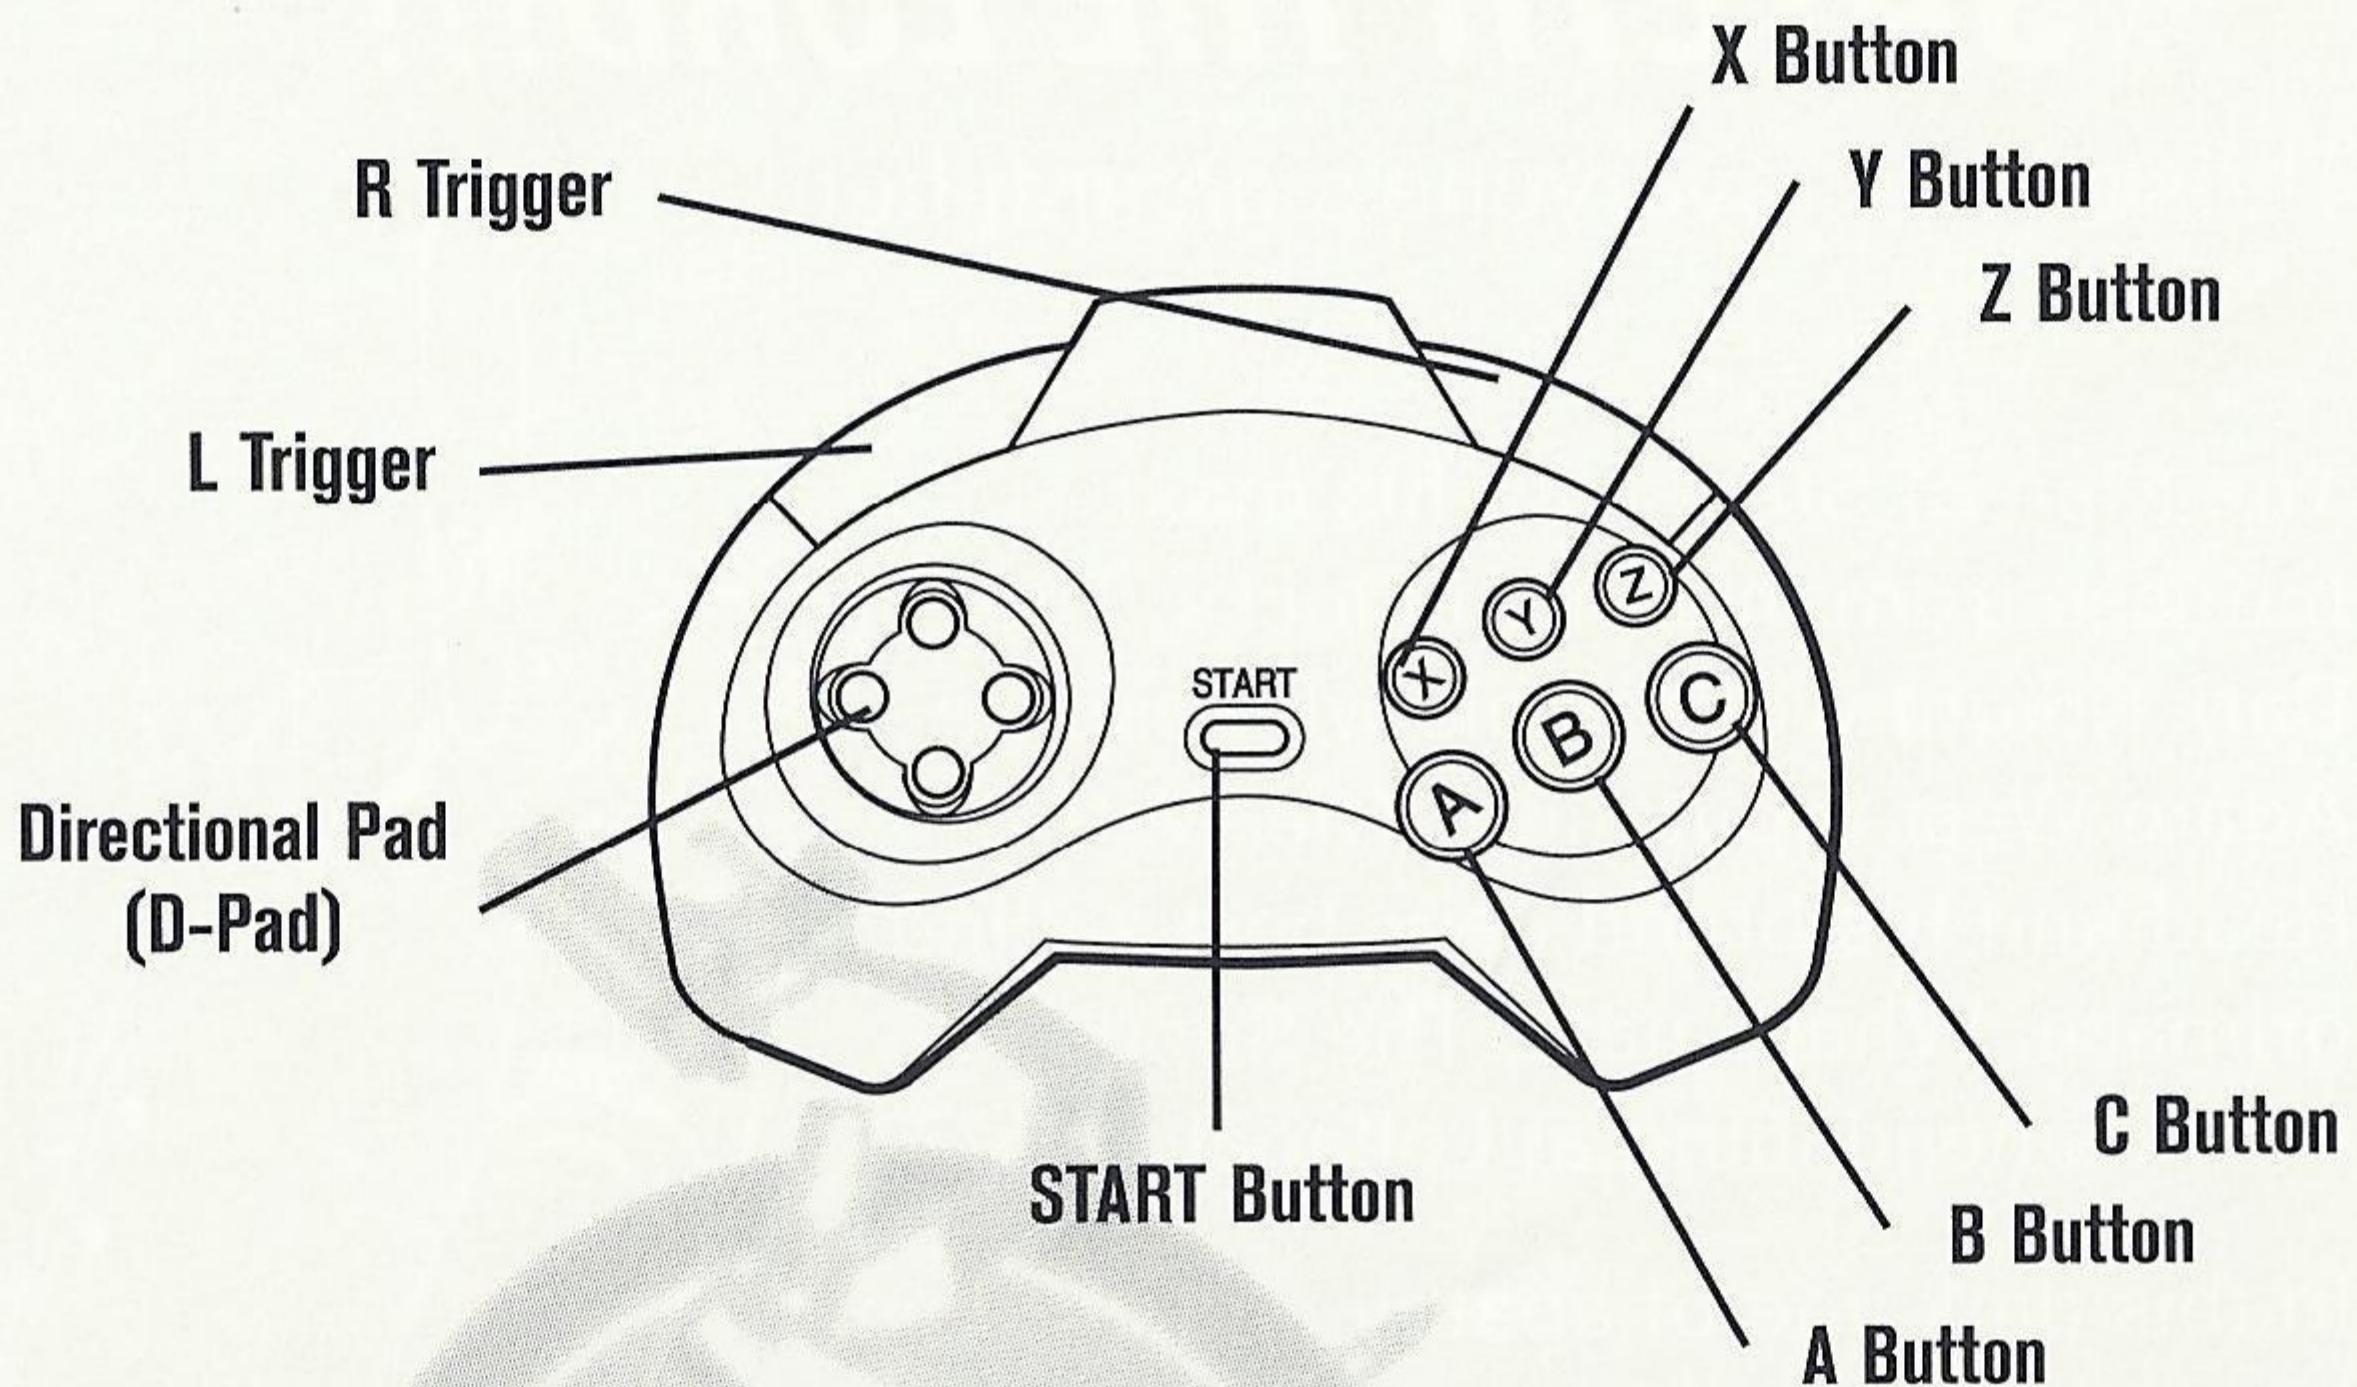

Scud: The Disposable Assassin. Programmed with a will to live, a penchant for murder, and a fate sealed in self-destruction, Scud is the brainchild of his creator's broken heart. With a cyanide capsule for a head. A gun sight for a left eye. Machine gun vents for legs. And a pair of eternally-loaded magnums in hand, Scud is Generation X incarnate.

He's a little bit Star Wars, a little bit Natural Born Killers, a little bit Reservoir Dogs, and a little bit John Woo.

And for just one Frank, he's all yours, direct from your friendly neighborhood Scud Co. vending machine.

CAST OF CHARACTERS

SCUD: THE DISPOSABLE ASSASSIN:

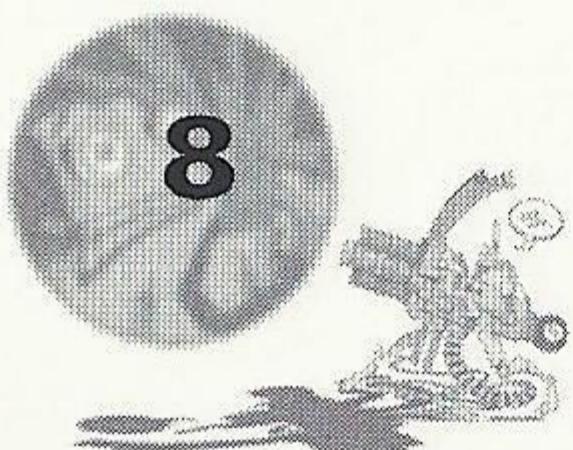

"Set It At One, To Get The Job Done. Set It At Ten, Never See Him Again."

The Scud Heartbreaker Series serial number 1373 is a disposable assassin, programmed to self-destruct after his target has been destroyed.

Scud was purchased to rid the factory of a hideous creature (simply known as Jeff) who has invaded the Marvin's Manikans factory. However, Scud — not your average, run-of-the-mill thrill kill 'bot — managed to locate the "self destruction" warning on his back and decided he liked being among the living. So he just maimed Jeff. Now in order to keep Jeff alive, and himself from going up in smoke, Scud must perform freelance assassinations for blood money.

Drywall

Drywall is Scud's sidekick. Drywall is a young pick-pocket by trade who becomes Scud's assistant. Inside Drywall's zipper laden frame is a self-contained universe big enough to conduct a full-scale game ending warfare climax (as you will soon discover, if you're any good).

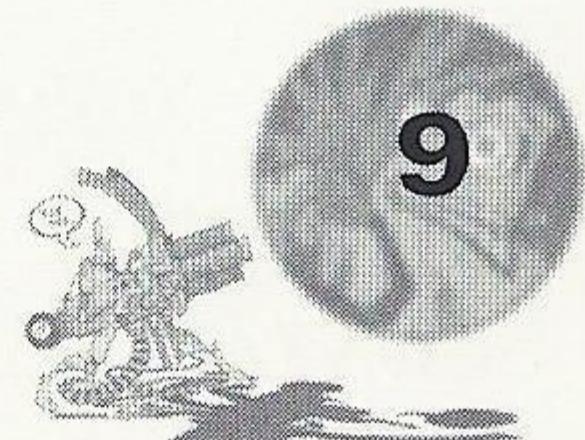

Jeff

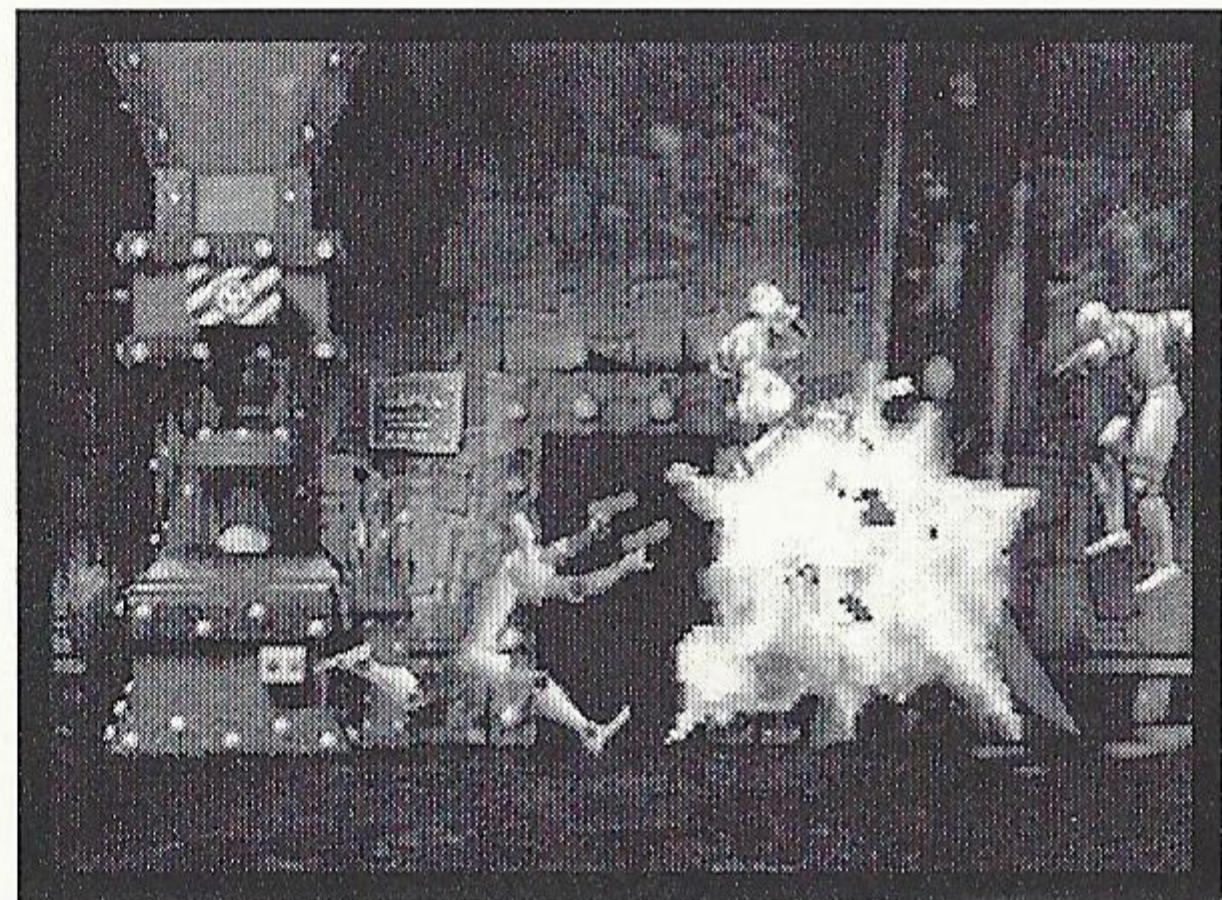

Jeff is a vile, totally hideous Whatsamahusitz from unknown origins. With a three-prong adapter as a cranium, mouse traps as hands, foul mouths as knees, and a freaky squid strapped to its belly, Jeff is an eyesore that needs to be lacerated. After her near-death experience with Scud, Jeff recouped, wasted her doctors, and is now hell-bent on blowing our own #1373 into the Stratosphere. Must be love!!!

Chuck Brown

Since the incarceration and subsequent destruction of the solemn-faced Barry Pollipoey, Chuck Brown (self-proclaimed Master of Machismo) has been the leader of the Grittites, devout followers of Hank Gritt — the savior of suave, the mentor of manliness, the ubermensch of unnecessary explosions. Gritt also makes one heckuva manwich patty. Wherever you find Brown, you'll find Shellbot, a pesky droid who's mission in life is to reload Chuck's forearm firearm; and Mustash, an oaf wearing a 'stash and skimpy shorts. Together, as you will see, they make a deadly trio of destruction.

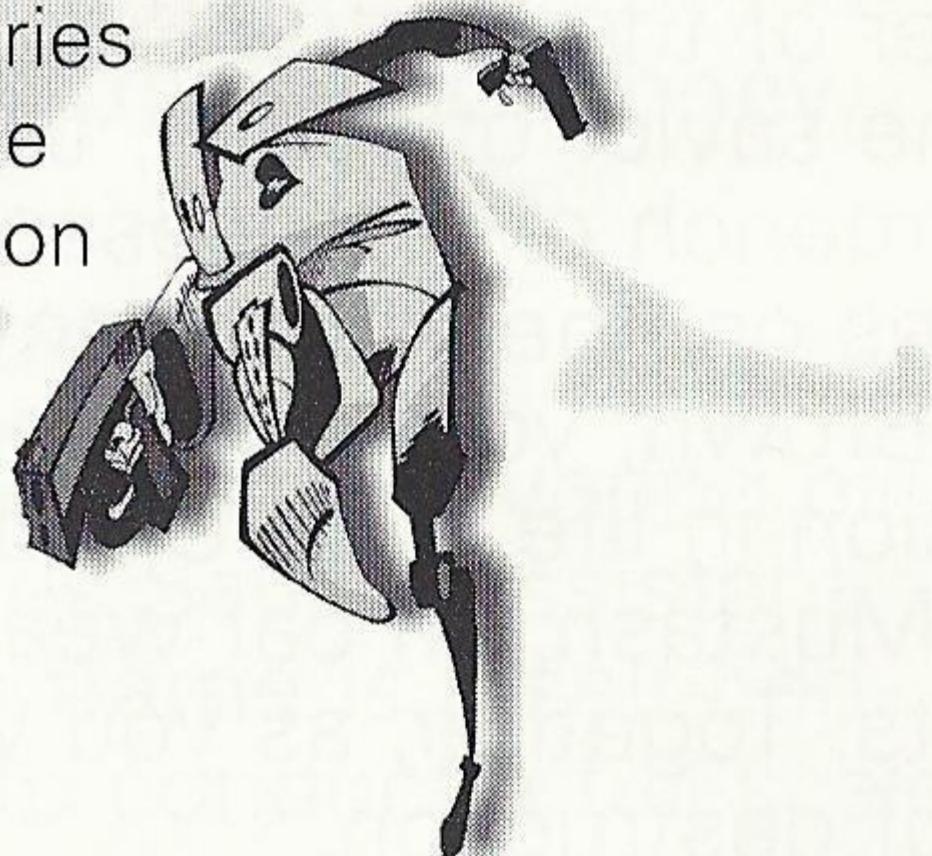

LEVELS — Heavy 3PO: The Sega Saturn Chronicles

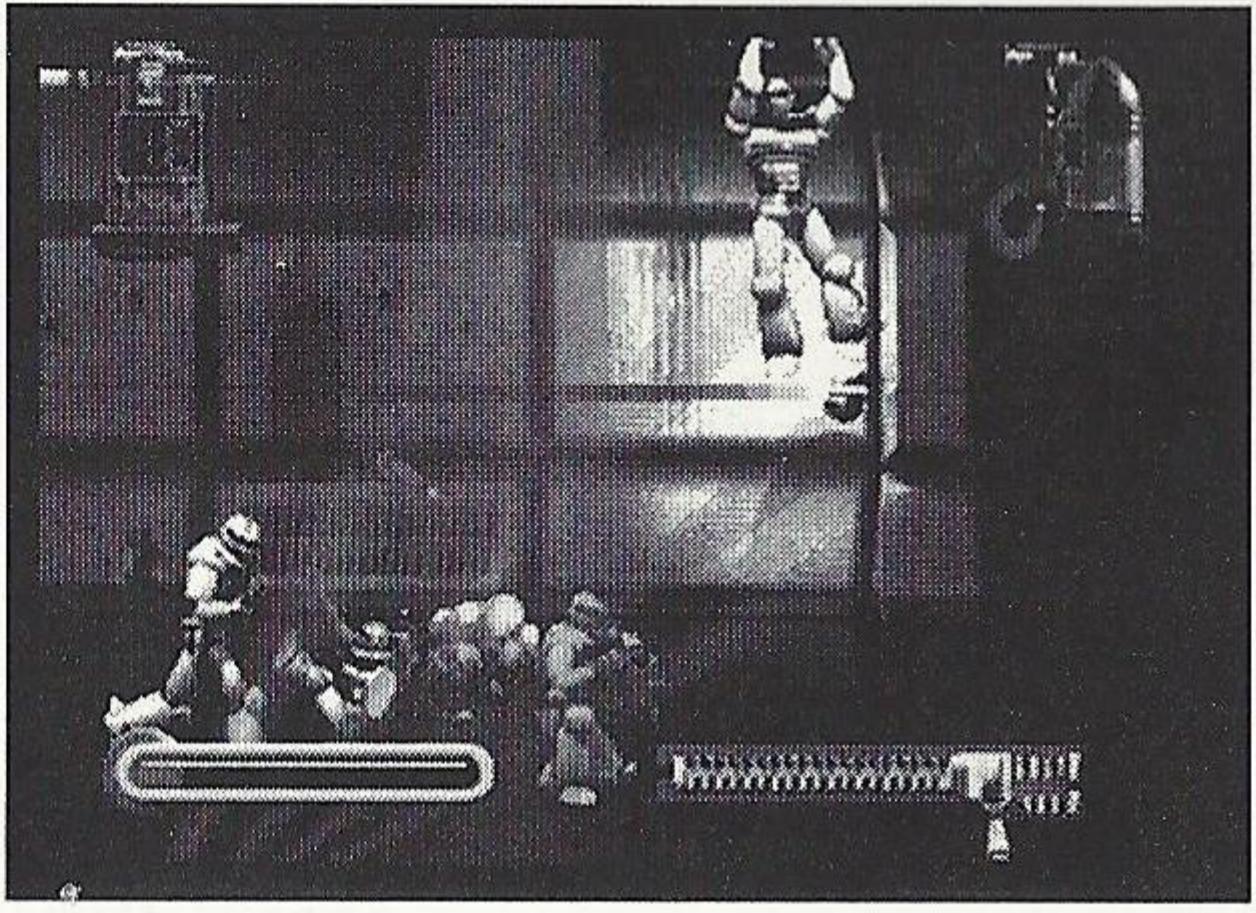

Maim Jeff At The Marvin's Manikans Factory

Seems our first job Jeff isn't pleased with Marvin's Manikans Factory's performance and has been killing and maiming the staff as a result. And now Scud gets to go and uphold the law (in other words, beat this mutant within an inch of her life. Literally). Work your way through the assembly line and disassemble the local stiffness with a lethal dose of double-barrel action. Robotic Sentries and runaway Manikans will provide ideal target practice for your reunion with Jeff — in a mutant-a-machino, plug head-to-cyanide cranium duel for supremacy.

Poppin' Pollipoey At The Penn

To keep Jeff on life support — and you out of the scrap heap — you gotta go freelance for money. Luckily Tony Tastey has a job for you: Rubbing out low-life Barry Pollipoey for killing Don Cortese's precious daughter. Pollipoey is in the Mark Goodson State Penn out in the desert. Infiltrate the North Jefferies Exit and hit him hard, but keep a low profile. Penn guards, law officers, and lowly inmates abound, but crumble easily after a few doses of your twin Magnums. Watch for guard Rottweiler packs in the run & gun prison corridors. But bring goggles, these pooches splatter all over the place!

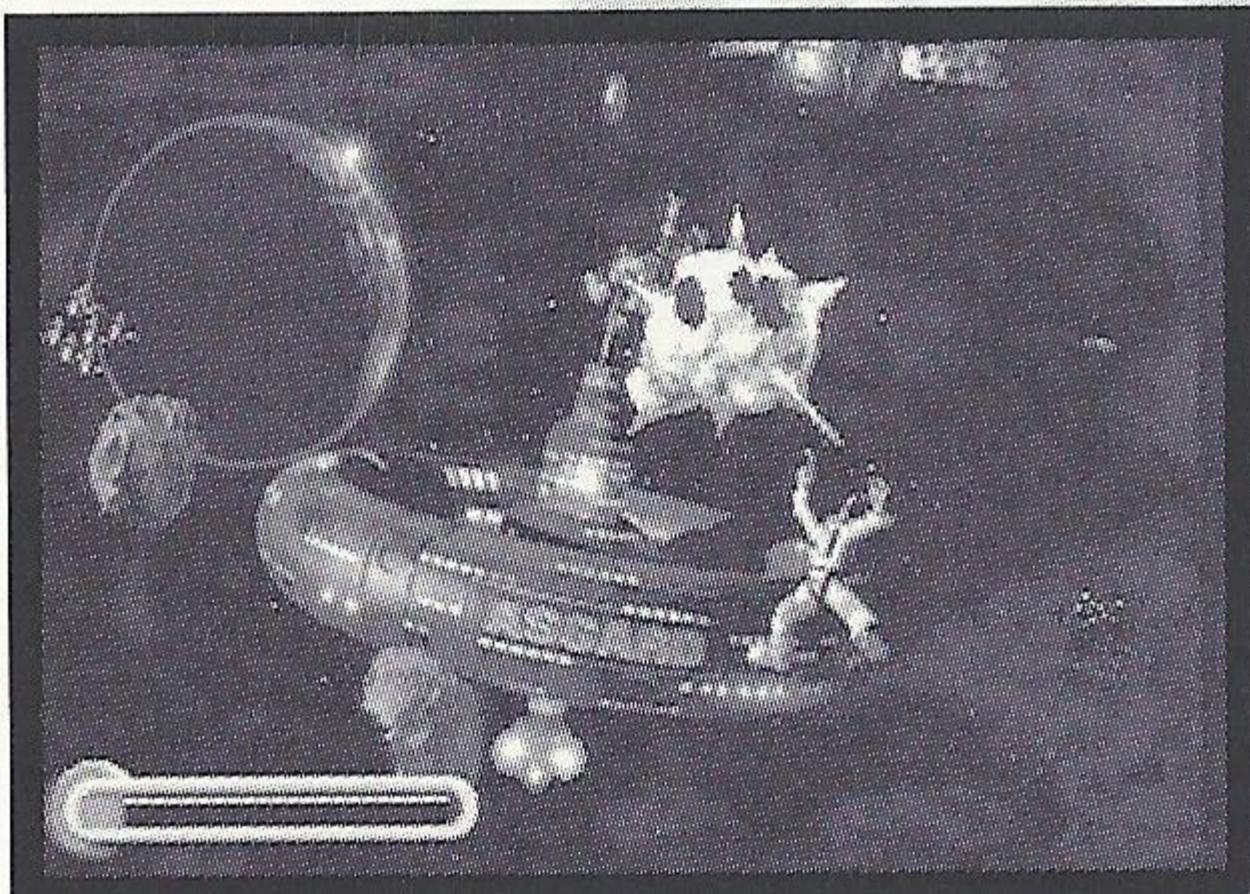

Huntin' Hanksters In The Grittite Desert

Nice job, Mary Lou. Now it's off to the Grittite Desert. Beware, the Grittites are staunch supporters of Hank Gritt, the symbol of manliness and courage. And they're not too thrilled with your wasting their leader Barry Pollipoey. Simply put, testosterone levels are way up. Wage war through monuments and abandoned cars against Sombreros and pink-bodied Brain Grizzlies. Then prepare for a shakedown with Mr. Brown and his handlebar'd Hankster-in-crime, Mustash.

Zombies Unleashed In The City

Voo-Doo Ben Franklin has unleashed his zombified minions over the Big City. Petrified humanoids roaming the streets... mafioso pulling guard duty on ledges... Bone yard yahoos waiting in the wings... Man, this is a far cry from flying kites and writing newspapers. Nonetheless, it's definitely electric out here as old Ben will stop at nothing to permanently end your contract. Ride platforms to get around. Stay out of alleys. And watch your back — things can get a bit explosive real quick.

Space — The Almost Final Frontier

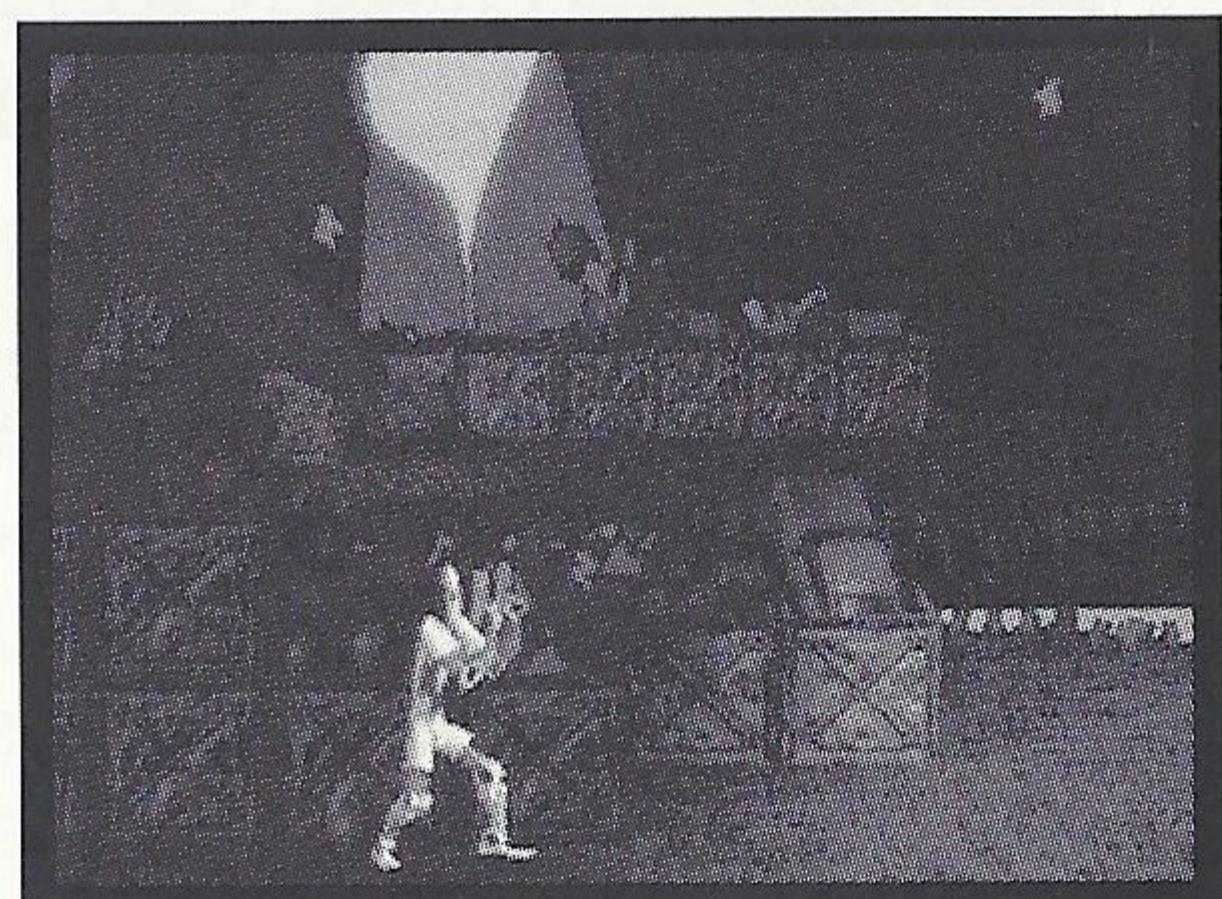

A hyper intelligent computer has launched an all-out assault on Earth. Scud to the rescue! Use your firepower to propel yourself through a seemingly endless barrage of asteroids, rocket-powered Grittite star

gazers, massive cannon turrets, and pesky energy orbs. And if you're really good, you can hang with AM-2 who is responsible for this mess. "Vengeance is mine sayeth the lord!!!"

Guttin' Some Drywall — The Finale

The psychotic mainframe has crashed. Unfortunately, each and every enemy you have faced thus far has found its way inside your sidekick, Drywall. That's right, inside. And the worst part is, the

Zippered One's got major gas: a massive Super Atomic Bomb scheduled to detonate sometime very soon. Believe us, you don't want to hear what this one's got in store for you!
