## The Danger Zones

You start your trek with a total of three adventuresome Frlends. You gain a new friend the first time you make it safely through each Danger Zone, except the Village and the Castle, up to a maximum of eight adventurers at one time.

In the Desert, your friends are attacked by deadly scorpions, vultures, snakes, rabbits, and ants. You gain another friend the first time you survive this zone.

While wandering through the Caverns, watch out for swooping bats, failing stalactites, and a ghastly gloss. Shoot down the two hanging stalactites to fill the crevices in the path so you can get across. Another friend Joins you the flist time you make it safely through the Caverns.

The Volcano spews burning rocks and fiery lava, so watch out. Shoot the resting rock to make a bridge over the lava river. Passing by the volcano safely for the first time earns you another friend.

the steaming depths of the Jungle, wicked monkeys hurl coconuts and toucans with deadly aim. Voracious plants lie in wait for the adventurers. The first time you survive the Jungle Zone, you earn a new friend.

in the Village, the horrors of the night await. From the street, sinister agents appear in the windows, wolves pop up out of nowhere, and even the streetlights are controlled by the Evil Master. From above, chilling ghosts attack, deadly lightning bolts fall, and a cruel witch appears on rooftops, ready to drop devastating fireballs. In this unfriendly village, no bonus friends can join you.

At the River, the scenery is beautiful, but perils await you every step of the way. You are threatened on the bridge by mighty bouncing boulders and swooping pterodactyls. The Evil Master has many spies here. You'll find jumping fish, hungry alligators, and slime monsters in the river, leaping frogs on the riverbank, and a bird hidden in the tree

If you're not careful, you just might meet your match at the Drawbridge, as the Evil Master's loyal archers and pterodactyls try to stop you. Hungry alligators wait in the moat, snapping their jaws at you. To enter the castle, shoot through the two ropes holding up the drawbridge.

At the Castle Hall, a dragon breathes fire, daggers drop from the ceiling, and arrows fly from the walls. A trapdoor is your last barrier to claiming the treasuresshoot the statue's flashing staff to open it.

Shoot the Evil Master's Eve that appears once on every screen to earn bonus points.

If you make it past the Castle Hall, you confront the Evil Master himself. Here he makes his last fearsome attempt to do you in and reclaim the treasures. Your only hope is to shoot his eyes when they glow red.
